range of inter disciplinary themes and notions it considers the cultural legacy of the period brings to light the socially and historically conditioned meanings and values encapsulated in museum narratives of the Clearances and shows the significance of collective memory in the negotiations inherent in heritage work Examining both national and local museums in Scotland and concluding with comparisons with Australian museums of migration Dynamics of Heritage contributes to our understanding of the processes of heritage construction and its relationship to issues of memory and other modes of engagement with the past **Current British Directories** ,2003
