

Sex, Love, Compassion

Only in recent years have professional philosophers begun to study the nature of sexuality.¹ The analysis of love was a staple of respectable philosophizing from the time of Plato through the age of romanticism and into the twentieth century. Though interest in love as a philosophical topic flagged for several decades, it now is once receiving some attention. Questions about compassion and sexual feeling related to it have always been treated as legitimate in moral philosophy. But little has been achieved, as yet, in the effort to resolve these fundamental problems about human nature.

In my own writing, which includes efforts in both of these fields, I have sometimes felt that the methodology I pursue, like other philosophy and historians of philosophy, creates an unfortunate barrier that prevents sufficient comprehension. The conceptualists as well as the others agreed that, by its very being, philosophy defines its own boundaries. Philosophies of sex, love, and compassion have such vital impact and pervasiveness for a species like ours that one might well believe that no matter

Singer, 2001 Beginning with a discussion of Kant Schopenhauer and others about the morality of sex and the morality of compassion *Explorations in Love and Sex* offers a panoramic view of the philosophy of love from its beginnings in Plato up to the present It examines the nature and limitations of sexual pluralism and elaborates on Irving Singer's earlier ideas about appraisal and bestowal The book's chapters are both philosophical and historical and speak to general readers who wish to better understand the curious set of emotions called love *Philosophy of Love, Sex, and Marriage* Raja Halwani, 2018-01-29

Irving Singer and the meaning in our own lives results from creative efforts on our part. It is not a prior reality awaiting our discovery. Though we talk about a search for meaning, what we are seeking is primarily a mode of creativity that will make our lives meaningful. In *The Creation of Value*, the first volume of his *Meaning in Life* trilogy, Singer studies the nature of imagination, idealization, and love in the context of humanity's attempt to define itself through the pursuit of meanings and values that it creates. Singer confronts life's most troubling problems: the meaning of death, the presence of anxiety in daily existence, the conditions needed for us to have a life worth living, and the possibility of a love of life in others as well as in ourselves.

Ingmar Bergman, Cinematic Philosopher Irving Singer, 2009-09-18. The development of themes, motifs, and techniques in Bergman's films, from the first intimations in the early work to the consummate resolutions in the final movies. Known for their repeating motifs and signature tropes, the films of Ingmar Bergman also contain extensive variation and development. In these reflections on Bergman's artistry and thought, Irving Singer discerns distinctive themes in Bergman's filmmaking, from first intimations in the early work to consummate resolutions in the later movies. Singer demonstrates that while Bergman's output is not philosophy on celluloid, it attains an expressive and purely aesthetic truthfulness that can be considered philosophical in a broader sense. Through analysis of both narrative and filmic effects, Singer probes Bergman's mythmaking and his reliance upon the magic inherent in his cinematic techniques. Singer traces throughout the evolution of Bergman's ideas about life and death and about the possibility of happiness and interpersonal love. In the overtly self-referential films that he wrote or directed, *The Best Intentions*, *Fanny and Alexander*, *Sunday's Children*, as well as the less obviously autobiographical ones including *Wild Strawberries*, *The Seventh Seal*, and the triad that begins with *Through a Glass Darkly*, Bergman investigates problems in his existence and frequently reverts to childhood memories. In such movies as *Smiles of a Summer Night*, *Scenes from a Marriage*, and *Saraband*, Bergman draws upon his mature experience and depicts the troubled relationships between men who are often weak and women who are made to suffer by the damaged men with whom they live. In *Persona*, *Cries and Whispers*, and other works, his experiments with the camera are uniquely masterful. Inspecting the panorama of Bergman's art, Singer shows how the endless search for human contact motivates the content of his films and reflects Bergman's profound perspective on the world.

The Nature of Love, Volume 1 Irving Singer, 2009-02-20. An analysis of concepts of bestowal, appraisal, imagination, and idealization followed by explorations into the writings of thinkers that include Plato, Ovid, and Martin Luther. Irving Singer's trilogy *The Nature of Love* has been called majestic. *New York Times Book Review*: monumental. *Boston Globe*: one of the major works of philosophy in our century. *Nous*: wise and magisterial. *Times Literary Supplement*: and a masterpiece of critical thinking that is a timely, eloquent, and scrupulous account of what, after all, still makes the world go round. *Christian Science Monitor*: In the first volume, Singer begins by studying love as appraisal and bestowal, as well as imagination and idealization. He then examines the contrasting views of Plato, Aristotle, Plotinus, Ovid, Lucretius, Saint Augustine, Saint Thomas Aquinas, and Martin Luther. After having

described the nature of erotic idealization Singer analyzes the religious idealization in Judeo Christian concepts of eros philia nomos and agape Medieval Catholicism sought to combine these four ideas of love in the caritas synthesis Luther repudiated that attempt on the grounds that love exists only in God s agapastic bestowal of unlimited goodness upon humanity and all of nature In relation to the different modes of theorizing Singer explores the humanistic implications of each

