*The Settlement Of The Americas A New Prehistory* Tom D. Dillehay, 2000-05-04 That new view says Dillehay will come mainly from South America from South American sites and from freedom from the North American dogma that kept the Clovis theory dominant for so many years Religion in the Lands That Became America Thomas A. Tweed, 2025-05-13 A sweeping retelling of American religious history showing how religion has enhanced and hindered human flourishing from the Ice Age to the Information Age Until now the standard narrative of American religious history has begun with English settlers in Jamestown or Plymouth and remained predominantly Protestant and Atlantic Driven by his strong sense of the historical and moral shortcomings of the usual story Thomas A Tweed offers a very different narrative in this ambitious new history He begins the story much earlier 11 000 years ago at a rock shelter in present day Texas and follows Indigenous Peoples African Americans transnational migrants and people of many faiths as they transform the landscape and confront the big lifeway transitions from foraging to farming and from factories to fiber optics Setting aside the familiar narrative themes he highlights sustainability showing how religion both promoted and inhibited individual communal and environmental flourishing during three sustainability crises the medieval Cornfield Crisis which destabilized Indigenous ceremonial centers the Colonial Crisis which began with the displacement of Indigenous Peoples and the enslavement of Africans and the Industrial Crisis which brought social inequity and environmental degradation The unresolved Colonial and Industrial Crises continue to haunt the nation Tweed suggests but he recovers historical sources of hope as he retells the rich story of America s religious past **A History of Architecture and Urbanism in the Americas** Clare

Cardinal-Pett, 2015-11-19 *A History of Architecture and Urbanism in the Americas* is the first comprehensive survey to narrate the urbanization of the Western Hemisphere from the Arctic Circle to Antarctica making it a vital resource to help you understand the built environment in this part of the world The book combines the latest scholarship about the indigenous past with an environmental history approach covering issues of climate geology and biology so that you ll see the relationship between urban and rural in a new more inclusive way Author Clare Cardinal Pett tells the story chronologically from the earliest known human migrations into the Americas to the 1930s to reveal information and insights that weave across time and place so that you can develop a complex and nuanced understanding of human made landscape forms patterns of urbanization and associated building typologies Each chapter addresses developments throughout the hemisphere and includes information from various disciplines original artwork and historical photographs of everyday life which along with numerous maps diagrams and traditional building photographs will train your eye to see the built environment as you read about it *A Population History of the United States* Herbert S. Klein, 2004-03-22 This is the first full scale one volume survey of the demographic history of the United States From the arrival of humans in the Western Hemisphere to the current century Klein analyzes the basic demographic trends in the growth of the pre conquest colonial and national populations He

surveys the origin and distribution of the Native Americans the post conquest free and servile European and African colonial populations and the variation in regional patterns of fertility and mortality to 1800 He then explores trends in births deaths international and internal migrations in the nineteenth century and compares them with contemporary European developments The profound impact of historic declines in disease and mortality on the structure of the late twentieth century population is explained Finally the late twentieth century changes in family structure fertility and mortality are evaluated for their influence on the evolution of the national population for the 21st century Archaeology of Native North America Dean R. Snow, 2015-09-04 This comprehensive text is intended for the junior senior level course in North American Archaeology Written by accomplished scholar Dean Snow this new text approaches native North America from the perspective of evolutionary ecology Succinct streamlined chapters present an extensive groundwork for supplementary material or serve as a core text The narrative covers all of Mesoamerica and explicates the links between the part of North America covered by the United States and Canada and the portions covered by Mexico Guatemala Belize and the Greater Antilles Additionally book is extensively illustrated with the author s own research and findings **Archaeology in America** Linda S. Cordell, Kent Lightfoot, Francis McManamon, George Milner, 2008-12-30 The greatness of America is right under our feet The American past the people battles industry and homes can be found not only in libraries and museums but also in hundreds of archaeological sites that scientists investigate with great care These sites are not in distant lands accessible only by research scientists but nearby almost every locale possesses a parcel of land worthy of archaeological exploration Archaeology in America is the first resource that provides students researchers and anyone interested in their local history with a survey of the most important archaeological discoveries in North America Leading scholars most with an intimate knowledge of the area have written in depth essays on over 300 of the most important archaeological sites that explain the importance of the site the history of the people who left the artifacts and the nature of the ongoing research Archaeology in America divides its coverage into 8 regions the Arctic and Subarctic the Great Basin and Plateau the Great Plains and Rocky Mountains the Midwest the Northeast the Southeast the Southwest and the West Coast Each entry provides readers with an accessible overview of the archaeological site as well as books and articles for further research Gender and Sexuality in Indigenous North America, 1400-1850 Sandra Slater, Fay A. Yarbrough, 2022-11-10 Groundbreaking historical scholarship on the complex attitudes toward gender and sexual roles in Native American culture with a new preface and supplemental bibliography Prior to the arrival of Europeans in the New World Native Americans across the continent had developed richly complex attitudes and forms of expression concerning gender and sexual roles The role of the berdache a man living as a woman or a woman living as a man in native societies has received recent scholarly attention but represents just one of many such occurrences of alternative gender identification in these cultures Editors Sandra Slater and Fay A Yarbrough have brought together scholars who explore the historical implications of these variations in the meanings

