Music Division,1999 *The Sound of Broadway Music* Steven Suskin,2011-06-03 Broadway s top orchestrators Robert Russell Bennett Don Walker Philip J Lang Jonathan Tunick are names well known to musical theatre fans but few people understand precisely what the orchestrator

does *The Sound of Broadway Music* is the first book ever written about these unsung stars of the Broadway musical whose work is so vital to each show's success. The book examines the careers of Broadway's major orchestrators and follows the song as it travels from the composer's piano to the orchestra pit. Steven Suskin has meticulously tracked down thousands of original orchestral scores piecing together enigmatic notes and notations with long forgotten documents and current interviews with dozens of composers, producers, conductors and arrangers. The information is separated into three main parts: a biographical section which gives a sense of the life and world of twelve major theatre orchestrators as well as incorporating briefer sections on another thirty arrangers and conductors; a lively discussion of the art of orchestration written for musical theatre enthusiasts including those who do not read music; a biographical section which gives a sense of the life and world of twelve major theatre orchestrators as well as incorporating briefer sections on another thirty arrangers and conductors; and an impressive show by show listing of more than seven hundred musicals in many cases including a song by song listing of precisely who orchestrated what along with relevant comments from people involved with the productions. Stocked with intriguing facts and juicy anecdotes many of which have never before appeared in print *The Sound of Broadway Music* brings fascinating and often surprising new insight into the world of musical theatre.

It completes the work begun by musicologist John Kirkpatrick in 1955 when Ives's music manuscripts were deposited in the Yale Music Library. Ives's works are arranged alphabetically by title within genres. Whenever possible each entry includes the main title and any other titles the composer may have used, the forces required, the duration, headings of movements, publication history, citation of the first known performance and first recording, the derivation of the work, listing music on which it may be modeled or from which it may borrow material, the principal literature treating the piece and commentary on these and other matters. The catalogue also provides musical incipits for all Ives's extant works, seven appendixes covering his work lists, Quality Photo lists his songbooks, a chronology of his life, recordings made by Ives and his private publications and commercial publishers, three concordances and four extensive indexes, addresses, names, titles and musical borrowings.