Cinematic Mythmaking Irving Singer, 2010-09-24 Mythic themes and philosophical probing in film as an art form as seen in works of Preston Sturges Jean Cocteau Stanley Kubrick and various other filmmakers Film is the supreme medium for mythmaking The gods and heroes of mythology are both larger than life and deeply human they teach us about the world and they tell us a good story Similarly our experience of film is both distant and intimate Cinematic techniques panning tracking zooming and the other tools in the filmmaker s toolbox create a world that is unlike reality and yet realistic at the same time We are passive spectators but we also have a personal relationship with the images we are seeing In Cinematic Mythmaking Irving Singer explores the hidden and overt use of myth in various films and in general the philosophical elements of a film s meaning Mythological themes Singer writes perform a crucial role in cinematic art and even philosophy itself Singer incisively disentangles the strands of different myths in the films he discusses He finds in Preston Sturges s The Lady Eve that Barbara Stanwyck s character is not just the biblical Eve but a liberated woman of our times Eliza Doolittle in the filmed versions of Shaw s Pygmalion is not just a statue brought to life but instead a heroic woman who must survive her own dark night of the soul The protagonist of William Wyler s The Heiress and Anieszka Holland s Washington Square is both suffering Dido and an awakened Amazon Singer reads Cocteau s films including La Belle et la B te Orph e and The Testament of Orpheus as uniquely mythological cinematic poetry He compares Kubrickian and Homeric epics and analyzes in depth the self referential mythmaking of Federico Fellini in many of his movies including 8 The aesthetic and probing inventiveness in film Singer shows us restores and revives for audiences in the twenty first century myths of creation of the questing hero and of ideals both secular and religious that have had enormous significance throughout the human search for love and meaning in life

Meaning in Life, Volume 3 Irving Singer, 2009-12-30 An acclaimed philosopher suggests that the art of living well employs the same principles as those that exist in all artistic creativity This final book in Irving Singer s Meaning in Life trilogy studies the interaction between nature and the values that define human spirituality It examines the ways in which we overcome the suffering in life by resolving our sense of being divided between them Singer suggests that the accord between nature and spirit arises from an art of life that affords meaning happiness and love by employing the same principles as those that exist in all artistic achievements It is through the meaningfulness created by imagination and idealization Singer says that we make life worth living This human art form Singer writes enables us to unite our selfish interests with our compassionate and loving inclinations We thereby effect a vital harmonization within which the naturalistic values of ethics aesthetics and religion can find their legitimate place The good life as envisioned by Singer includes the love of persons

things and ideals so intricately intermeshed that the meaning in one contributes to the meaningfulness of the other two The result is a kind of happiness that we all desire **The Nature of Love, Volume 3** Irving Singer, 2009-02-27 The final volume of Singer's trilogy discusses ideas about love in the work of writers ranging from Kierkegaard Nietzsche and Tolstoy to Freud Proust D H Lawrence Shaw and others in the contemporary world Irving Singer's trilogy *The Nature of Love* has been called majestic New York Times Book Review monumental Boston Globe one of the major works of philosophy in our century Nous wise and magisterial Times Literary Supplement and a masterpiece of critical thinking that is a timely eloquent and scrupulous account of what after all still makes the world go round Christian Science Monitor In the third volume Singer examines the pervasive dialectic between optimistic idealism and pessimistic realism in modern thinking about the nature of love He begins by discussing anti Romantic Romantics focusing on Kierkegaard Nietzsche and Tolstoy influential nineteenth century thinkers whose views illustrate much of the ambiguity and self contradiction that permeate thinking about love in the last hundred years He offers detailed studies of Freud Proust Shaw D H Lawrence and Santayana and he maps the ideas about love in Continental existentialism particularly those of Sartre and de Beauvoir Singer finally envisages a future of cooperation between pluralistic humanists and empirical scientists This last volume of Singer's trilogy does not pretend to offer the final word on the subject any more than do most of the philosophers he discusses but his masterful work can take its place beside their earlier investigations into these vast and complex questions Modes of Creativity Irving

Singer, 2013-02-08 Philosophical reflections on creativity in science humanities and human experience as a whole In this philosophical exploration of creativity Irving Singer describes the many different types of creativity and their varied manifestations within and across all the arts and sciences Singer's approach is pluralistic rather than abstract or dogmatic His reflections amplify recent discoveries in cognitive science and neurobiology by aligning them with the aesthetic affective and phenomenological framework of experience and behavior that characterizes the human quest for meaning Creativity has long fascinated Singer and in *Modes of Creativity* he carries forward investigations begun in earlier works Marshaling a wealth of examples and anecdotes ranging from antiquity to the present about persons as diverse as Albert Einstein and Sherlock Holmes Singer describes the interactions of the creative and the imaginative the inventive the novel and the original He maintains that our preoccupation with creativity devolves from biological psychological and social bases of our material being that creativity is not limited to any single aspect of human existence but rather inheres not only in art and the aesthetic but also in science technology moral practice as well as ordinary daily experience **Sex and Nation in**