of gender sexuality and marriage among indigenous communities in North America Essays that span from the colonial period through the nineteenth century illustrate how these aspects of Native American life were altered through interactions with Europeans Organized chronologically Gender and Sexuality in Indigenous North America 1400 1850 probes gender identification labor roles and political authority within Native American societies The essays are linked by overarching examinations of how Europeans manipulated native ideas about gender for their own ends and how indigenous people responded to European attempts to impose gendered cultural practices at odds with established traditions Many of the essays also address how indigenous people made meaning of gender and how these meanings developed over time within their own communities Several contributors also consider sexual practice as a mode of cultural articulation as well as a vehicle for the expression of gender roles Representing groundbreaking scholarship in the field of Native American studies these insightful discussions of gender sexuality and identity advance our understanding of cultural traditions and clashes that continue to resonate in native communities today as well as in the larger societies those communities exist within **The Island Chumash** Douglas J. Kennett, 2005-04-04 Colonized as early as 13 500 years ago the Northern Channel Islands of California offer some of the earliest evidence of human habitation along the west coast of North America The Chumash people who lived on these islands are considered to be among the most socially and politically complex hunter gatherers in the world This book provides a powerful and innovative synthesis of the cultural and environmental history of the chain of islands Douglas J Kennett shows that the trends in cultural elaboration were in part set into motion by a series of dramatic environmental events that were the catalyst for the unprecedented social and political complexity observed historically

Economic Zooarchaeology Peter Rowley-Conwy, Dale Serjeantson, Paul Halstead, 2017-05-31 Economic archaeology is the study of how past peoples exploited animals and plants using as evidence the remains of those animals and plants The animal side is usually termed zooarchaeology the plant side archaeobotany What distinguishes them from other studies of ancient animals and plants is that their ultimate aim is to find out about human behaviour the animal and plant remains are a means to this end The 33 papers present a wide array of topics covering many areas of archaeological interest Aspects of method and theory animal bone identification human palaeopathology prehistoric animal utilisation in South America and the study of dog cemeteries are covered The long running controversy over the milking of animals and the use of dairy products by humans is discussed as is the ecological impact of hunting by farmers with studies from Serbia and Syria For Britain coverage extends from Mesolithic Star Carr via the origins of agriculture and the farmers of Lismore Fields through considerations of the Neolithic and Bronze Age Outside Britain papers discuss Neolithic subsistence in Cyprus and Croatia Iron Age society in Spain Medieval and post medieval animal utilisation in northern Russia and the claimed finding of a modern red deer skeleton in Egypt's Eastern Desert In exploring these themes this volume celebrates the life and work of Tony Legge zoo archaeologist and teacher *Encyclopedia of Dubious Archaeology* Kenneth L. Feder, 2010-10-11 This book

provides a fascinating encyclopedic antidote for the mysticism and pseudoscience surrounding well known or highly publicized archaeological and anthropological discoveries Archaeology attempts to answer the question where do we come from in the broadest sense possible as a result it is a highly interesting topic for all mankind When did human beings first walk the earth How did civilization develop What compelled our human ancestors to build things like the pyramids the Great Sphinx or Monk s Mound This book presents the widely unknown scientific facts behind the most popular and enthralling mysteries of our world from an expert archaeological perspective and lays out the information and research in a manner that is approachable engaging and entertaining for any reader Encyclopedia of Dubious Archaeology From Atlantis to the Walam Olum contains detailed and highly descriptive definitions for and explanations of terms related to extraordinary claims about human antiquity and its study Some of the terms in this extensive list of topics relate to archaeological hoaxes Many of the entries relate to dubious interpretations of the human past some of the terms relate to far fetched arguments that actually have produced evidence in support of their veracity

