The Story of Vijanti J Anvari, 2024-05-23 India 1946 a time of violent turbulence and change in a country on the brink of independence from the British Raj A time when an innocent love between a beautiful young Anglo Indian girl from an impoverished village and an infatuated young British soldier stationed in India is put to the ultimate test Ensnared in the British Empire's end of rule in India their tender love is swiftly torn apart by stringent military regulations grim cultural traditions and opposing caste prejudices deep rooted in rural India Into the story are woven horrors of the commoditization of women the outrageous poverty of the lower caste and the existence of antiquated traditions like dowries virginity as a bargaining chip It reverberates with the present ferocious discrimination against women all over the world It is a riveting saga of love that knows no borders which transcends tragic events patriarchal compulsions and domestic violence a love that

is enshrined as eternal memories of a magical time and place Art or Scribbles? In the Eye of the Beholder: The Evolutionary Emergence of Visual Communication Iain Davidson, 2025-08-07 The book is about how art arose and how it became what we call art today How did art emerge from the relationships between people and the things they produce and the ideas of producers How do people manipulate those relationships in their own society How do outsiders work out the ways in which those relationships were used to make art What is art and why are all people engaged with it in one way or another From its very beginning and everywhere art has always been embedded in its cultural context the contexts of the people who made and see it and that context has often been ritual The history of art confused social and institutional changes of view because western critics or artists sought to define the boundaries of art so tightly that ritual purposeful or utilitarian works were excluded from it In their definition art only existed if the rituals of the original producers were stripped from the works or if the objects were appropriated away from the situation in which they were produced The objects stripped from their context could then only be valued for their aesthetics Art consists of relationships between people things and ideas in quite specific ways Those relationships are discussed at length in this book The book is aimed at artists art historians and archaeologists but also at the general public interested in art It is intended both for people whose interest in art comes from knowledge of the art of all continents and for those who have no knowledge *Breakaway Heart* Gary A. Piazza, 2018-10-26 From 75 96 more than a million people fled Vietnam in search of a better life Thirty percent lost their lives at sea or in camps This is the story of one person s struggle of survival redemption and retribution *Carnal Thoughts* Vivian Sobchack, 2004-10-02 A group of sophisticated essays on how we experience film with all fives senses and our sense of history
