**Stakeholders' Perspectives on Assessment and Improvement of Quality in Early Childhood Education and Care: A World-Wide Kaleidoscope** Antonia Elisabeth Enikoe Baumeister, Hui Li, Linda Joan Harrison, 2024-08-29 The key aims of early childhood education and care ECEC are to offer children from all social backgrounds a good start in their lives to support parenting as well as families workforce participation and thereby to sustainably strengthen the national economy over current and future generations High quality ECEC has been shown to improve child outcomes and be a buffer against developmental risk factors For these reasons governments ECEC providers and researchers are placing an increasing focus on the frameworks and systems that underpin quality as well as the measures that assess quality At the same time however research on ECEC as a multidisciplinary endeavor has shown that the aims and benefits of high quality ECEC can only be reached when all stakeholders needs are acknowledged and sufficiently met For example recent evidence suggests that the acceptability and social validity of quality assessment and improvement methods are contested among some

stakeholders and thus the sustainability of these quality efforts may be in doubt New challenges also include the ever changing nature and circumstances affecting ECEC stakeholders for example the greater flows of refugee families and the impact of the Covid 19 pandemic This Frontiers Research Topic will contribute to an updated knowledge base in order to inform governments providers and the scientific community about best practices and new solutions for conceptualizing measuring and improving ECEC quality The aim of the proposed Research Topic is to generate a worldwide kaleidoscope of research studies that explore and discuss models for gathering the perspectives of multiple stakeholders and considering the meaningfulness of stakeholder views for conceptualizing assessing and improving quality in ECEC We believe that greater attention needs to be given to the diversity of stakeholders who are invested in ECEC including government regulatory authorities service providers educators families communities and children We also believe that wide ranging stakeholder input will generate innovative methods for assessing and improving quality that keep pace with our rapidly changing information society Two further foci are set on ECEC practices 1 that support participation diversity and inclusion of all children and families and 2 that are suitable for developing countries and diverse populations within countries In this the focus is not only on best practices but also on the limitations of practices In soliciting research articles on ECEC stakeholder perspectives we describe stakeholders as inclusive of government non government regulatory agencies service providers teachers and caregivers families communities and children Themes of interest include but are not limited to Assessment of quality in ECEC including self assessment approaches The design of and use of quality frameworks in ECEC Effects of quality and of quality improvement on children and families Drivers and indicators of quality improvement Acceptance and sustainability of quality efforts among ECEC stakeholders Policy expectations of quality rating and improvement systems e g funding policy The role of teacher and caregiver professionalization All types of center based and home based ECEC We are interested both in quantitative and qualitative research designs as well as in mixed methods research Cross sectional longitudinal quasi experimental and case study designs are welcome The following article types are welcome original research empirical studies systematic reviews community case studies policy briefs articles and brief research reports

*Teacher Education in Times of Change* Gary Beauchamp, Linda Clarke, Teresa O'Doherty, 2015-12-02 Teacher education in times of change offers a critical examination of teacher education policy in the UK and Ireland over the past three decades Written by a research group from five countries it makes international comparisons and covers broader developments in professional learning to place these key issues and lessons in a wider context *ECEL 2016 - Proceedings of the 15th European Conference on e-Learning*, Proceedings of the 15th European Conference on e Learning ECEL 2016

Handbook of Research on Schools, Schooling and Human Development Judith L. Meece, Jacquelynne S. Eccles, 2010-06-10 Children spend more time in school than in any social institution outside the home And schools probably exert more influence on children s development and life chances than any environment beyond the home and neighbourhood The purpose of this

book is to document some important ways schools influence children's development and to describe various models and methods for studying schooling effects. Key features include Comprehensive Coverage: this is the first book to provide a comprehensive review of what is known about schools as a context for human development. Topical coverage ranges from theoretical foundations to investigative methodologies and from classroom level influences such as teacher-student relations to broader influences such as school organization and educational policies. Cross-Disciplinary: this volume brings together the divergent perspectives, methods, and findings of scholars from a variety of disciplines, among them educational psychology, developmental psychology, school psychology, social psychology, psychiatry, sociology, and educational policy. Chapter Structure to ensure continuity: chapter authors describe 1) how schooling influences are conceptualized, 2) identify their theoretical and methodological approaches, 3) discuss the strengths and weaknesses of existing research, and 4) highlight implications for future research, practice, and policy. Methodologies: chapters included in the text feature various methodologies, including longitudinal studies, hierarchical linear models, experimental and quasi-experimental designs, and mixed methods.

ECEL 2018 17th European Conference on e-Learning Klimis Ntalianis, Antonios Andreatos, Cleo Sgouropoulou, 2018-11-01. The European Conference on e-Learning was established 17 years ago. It has been held in France, Portugal, England, The Netherlands, Greece, and Denmark, to mention only a few of the countries who have hosted it. ECEL is generally attended by participants from more than 40 countries and attracts an interesting combination of academic scholars, practitioners, and individuals who are engaged in various aspects of e-Learning. Among other journals, the Electronic Journal of e-Learning publishes a special edition of the best papers presented at this conference. **Resources in Education**, 1994.

*Handbook of Effective Inclusive Schools* James McLeskey, Fred Spooner, Bob Algozzine, Nancy L. Waldron, 2014-05-16. Over the last decade, the educational context for students with disabilities has significantly changed, primarily as a result of mandates contained in NCLB and IDEA. The purpose of this book is to summarize the research literature regarding how students might be provided classrooms and schools that are both inclusive and effective. Inclusive schools are defined as places where students with disabilities are valued and active participants in academic and social activities and are given supports that help them succeed. Effectiveness is addressed within the current movement toward multi-tiered systems of support and evidence-based practices that meet the demands of high-stakes accountability.