*The Texas Indians* David La Vere,2004 Author David La Vere offers a complete chronological and cultural history of Texas Indians from twelve thousand years ago to the present day He presents a unique view of their cultural history before and after European arrival examining Indian interactions both peaceful and violent with Europeans Mexicans Texans and Americans

*Almost All Aliens* Paul Spickard,2009-05-07 *Almost All Aliens* offers a unique reinterpretation of immigration in the history of the United States Leaving behind the traditional melting pot model of immigrant assimilation Paul Spickard puts forward a fresh and provocative reconceptualization that embraces the multicultural reality of immigration that has always existed in the United States His astute study illustrates the complex relationship between ethnic identity and race slavery and colonial expansion Examining not only the lives of those who crossed the Atlantic but also those who crossed the Pacific the Caribbean and the North American Borderlands *Almost All Aliens* provides a distinct inclusive analysis of immigration and identity in the United States from 1600 until the present For additional information and classroom resources please visit the *Almost All Aliens* companion website at [www.routledge.com/textbooks/almostallaliens](http://www.routledge.com/textbooks/almostallaliens)

**Mobility and Ancient Society in Asia and the Americas** Michael David Frachetti, Robert N. Spengler III, 2015-07-20 Mobility and Ancient Society in Asia and the Americas contains contributions by leading international scholars concerning the character timing and geography of regional migrations that led to the dispersal of human societies from Inner and northeast Asia to the New World in the Upper Pleistocene ca 20 000 15 000 years ago This volume bridges scholarly traditions from Europe Central Asia and North and South America bringing different perspectives into a common view The book presents an international overview of an ongoing discussion that is relevant to the ancient history of both Eurasia and the Americas The content of the chapters provides both geographic and conceptual coverage of main currents in contemporary scholarly research including case studies from Inner Asia Kazakhstan southwest Siberia northeast Siberia and North and South America The chapters consider the trajectories ecology and social dynamics of ancient mobility communication and adaptation in both Eurasia and the Americas using diverse methodologies of data recovery ranging from archaeology historical linguistics ancient DNA human osteology and palaeoenvironmental reconstruction Although methodologically diverse the chapters are each broadly synthetic in nature and present current scholarly views of when and in which ways societies from northeast Asia ultimately spread eastward and southward into North and South America and how we might reconstruct the cultures and adaptations related to Paleolithic groups Ultimately this book provides a unique synthetic perspective that bridges Asia and the Americas and brings the ancient evidence from both sides of the Bering Strait into common focus

**Prehistoric America** Betty Jane Meggers, During the past 30 years the relationship between humans and the environment has changed more drastically than during any previous period in human history Local sustainable exploitation of natural resources has been overridden by global interests indifferent to the detrimental impact of their activities on local environments and their inhabitants Increasingly efficient technology has reduced the need for human labor but improved medical treatment favors reproduction and survival creating a growing imbalance between population density and food supply Rapid transportation is introducing alien species to distant terrestrial and aquatic environments where they displace critical elements in the local food chain This succinct and profusely illustrated volume applies evolutionary and cultural theory to the interpretation of prehistoric cultural development in the western hemisphere After reviewing cultural development in Mesoamerica and the central Andes Meggers examines adaptation in North and South American regions with similar environments to evaluate the influence of adaptive constraints on cultural

content What made the human species dominant on the planet is the substitution of cultural behavior for biological behavior Prehistoric Americans applied this ability to develop sustainable relationships with their environments Many succeeded and others did not Paleoclimatic reconstructions can be compared with archeological sequences and ethnographic descriptions to identify cultural behavior responsible for the difference Comparison of the responses of Amaonians and Mayans to episodes of severe drought provides useful insights into what we are doing wrong Betty J Meggers has been a research associate at the Smithsonian Institution since 1951 She has conducted fieldwork in Brail Guyana Veneuela and Ecuador Her publications include archeological monographs edited volumes general books on Amaonia and Ecuador and over 200 articles on cultural ecology cultural diffusion pottery analysis and transpacific contact Her contributions have been recognized by six honorary doctorates from universities in Brail Argentina and Ecuador
