Lâle Demirtürk, 2012-07-20 This book examines the post 1990s African American novels namely the neo urban novel and develops a new urban discourse for the twenty first century on how the city as a social formation impacts black characters through everyday discursive practices of whiteness The critique of everyday life in a racial context is important in considering diverse forms of the lived reality of black everyday life in the novelistic representations of the white dominant urban order African American fictional representations of the city have political significance in that the neo urban novel explores the nature of the American society at large This book explores the need to understand how whiteness works what it forecloses and what it occasionally opens up in everyday life in American society **Encyclopedia of Gender in Media** Mary Kosut, 2012-05-18 The Encyclopedia of Gender in Media critically examines the role of the media in enabling facilitating or challenging the social construction of gender in our society Identity Research and Communication Nilanjana Bardhan, Mark P. Orbe, 2012-04-05 The concept of identity has steadily emerged in importance in the field of intercultural communication especially over the last two decades In a transnational world marked by complex connectivity as well as enduring differences and power inequities it is imperative to understand and continuously theorize how we perceive the self in relation to the cultural other Such understandings play a central role in how we negotiate relationships build alliances promote peace and strive for social justice across cultural differences in various contexts Identity Research in Intercultural Communication edited by Nilanjana Bardhan and Mark P Orbe is unique in scope because it brings together a vast range of positions on identity scholarship under one umbrella It tracks the state of identity research in the field and includes cutting edge theoretical essays some supported by empirical data and queries what kinds of theoretical methodological praxiological and pedagogical boundaries researchers should be pushing in the future This collection's primary and qualitative focus is on more recent concepts related to identity that have emerged in scholarship such as power privilege intersectionality critical selfhood hybridity diaspora cosmopolitanism queer theory globalization and transnationalism immigration gendered and sexual politics self reflexivity positionality agency ethics dialogue and dialectics and more The essays are critical interpretive postmodern postcolonial and performative in perspective and they strike a balance between U S and transnational views on identity This volume is an essential text for scholars educators students and intercultural consultants and trainers

Steinberg,2009 This reader demands that we understand diversity and multiculturalism by identifying the ways in which curriculum has been written and taught and by redefining the field with an equitable lens freeing it from the dominant cultural curriculum The book problematizes the issue of whiteness for instance as not being the opposite of blackness or person of color but rather a meta description for our dominant culture Issues are also addressed that are usually left out of the discussion about diversity and multiculturalism this reader includes essays on physical diversity geographic diversity and difference in sexualities This is the quintessential collection of work by critical scholars committed to redefining the conversation on multiculturalism and diversity *Superheroes and Excess* Jamie Brassett,Richard Reynolds,2021-11-29 Finding the superhero genre in need of further investigation from philosophical standpoints that value excess as a creative drive rather than denigrate it as a problem to be resolved this book opens up discussions that highlight different approaches to the creative excess of being as expressed through the genre While superheroes are an everyday culturally dominant phenomena philosophical methods and investigations have a reputation for lofty superiority Across 13 chapters this book facilitates a collision between the superhero genre and the discipline of philosophy resulting in a voyage of exploration where each illuminates the other The contributions in this book range from new voices to recognized scholars offering superhero studies a set of critical interventions that are unusual conceptually diverse theoretically grounded and varied in practice These chapters consider excessive traits of superheroes against schools of thought that have attempted to conceptualize and understand excess by analysing texts and figures across a variety of mediums such as The Fantastic Four Captain America The Vision Logan Black Panther and Super Hero Girls With its unique approach to the superhero genre this book will be an invaluable read for students and scholars working on comic studies transmedia studies cultural studies popular culture and superhero studies Bible Blindspots Jione Havea,Monica Jyotsna Melanchthon,2021-11-03 Several of the ways and cultures that the Bible privileges or denounces slip by unnoticed When those the privileged and the denounced are not examined they fade into and hide in the blind spots of the Bible This collection of essays engages some of the subjects who face dispersion physical displacement that sparks ideological bias and othering ideologies that manifest in social distancing and political displacement These include among others the builders of Babel Samaritans Melchizedek Jezebel Judith Gomer Ruth slaves and mothers In addition to considering the drive to privilege or denounce the contributors also attend to subjects ignored because the Bible s blind spots are not examined These include planet Earth indigenous Australians Palestinians Dalits minjungs battered women sexual abuse victims religious minorities mothering men gays and foreigners This collection encourages interchanges and exchanges between dispersion and othering and between the Bible and context It flows in the currents of postcolonial and gendered studies and closes with a script that stages a biblical character at the intersection of the Bible s blind spots and modern readers passions and commitments *Living Racism* Derrick R. Broome,Theresa Rajack-Talley,2017-12-15 Living Racism is based on the premise that race and racism are well entrenched elements of US

society The contributors of this volume argue that race and racism are more than mere concepts instead they see and treat these as part of the fabric that constitutes and organizes everyday life Consequently race and racism are maintained through structures such as social institutions e g schools criminal justice system media etc and are carried by individual actors through racial ideologies and a racial etiquette beliefs practices traditions and customs that inform how people relate to and interact with one another or not As expressed throughout this book the notion of living racism is twofold On the one hand living racism denotes the ways in which racism is embodied and active much like a living organism On the other hand living racism connects with the ways that people must navigate racism in their individual and collective lives **Matter, Magic, and Spirit** Rolland Murray, David Murray, 2007-01-05 In *Our Living Manhood* Rolland Murray examines how James Baldwin John Edgar Wideman Clarence Major John Oliver Killens and other writers challenged the Black Power movement's political commitment to masculinity in the 1960s
