Corpus of Mesopotamian Anti-Witchcraft Rituals Glossaries and Indices Greta Van Buylaere, Mikko

Luukko, 2019-09-24 Among the most important sources for understanding the cultures and systems of thought of ancient Mesopotamia is a large body of magical and medical texts written in the Sumerian and Akkadian languages. An especially significant branch of this literature centres upon witchcraft. Mesopotamian anti witchcraft rituals and incantations attribute ill health and misfortune to the magic machinations of witches and prescribe ceremonies, devices and treatments for dispelling witchcraft, destroying the witch and protecting and curing the patient. The Corpus of Mesopotamian Anti Witchcraft Rituals aims to present a reconstruction of this body of texts; it provides critical editions of the relevant rituals and prescriptions based on the study of the cuneiform tablets and fragments recovered from the libraries of ancient Mesopotamia.

Ravaged (Vampire Awakenings, Book 7) Brenda K. Davies, 2017-11-30 Darkness calls to Aiden and he's fighting a losing battle. Since the day he stopped aging, it's threatened to consume him. He only hopes someone kills him before he gives in to the savage nature fighting for control. Just when he believes he'll lose the battle, he encounters Maggie and for the first time in years, he has hope for his future. After growing up without a stable home, Maggie enjoys the security she's worked so hard to attain. Everything changes the night Aiden lands in her ambulance. Now not only does she stand to lose everything, but she's forced to consider that the mother she believed insane might have been telling the truth. As their relationship deepens, Maggie finds herself learning to trust another for the first time in years. Just as she's beginning to think they might have a future, circumstances force them apart. When Aiden spirals into madness, his family is forced to watch helplessly and wonder: Can Maggie bring him back from the darkness ravaging his soul, or is it too late to save him? Due to sexual content, violence and language, this book is recommended for readers 18 years of age. What Is Wrong With the Bible? Charles Giuliani, 2018-07-26 The Bible is the number one best selling book of all time. No other literary work in history has ever held so many people captive to its claims. It is viewed as God's word, an infallible moral guidebook and a timeless provider of hope and comfort. But is there really any truth to these views? Is the Bible really worthy of all this fanfare? This book will reveal the ugly truth that the Bible is not at all what its fans think it to be. In fact, it is the very antithesis thereof. And this book will prove all of this by using the Bible itself as its own refuter. *Explanatory Notes Upon the New Testament. By John Wesley ... Jones,2013-11-09 The seventh book of Pappus s Collection his commentary on the Domain or Treasury of Analysis figures prominently in the history of both ancient and modern mathematics as our chief source of information concerning several lost works of the Greek geometers Euclid and Apollonius and as a book that inspired later mathematicians among them Viète Newton and Chasles to original discoveries in their pursuit of the lost science of antiquity This presentation of it is concerned solely with recovering what can be learned from Pappus about Greek mathematics The main part of it comprises a new edition of Book 7 a literal translation and a commentary on textual historical and mathematical aspects of the book It proved to be convenient to divide the commentary into two parts the notes to the text and translation and essays about the lost works that Pappus discusses The first function of an edition of this kind is not to expose new discoveries but to present a reliable text and organize the accumulated knowledge about it for the reader s convenience Nevertheless there are novelties here The text is based on a fresh transcription of Vat gr 218 the archetype of all extant manuscripts and in it I have adopted numerous readings on manuscript authority or by emendation that differ from those of the old edition of Hultsch Moreover many difficult parts of the work have received little or no commentary hitherto
