Abstract

What is the determinant of the scope of justice? Should rules of justice that regulate the interactions of the members of my society be extended to cover how such members interact with outsiders, entities that fall outside the boundary of my society? Two major approaches—namely, the deontological/contractarian and the utilitarian—offer their answers. Although their answers differ, they are universal in the sense that they do not draw a boundary between the members of my society and outsiders. As a result, one answer is deficient while the other is non-feasible. The only possible answer is the “Average Principle”. The Average Principle means that the boundary of my society can expand as long as the average wellbeing (GDP/capita) of my society does not decline. However, the Average Principle faces its own problem: the Average Principle is contingent on one’s group membership—i.e., amounting to a parochial answer. That is, the Average Principle cannot be a universal response as the case with the deontological/contractarian and the utilitarian approaches. In effect, this paper finds that the scope of the justice question faces a dilemma. While the deontological/contractarian and the utilitarian approaches involve universal moral principles, one is deficient and the other is non-feasible. While the Average Principle reasoning is non-deficient and feasible, it cannot amount to a universal moral principle. This paper finds that the scope of justice dilemma has no solution that is universal while, simultaneously, non-deficient and feasible.

Scope Of Justice:

Handbook of Social Justice Theory and Research Clara Sabbagh, Manfred Schmitt, 2016-02-08 The International Society for Justice Research ISJR aims to provide a platform for interdisciplinary justice scholars who are encouraged to present and exchange their ideas This exchange has yielded a fruitful advance of theoretical and empirically oriented justice research This volume substantiates this academic legacy and the research prospects of the ISJR in the field of justice theory and research Included are themes and topics such as the theory of the justice motive the mapping of the multifaceted forms of justice distributive procedural and justice in context bound spheres e g non humans It presents a comprehensive state of the art overview in the field of justice research theory and it puts forth an agenda for future interdisciplinary and international justice research It is worth noting that authors in this proposed volume represent ISJR s leading scholarship Thus the compilation of their research within a single framework exposes potential readers to high quality academic work that embodies the past current and future trends of justice research

Current Societal Concerns about Justice Leo Montada, Melvin J. Lerner, 2013-06-29 What role does justice play in the formation of public opinion and the scholarly debates about social problems Does the perception of injustice force problems to appear on the political agenda Does the perception of an injustice give momentum to social change Or are violations of self interest or threats to one s material welfare the more important factors Or are empathy driven concerns for the needy and the disadvantaged motivations to solve societal problems What is known about the role justice concerns play in leadership In several chapters of this volume justice concerns and justice motives are viewed in relation to other concerns and motivations welfare self interest altruism It is argued that the consensus of political theorists converges on mutual advantage as the main criterion of acceptable solutions to solving societal problems In economics self interest is considered the driving force and provides the criterion of acceptable solutions Sociological and social psychological exchange theories share these basic assumptions Thus questions are raised and answered concerning how justice and these other important motives appear in the analyses of societal problems and the search for solutions Moreover in addition to the issue of conflicting motives self interest altruism justice it is commonly recognized that the definition of what is just and what is unjust is open to question In public as well as in scientific dialogues diverging views about justice have to be integrated or decided upon

Business Ethics in Theory and Practice Patricia Werhane, Alan E. Singer, 2013-04-17 This book originated in a symposium on business ethics that took place in the Faculty of Commerce at the University of Canterbury in September of 1997 Professor Werhane who was a visiting Erskine Fellow provided the keynote address and many of the papers in this

collection were originally presented at this symposium We are grateful to Kluwer Publishers for the opportunity to publish these essays in their series on International Business Ethics We want to thank the Olsson Center for Applied Ethics at the Darden School University of Virginia and the Erskine Trust and the Department of Management at the University of Canterbury for their support of Professor Werhane's fellowship research for this text and funding for its production We especially want to thank Lisa Spiro who copy edited and prepared the manuscript for publication

INTRODUCTION AND OVERVIEW This book originated in a symposium on business ethics that took place in the faculty of commerce at the University of Canterbury in September 1997 Professor Werhane who was a visiting Erskine Fellow provided the keynote address Contributions to the proceedings were interdisciplinary spanning theory and practice Subsequent contributions were obtained from within New Zealand and from Asia The book starts off on rather a pessimistic note the new managerialism the kind of thing Scott Adams jokes about in the world famous Dilbert cartoons is economically suspect and psychologically damaging

Institutions in Global Distributive Justice Andras Miklos, 2013-02-20 Defining an institution as a public system of rules that sets out positions rights and duties Andras Miklos uses a philosophical argument to analyse the roles that social economic and political institutions play in conditioning the justification scope and content of principles of justice He critically evaluates a number of positions about the role of institutions in generating requirements of distributive justice and considers their implications for the scope global or otherwise of justice He then develops a novel theory about the role political and economic institutions play in determining the content of requirements of distributive justice and in a cosmopolitan argument against statist positions shows how they can affect the scope of application of these requirements

The Psychology of Justice and Legitimacy D. Ramona Bobocel, Aaron C. Kay, Mark P. Zanna, James M. Olson, 2011-02-25 In response to the international turmoil violence and increasing ideological polarization social psychological interest in the topics of legitimacy and social justice has blossomed considerably Social psychologists have explored the psychological underpinnings of people's reactions to injustice and illegitimacy including the behavioral and psychological consequences of the motivation to view individual outcomes and governmental systems as just and legitimate Although injustice and illegitimacy are clearly related at conceptual and theoretical levels these two rich literatures are rarely integrated Social justice researchers have focused on how people make sense of particular instances of injustice whereas legitimacy researchers have tended to focus primarily on people's reactions to unfair systems of intergroup relations This 11th volume

of the Ontario Symposium series brings together the work of leading researchers in fields of social justice and legitimacy to facilitate the cross pollination and integration of these fields The contributions address broad theoretical issues and cutting edge empirical advances while illustrating the diversity and richness of research in the two fields By uniting these two domains this volume will stimulate new directions in theory and research that seek to explain how and why people make sense of injustice at all levels of analysis *Justice, Legitimacy, and Diversity* Emanuela Ceva, Enzo Rossi, 2013-09-13 Most contemporary political philosophers take justice rather than legitimacy to be the fundamental virtue of political institutions vis vis the challenges of ethical diversity Justice driven theorists are primarily concerned with finding mutually acceptable terms to arbitrate the claims of conflicting individuals and groups Legitimacy driven theorists instead focus on the conditions under which those exercising political authority on an ethically heterogeneous polity are entitled to do so But what difference would it make to the management of ethical diversity in liberal democratic societies if legitimacy were prior to or independent from justice This question identifies a widely underexplored issue whose theoretical salience shows how the understanding of what constitutes the primary question of political philosophy has a deep impact on how practical political questions are interpreted and addressed What difference would it make for example whether the difficulties concerning the safeguard of human rights were couched in terms of the justice or of the legitimacy of the documents and treaties sanctioning their implementation How should the issue of the quality of democracies be addressed whether one assigned priority to the justice or legitimacy of democratic institutions Addressing these and other topical questions the book offers a new theoretical angle from which to consider a number of pressing social and political issues This book was previously published as a special issue of the Critical Review of Social and Political Philosophy *Justice* Karen A. Hegtvedt, Jody Clay-Warner, 2008-08-01 Discusses a range of fundamental issues about justice This work addresses issues pertaining to distributive procedural and interactional justice using a range of methodologies It focuses on issues relevant to the processes underlying justice evaluations including motivations perceptions identities ideologies and exclusionary practices
