Perceptions of the Prehistoric in Anglo-Saxon England Sarah Semple, 2013-10-24 Perceptions of the Prehistoric in Anglo Saxon England represents an unparalleled exploration of the place of prehistoric monuments in the Anglo Saxon psyche and examines how Anglo Saxon communities perceived and used these monuments during the period AD 400-1100 Sarah Semple employs archaeological historical art historical and literary sources to study the variety of ways in which the early medieval population of England used the prehistoric legacy in the landscape exploring it from temporal and geographic perspectives Key to the arguments and ideas presented is the premise that populations used these remains intentionally and knowingly in the articulation and manipulation of their identities local regional political and religious They recognized them as ancient features as human creations from a distant past They used them as landmarks battle sites and estate markers giving them new Old English names Before and even during the conversion to Christianity communities buried their dead in and around these monuments After the conversion several churches were built in and on these monuments great assemblies and meetings were held at them and felons executed and buried within their surrounds This volume covers the early to late Anglo Saxon world touching on funerary ritual domestic and settlement evidence ecclesiastical sites place names written sources and administrative and judicial geographies Through a thematic and chronologically structured examination of Anglo Saxon uses and perceptions of the prehistoric Semple demonstrates that populations were not only concerned with Romanitas or Roman-ness but that a similar curiosity and conscious reference to and use of the prehistoric existed within all strata of society

Runes and Roman Letters in Anglo-Saxon Manuscripts Victoria Symons, 2016-10-24 This book presents the first comprehensive study of Anglo Saxon manuscript texts containing runic letters To date there has been no comprehensive study of these works in a single volume although the need for such an examination has long been recognized This is in spite of a growing academic interest in the mise en page of early medieval manuscripts The texts discussed in this study include Old English riddles and elegies the Cynewulfian poems charms Solomon and Saturn I and the Old English Rune Poem The focus of the discussion is on the literary analysis of these texts in their palaeographic and runological contexts Anglo Saxon authors and scribes did not of course operate within a vacuum and so these primary texts are considered alongside relevant epigraphic inscriptions physical objects and historical documents Victoria Symons argues that all of these runic works are in various ways thematically focused on acts of writing visual

communication and the nature of the written word The conclusion that emerges over the course of the book is that when encountered in the context of Anglo Saxon manuscripts runic letters consistently represent the written word in a way that Roman letters do not

Lapidge, Malcolm Godden, Simon Keynes, 2002-07-12 The pre eminence of Anglo Saxon England in its field can be seen as a result of its encouragement of interdisciplinary approaches to the study of all aspects of Anglo Saxon culture Thus this volume includes an important assessment of the correspondence of St Boniface in which it is shown that the unusually formulaic nature of Boniface's letters is best understood as a reflex of the saint's familiarity with vernacular composition A wide ranging historical contextualization of The Letter of Alexander to Aristotle illuminates the way English readers of the later tenth century may have defined themselves in contradistinction to the monstrous unknown and a fresh reading of the gendering of female portraiture in a famous illustrated manuscript of the *Psychomachia* of Prudentius CCCC 23 shows the independent ways in which Anglo Saxon illustrators were able to respond to their models The usual comprehensive bibliography of the previous year's publications rounds off the book and a full index of the contents of volumes 26 30 is provided Previous indexes have appeared in volumes 5 10 15 20 and 25 **The Lyric Speakers of Old English Poetry**
