

SETTING CONTEXT/CITING

Remember: To set context, you need to situate the reader within the part of the book that your evidence appears; who is speaking, if at all? What's going on? Write in the literary present; you may have already read the text, but when you return to that page, the action is then and there occurring.

Ex: Early in the novel, Lennie **says** that he likes ketchup with his beans as he **whines** to George that...

Meiselman,2019-04-20 Context The Effects of Environment on Product Design and Evaluation addresses the environment or context in which we consume products and the impact of context on choice and acceptability The book explores what context is how it influences design by specialists and acceptance by consumers Chapters discuss the basics of context food and drink in context testing a range of other products and other contextual variables Historically research on context has been done in the laboratory and various natural locations but rapid growth in other methods to study context including evoked contexts immersive contexts virtual reality contexts and more have widened research possibilities Appealing to the professional academic and commercial markets this book will be of interest to those who conduct research in product development and product testing to those who study what controls product usage including eating from the health perspective and to those who make decisions about product and space development Explores

information on how context works and how to assess its influence on product decisions Discusses the basics of context food and drink in context and testing other products in context including personal care products and home and workspace design Identifies variables that contribute to the contextual experience Exploring Context in Information Behavior Naresh Kumar Agarwal,2022-05-31 The field of human information behavior runs the gamut of processes from the realization of a need or gap in understanding to the search for information from one or more sources to fill that gap to the use of that information to complete a task at hand or to satisfy a curiosity as well as other behaviors such as avoiding information or finding information serendipitously Designers of mechanisms tools and computer based systems to facilitate this seeking and search process often lack a full knowledge of the context surrounding the search This context may vary depending on the job or role of the person individual characteristics such as personality domain knowledge age gender perception of self etc the task at hand the source and the channel and their degree of accessibility and usability and the relationship that the seeker shares with the source Yet researchers have yet to agree on what context really means While there have been various research studies incorporating context and biennial conferences on context in information behavior there lacks a clear definition of what context is what its boundaries are and what elements and variables comprise context In this book we look at the many definitions of and the theoretical and empirical studies on context and I attempt to map the conceptual space of context in information behavior I propose theoretical frameworks to map the boundaries elements and variables of context I then discuss how to incorporate these frameworks and variables in the design of research studies on context We then arrive at a unified definition of context This book should provide designers of search systems a better understanding of context as they seek to meet the needs and demands of information seekers It will be an important resource for researchers in Library and Information Science especially doctoral students looking for one resource that covers an exhaustive range of the most current literature related to context the best selection of classics and a synthesis of these into theoretical frameworks and a unified definition The book should help to move forward research in the field by clarifying the elements variables and views that are pertinent In particular the list of elements to be considered and the variables associated with each element will be extremely useful to researchers wanting to include the influences of context in their studies **The International**
