Screw Nevada A Cartoon Chronicle Of The Yucca Mountain Nuke Dump Controversy:

Screw Nevada! Jim Day, 2002 Since 1987 editorial cartoonist Jim Day of the Las Vegas Review Journal has satirized the process of attempting to find the best way to dispose of nuclear waste by studying only a single option burying the stuff in Nevada and shipping it through hundreds of populated cities across America in the process As Congress prepared to endorse what some feared as the inevitable Day and the Las Vegas Review Journal collected the best and insightful of those jabs into this book

Environmental Criticism for the Twenty-First Century Stephanie LeMenager, Teresa Shewry, Ken Hiltner, 2011-05-09 Environmental Criticism for the Twenty First Century showcases the recent explosive expansion of environmental criticism which is actively transforming three areas of broad interest in contemporary literary and cultural studies history scale and science With contributors engaging texts from the medieval period through the twenty first century the collection brings into focus recent ecocritical concern for the long durations through which environmental imaginations have been shaped Contributors also address problems of scale including environmental institutions and imaginations that complicate conventional rubrics such as the national local and global Finally this collection brings together a set of scholars who are interested in drawing on both the sciences and the humanities in order to find compelling stories for engaging ecological processes such as global climate change peak oil production nuclear proliferation and food scarcity Environmental Criticism for the Twenty First Century offers powerful proof that cultural criticism is itself ecologically resilient evolving to meet the imaginative challenges of twenty first century environmental crises

Literary Nevada Cheryl Glotfelty, 2016-06-01 Over 200 writings about Nevada with selections from Native American tales to contemporary writings on urban experience and environmental concerns The state of Nevada embodies paradox and contradiction home to one of the fastest growing cities in the nation and to isolated ranches scattered across a sparsely populated backcountry Nevada is a place where the lust for sudden wealth has prompted both wild mining booms and glittering casinos and where forbidding atomic test sites coexist with alluring tourist meccas The variety and distinctiveness of Nevada s landscape and peoples have inspired writers from the beginning of immigrant contact with the region This contact has produced abundant literary wealth that includes the rich oral traditions of Native American peoples and an amazing spectrum of contemporary voices Literary Nevada is the first comprehensive literary anthology of Nevada It contains over 200 selections ranging from traditional Native American tales explorers and emigrants accounts and writing from the Comstock Lode and other mining boomtowns as well as compelling fiction poetry and essays from throughout the state s history There is work by well known Nevada writers such as Sarah Winnemucca Mark Twain and Robert Laxalt by established and emerging writers from all parts of the state and by some nonresident authors whose work illuminates important facets of the Nevada experience The book includes cowboy poetry travel writing accounts of nuclear Nevada narratives about rural life and urban life in Las Vegas and Reno poetry and fiction from the state s best contemporary writers and accounts of the special beauty of wild Nevada s mountains

and deserts Editor Cheryll Glotfelty provides insightful introductions to each section and author The book also includes a photo gallery of selected Nevada writers and a generous list of suggested further readings Nevada has inspired an exceptionally rich panorama of fine writing and a dazzling array of literary voices The selections in Literary Nevada will engage and delight readers while revealing the complex and exciting diversity of the state s history people and life

Nuclear Waste Stalemate Robert Vandenbosch, Susanne E. Vandenbosch, 2007 This book examines the complex political legal and scientific issues relating to the disposal of nuclear waste an issue that is gaining attention as demands for energy increase exponentially **Books in Print Supplement**, 2002 *Closing Yucca Mountain: Litigation Associated with Attempts to Abandon the Planned Nuclear Waste Repository* Todd Garvey, 2012-06-11 Passed in 1982 the Nuclear Waste Policy Act NWPA was an effort to establish an explicit statutory basis for the Department of Energy DOE to dispose of the nation s most highly radioactive nuclear waste The NWPA requires DOE to remove spent nuclear fuel from commercial nuclear power plants in exchange for a fee and transport it to a permanent geologic repository or an interim storage facility before permanent disposal Defense related high level waste is to go into the same repository In order to achieve this goal and in an effort to mitigate the political difficulties of imposing a federal nuclear waste facility on a single community Congress attempted to establish an objective scientifically based multi stage statutory process for selecting the eventual site of the nation s new permanent geologic repository Congress amended the NWPA s site selection process in 1987 however and designated Yucca Mountain Nevada as the sole candidate site for the repository by terminating site specific activities at all other sites The Obama Administration in conjunction with DOE has taken three important steps directed toward terminating the Yucca Mountain project First the Administration s FY2011 FY2012 and FY2013 budget proposals eliminated all funding for the Yucca Mountain project Second the President and Secretary of Energy Steven Chu established a Blue Ribbon Commission to consider alternative solutions to the nation s nuclear waste challenge Third and most controversial DOE has attempted to terminate the Nuclear Regulatory Commission s NRC s Yucca Mountain licensing proceeding by seeking to withdraw the license application for the Yucca Mountain facility DOE s withdrawal motion triggered strong opposition from a number of concerned parties The states of Washington and South Carolina each awaiting cleanup and removal of defense related nuclear waste at the Hanford and Savannah River Sites respectively have played significant roles in the legal challenge to the license withdrawal Claims challenging the Secretary s authority to withdraw the Yucca Mountain license application were filed with both the NRC and the U S Court of Appeals for the District of Columbia D C Circuit Although DOE s motion to withdraw the Yucca Mountain license application was denied by the NRC s Atomic Safety and Licensing Board the NRC suspended the Yucca Mountain licensing proceeding in 2011 due to budgetary limitations The D C Circuit has since dismissed a challenge to DOE s authority to withdraw the license application and heard oral arguments on claims challenging NRC s authority to terminate the licensing proceeding While the result of the ongoing dispute over the legality of the

attempted termination of the Yucca Mountain program remains uncertain congressional action could have a significant impact on the fate of the Yucca Mountain facility A number of leading House Republicans have voiced strong opposition to shutting down the Yucca Mountain facility Consequently the Yucca Mountain dispute will not only be contested before the NRC and the D C Circuit but also in Congress Why Nevada is Opposed to Yucca Mountain Nevada. Nuclear Waste Project Office,1994
