Human Resource Management and Internal Marketing Teena Mishra, 2022-12-30

This book explains various key concepts of internal marketing and its relation to human resource management, commitment, service quality, market orientation, etc. Various human resource models are insufficient to define internal marketing. Therefore, there is a need to focus on the models and key concepts of human resource management and internal marketing and in what way they contribute to organizational success. It involves motivation, internal market research, internal communication, internal segmentation, employee retention, inter-functional coordination, and internal branding. The current need for human resource management is to link human resource management and marketing practices which are called internal marketing. Internal marketing plays an eminent role in organizational success. This book helps students, practitioners, start-ups, and educationists. This is a research monograph that will assist an organization to decide the future of human resource management as well as organizational development. This book is for marketing as well as human resource discipline as internal marketing is the integration of marketing and human resource management. Due to new technology, globalization, and liberalization, market need and demand are also changing; thus, it is necessary to understand new trends in the application of human resources. Therefore, it is necessary to motivate and satisfy internal customers and make them market and skill oriented.

Introduction to Service Engineering

Waldemar Karwowski, 2010-01-12. What you need to know to engineer the global service economy. As customers and service providers create new value through globally interconnected service enterprises, service engineers are finding new opportunities to innovate, design and manage the service operations and processes of the new service-based economy. Introduction to Service Engineering provides the tools and information a service engineer needs to fulfill this critical new role. The book introduces engineers as well as students to the fundamentals of the theory and practice of service engineering, covering the characteristics of service enterprises, service design and operations, customer service and service quality, web-based services and innovations in service systems. Readers explore such key aspects of service engineering as: The role of service science in developing a smarter planet; Service enterprises including enterprise value creation architecture of service organizations; service enterprise modeling and the application of methods of systems engineering to services; Service design including collaborative e-service systems and the new service development process; Service operations and management including service call centers; Service quality from design operations to customer relations; Web-based services and technology in the global e-organization; Innovation in service systems from service engineering to integrative solutions; service-oriented architecture solutions and technology transfer streams. With chapters written by fifty-seven specialists and edited by bestselling authors Gavriel Salvendy and Waldemar Karwowski, Introduction to Service Engineering uses numerous examples, problems and real-world case studies to help readers master the knowledge and the skills required to succeed in service engineering.

Services Marketing C. Bhattacharya, 2009. While most books on marketing and services are readable, very few take the student's viewpoint and set out to answer the question: Is it understandable in the affirmative? This book and its pedagogy has been designed precisely with this in mind. v Design The book has a consistency of design that is innovative with aesthetic appeals. v Opening and Closing Cases Every chapter begins and ends with a case. The cases introduce the primary theme and issues discussed in the chapter and close with analytical tasks for the students. The cases are original, pertaining to Indian situations, companies and protagonists helping the Indian students to connect. v Objectives Every chapter has clear learning expectations. v Get a glimpse of the chapter context and their respective importance. v End of chapter Questions The questions are many and have been designed carefully to enhance learning for the students. There are elements

of research project work and academic exercises in them v Illustrations The book is generous with pleasing and informative charts tables and diagrams v Glossary The Appendix at the end of the book contains a glossary of services and marketing terminologies v Marketing models In addition to the text the appendix also contains major marketing models mentioned in the text which are frequently used by the marketers v How to do cases The Appendix also contains an useful section for all students a template for case discussion and analysis There are four parts in the book Part I takes an overview look at the major differences between services and goods and their characteristics classifications and different models It methodically analyses the section on the local domestic and international conditions and environment factors that have affected services It also examines the importance of Relationship Marketing in services Part II examines in depth the marketing of services It looks sweepingly and with depth at marketing planning and strategy service buying behaviour knowledge management and marketing research in services and the seven marketing mix variables for services Part III is about the assessment of service delivery and customer relationship management Part IV deals exclusively with comprehensive service cases The cases are in addition to the opening and closing cases The book lucidly explains the basic concepts of services and marketing and fills a long standing need of the students for a book on both services and marketing *Value in Marketing* Marin A.
