Quadir,2013-09-16 This work examines the relevance of traditional Islamic thought and practices for a lasting solution to the current environmental crisis Quadir describes how Seyyed Hossein Nasr challenges Muslims to reclaim their traditional intellectual and Sufi heritage as powerful means toward a most thoughtful approach to the crisis In so doing Nasr urges us to take a critical look at the consequences of the worldviews generated by modern science and technology and offers bold solutions for a more caring relationship between man and nature The book argues that only a revival of the traditional worldview which perceives all entities of nature as signs of God can effectively respond to the crisis our planet faces Revelation, Intellectual Intuition and Reason in the Philosophy of Mulla Sadra Zailan Moris,2013-11-05 This book examines and analyses the legitimacy of the widely held claim that Mulla Sadra s philosophy al hikmah al muta aliyyah is a synthesis of principles and doctrines drawn from revelation wahy gnosis irfan ma rifah and discursive philosophy al hikmah al bahthiyyah In Mulla Sadra s view these three major sources of knowledge can be brought together without contradiction and accorded their respective roles in the human quest for true and certain knowledge This book discusses and demonstrates how Mulla Sadra achieves this synthesis as contained in and exemplified by his text al Hikmah al arshiyyah or Wisdom from the Divine Throne An evaluation on whether or not Mulla

Sadra's synthesis is successful is also undertaken. The criteria used for the evaluation are the internal coherence of his ideas, their conformity to Islamic teachings and impact on Islamic thinkers after him.

What is Shi'i Islam? Mohammad Ali Amir-Moezzi, Christian Jambet, 2018-05-08. For the public at large, Shi'ism often implies a host of confused representations suggesting more often than not obscurantism, intolerance, political violence and other ignominies running hot or cold in response to world events. In fact, for many people, Shi'ism stands for radical Islam or worse, Islamic terrorism. In some respects, nothing is more familiar than Shi'ism and yet nothing is more misunderstood. For some twenty years, the media have increased their coverage of the phenomenon. Never or only rarely do they formulate the question we ask here: what is Shi'ism? What is this belief that inspires millions of people dispersed throughout the world? This book provides a broad-based introduction to Shi'i Islam. It examines what the Shi'i believe, how they see themselves and how they view the world. It includes a thorough examination of doctrine, philosophy, the Shi'i approach to the Qur'an and the historical evolution of Shi'ism as a branch of Islam. Too often and too quickly, the conclusion is drawn that Shi'ism is a marginal, heretical sect, fundamentally alien to the deeper truth of the great religion of Islam, thrust by historical accident onto the political stage. Shi'ism either speaks the truth of Islam, meaning that it is a truth of terror, or it is entirely foreign to Islam and therefore merits outright rejection as Islamic fundamentalists and some individuals repeatedly claim. This book intends to explain why such common misunderstandings of Shi'ism have taken root. Written in an accessible format and providing a thorough overview of Shi'ism, this book will be an essential text for students and scholars of Islamic Studies or Iranian Studies.

Women's Contemporary Readings of Medieval (and Modern) Arabic Philosophy Saloua Chatti, 2022-06-27. This book explores a large variety of topics involved in Arabic philosophy. It examines concepts and issues relating to logic and mathematics as well as metaphysics, ethics and aesthetics. These topics are all studied by different Arabic philosophers and scientists from different periods ranging from the 9th century to the 20th century and are representative of the Arabic tradition. This is the first book dealing with the Arabic thought and philosophy and written only by women. The book brings together the work and contributions of an international group of female scholars and researchers specialized in the history of Arabic logic, philosophy and mathematics. Although all authors are women, the book does not enter into any kind of feminist trend. It simply highlights the contributions of female scholars in order to make them available to the large community of researchers interested in Arabic philosophy and to bring to the fore the presence and representativeness of female scholars in the field.
