Television Michael G. Elasmár, 2014-04-08 For several decades cultural imperialism has been the dominant paradigm for conceptualizing labeling predicting and explaining the effects of international television It has been used as an unchallenged premise for numerous essays on the topic of imported television influence despite the fact that the assumption of strong cultural influence is not necessarily reflected in the body of research that exists within this field of study In *The Impact of International Television A Paradigm Shift* editor Michael G Elasmár and his contributors challenge the dominant paradigm of

cultural imperialism and offer an alternative paradigm with which to evaluate international or crossborder message influence In this volume Elasmr has collected original research from leading scholars working in the area of crossborder media influence and contributes his own meta analysis to examine what research findings actually show on the influences of crossborder messages The contributions included here illustrate points such as the contentions of cultural imperialism and the context in which its assumptions emerged and developed the complexities of the relationship between exposure to foreign television and its subsequent effects on local audience members the applicability of quantitative methods to a topic commonly tackled using argumentation critical theory and other qualitative approaches and the difficulty of achieving strong and homogenous effects In bringing together the work of independent researchers *The Impact of International Television A Paradigm Shift* bridges over 40 years of research efforts focused on imported television influence the results of which as a whole challenge the de facto strong and homogenous effects assumed by those who support the paradigm of cultural imperialism The volume sets a theory driven agenda of research and offers an alternative paradigm for the new generation of researchers interested in international media effects As such the volume is intended for scholars researchers and students in international and intercultural communication cross cultural communication mass communication media effects media and society and related areas It will also be of great interest to academics in international relations cross cultural and social psychology intergroup and international relations international public opinion and peace studies

Deconstructing Paradise Patricia E. Reagan, 2016-06-23 *Deconstructing Paradise* investigates Christian symbols that appear in Latin American Literature in an inverted way The texts under investigation invert the Christian center to generate a social political cultural or even artistic commentary In doing so each text underscores a search for meaning that rejects the centering presence of the more traditional Christian focus that has long validated humankind's existence both in society and in literature As *Deconstructing Paradise* examines finding a unified center around which to construct meaning is no longer possible although the search for meaning persists in the inverted Christian center The first three chapters analyze the trifecta of novels that offer a full allegory of inverted Christian symbolism including Miguel ngel Asturias *El Se or Presidente* Juan Rulfo's *Pedro P ramo* and Jos Donoso's *El lugar sin l mites* Chapters Four and Five focus on inverted Christ and inverted Judas figures in multiple novels and short fiction As many Latin American literary critics affirm it is increasingly difficult to categorize fiction after the Boom although even the usefulness of these categories is ultimately questionable Literary critics now look for patterns and *Deconstructing Paradise* offers one such pattern by identifying a trend in an impressive scope of the well known authors of twentieth century Latin American literature while also tracing this pattern back to nineteenth century precursors *Deconstructing Paradise* offers a unique and comprehensive look at a significant trend that will undoubtedly foment new ideas and paths of study in contemporary Latin American literature

Reading Rushdie, 2021-11-01 Salman Rushdie is perhaps the most important writer of the present time His significant and controversial literary interventions in debates on post colonial culture and contemporary South Asian Islam are matched by the contribution he has made to postmodern literature in the West culminating in the award to him in 1993 of the twenty fifth anniversary Booker of Bookers prize This collection of

articles focuses on Rushdie's five novels. The context is set by the introduction *The Politics of Salman Rushdie's Fiction* which discusses the political stance of Rushdie's fiction, the various influences on his work, and the textual strategies and techniques he employs for political expression and cultural critique. The postmodern/postcolonial interface, the carnivalesque, and satire are major themes treated here and in the articles that follow, which also provide diverse other perspectives on Rushdie's thought and method. A number of essays have been commissioned specially for this volume. An appendix listing selected writings by Rushdie and articles on the Satanic Verses Affair is followed by a comprehensive bibliography annotating critical studies of Rushdie's work.
