The New Class Society Earl Wysong, Robert Perrucci, David Wright, 2013-07-11 The New Class Society introduces students to the sociology of class structure and inequalities as it asks whether or not the American dream has faded. The fourth edition of this powerful book demonstrates how and why class inequalities in the United States have been widened, hardened, and become more entrenched than ever. The fourth edition has been extensively revised and reorganized throughout, including a new introduction that offers an overview of key themes and shorter chapters that cover a wider range of topics. New material for the fourth edition includes a discussion of The Great Recession and its ongoing impact, the demise of the middle class, rising costs of college and increasing student debt, the role of electronic media in shaping people's perceptions of class, and more.

Poems Seven Alan Dugan, 2011-01-04 *Poems Seven* New and Complete Poetry the winner of the National Book Award presents the life work of a giant of American letters. Tracks a forty-year career of honest, tough artistry and shows a man at nearly 80 years of age and still at the height of his poetic power. Dugan's new poems continue his career-long concerns with renewed vigor: the poet's insistence that art is a grounded practice threatened by pretension, the wry wit that jibes at the academic and sententious, and the arresting observations on the quotidian battles of life. All the while he peppers his poems with humorous images of the grim and daunting topics of existential emptiness.

The Making of Modern Children's Literature in Britain Lucy Pearson, 2016-03-03 Lucy Pearson's lively and engaging book examines British children's literature during the period widely regarded as a second golden age. Drawing extensively on archival material, Pearson investigates the practical and ideological factors that shaped ideas of good children's literature in Britain, with particular attention to children's book publishing. Pearson begins with a critical overview of the discourse surrounding children's literature during the 1960s and 1970s, summarizing the main critical debates in the context of the broader social conversation that took place around children and childhood. The contributions of publishing houses, large and small, to changing ideas about children's literature become apparent as Pearson explores the careers of two enormously influential children's editors: Kaye Webb of Puffin Books and Aidan Chambers of Topliners. Macmillan Brilliant as an innovator of highly successful marketing strategies, Webb played a key role in defining what were in her words the best in children's books, while Chambers' work as an editor and critic illustrates the pioneering nature of children's publishing during this period. Pearson shows that social investment was a central factor in the formation of this golden age and identifies its legacies in the modern publishing industry, both positive and negative.
