History of the Association of Black Psychologists Robert L. Williams, 2008 This book The History of Black Psychologists Profiles of Outstanding Black Psychologists is about the origins and development of African Black psychology It is essentially a sequel to Robert Guthrie's book *Even the Rat Was White* a historical view of psychology 1976 Whereas Guthrie's book contains the history of early Black Psychologists as Drs Francis Cecil Sumner Kenneth Clark and Martin Jenkins to name a few from 1920 to 1950 this book contains valuable information from the 60's through 2000 about why where and when the Association of Black Psychologists ABPsi was organized and developed In addition the book includes the autobiographical and biographical profiles of the lives achievements and contributions of nearly 50 outstanding Black psychologists There are many hard working dedicated and educated black men and women professionals whose success stories have not been told Although their peers and colleagues respect many of these professionals only a select few have been reported as outstanding What is it then that qualifies one as being exceptional above the ordinary and outstanding It is hard to define in terms of human traits and accomplishments What is easier is to provide examples rather than explanations of what it means to be outstanding Such individuals who exemplify the definition of outstanding are many unknown Black Psychologists This book will present some of these Scholar Activists It is apparent that the majority of the Black psychologists made it against the odds Many of these psychologists were born in southern states and had to migrate to northern states to receive a graduate education For Black achievement is invariably a
