scientists bibliographers documentalists systems analysts and students convenient access to the techniques and tools of both library and information science Impeccably researched cross referenced alphabetized by subject and generously illustrated the Encyclopedia of Library and Information Science integrates the essential theoretical and practical information accumulating in this rapidly growing field

Asianism and the Politics of Regional Consciousness in Singapore Leong Yew, 2013-11-20 Over the last two decades Singapore has undergone a substantial degree of Asianization Apart from participating in the Asian values debate of the 1990s re visioning itself as New Asia and a global Asian hub and establishing Asian identities for the commodities it consumes and produces Singapore has also repurposed its modernity cultures and ethos along similar regionalist precepts However even in recent times Singapore continues to vacillate ambivalently between identifying with and differentiating itself from Asia Responding to the challenges Singapore faces in coming to terms with its Asian identity this book examines the complex cultural social and political underpinnings that have shaped Singapore s mainstream discourse on Asia Indeed it argues that its legacy as a colonial port city the exigencies of managing the post independence nation state and the larger forces of imperialism and capitalism all contribute to its politics of Asianism Taking a thoroughly interdisciplinary approach that spans history cultural studies postcolonialism and cultural geography Leong Yew reveals how Asia has been used to narrate Singapore s beginnings revalidate Singaporean ethnic culture and to consolidate its practices of consumption and commodification This book will be welcomed by students and scholars working across a range of fields including Asian culture and society Asian politics cultural theory and postcolonial studies S. The Politics of Failed Policies Sarah James, 2025-07-18 The Politics of Failed Policies examines the darker side of state autonomy and policy experimentation in our federal system policy failure While advances in statistics and computing promised the ability to evaluate the outcomes of state policies more precisely and accurately the path from information to responsive policy remains far from guaranteed especially given our highly polarized political climate Most of the existing scholarship focuses on individual characteristics that affect public officials likelihood of internalizing new information and refining their policy preferences In stark contrast author Sarah James takes a historical institutionalist approach and shows that the design resources and processes of state level research institutions can systematically influence when evidence can overcome confirmation bias and partisan preferences among elected state officials evaluating a policy This work contributes a more precise definition of a state s capacity for research that better explains political responses to policy failure The detailed case studies support a theory of policy feedback in which policy and institutional landscape can empower diffusely organized and disadvantaged policy opponents to overcome the power of the traditional winners in the American political economy The Politics of Failed Policies takes seriously that policy research and learning are not isolated from the caprices of party politics and yet I show that state politics and policymaking are not irrevocably beholden to the

whims of partisan bickering While ideological battles pressure from well resourced interest groups and yes even elections remain formidable forces in American politics strategically designed state policies and institutions can lay a foundation for building a coalition to respond to actual policy outcomes Choices about policy and institutional design have long term effects on when how and why public officials feel pressured to acknowledge and respond to policy failure *Theatre and the Politics of Culture in Contemporary Singapore* William Peterson,2001-08-15 Explores the vibrant relationships between theatre cultural politics and social attitudes in a country whose history has many lessons for Western scholars *Politics and Change in Singapore and Hong Kong* Stephan Ortmann,2009-12-04 In democratization theory Singapore continues to be a remarkable country for its extremely low level of contentious politics despite rapid economic development In contrast many different groups in Hong Kong have taken their demands to the streets since the 1970s Even though there is an obvious difference in the willingness of the population to actively challenge the regime the political developments of the two city states show a similar pattern of political mobilization and government reaction This book examines the changing pattern of contentious politics in the democratization process of these Asian city states It explores the causal connections between popular contention and democratization using a multi disciplinary approach with theoretical insights from the political sciences sociology and psychology The political process model is applied to provide further understanding of the patterns of interaction between contenders opposition groups or social movements and the ruling elite The book argues that differences in the strategies applied by the ruling elite explain why members of the opposition were empowered or obstructed in challenging the government **Rethinking Asia's Economic Miracle** Richard Stubbs,2017-09-08 In the new edition of this important contribution to understanding both the Asian economic miracle and the 1997 8 crisis Richard Stubbs assesses the main explanations to date and updates the analysis to take account of globalization and the remarkable economic rise of China *American Government and Popular Discontent* Steven E. Schier,Todd E. Eberly,2013-07-18 Popular distrust and the entrenchment of government by professionals lie at the root of America s most pressing political problems How did U S politics get to this point Contemporary American politics got much of its shape from the transformations brought about from the 1950s to the 1980s Presidential and congressional behavior voting behavior public opinion public policy and federalism were all reconfigured during that time and many of those changes persist to this day and structure the political environment in the early twenty first century Throughout American history parties have been a reliable instrument for translating majority preferences into public policy From the 1950s to the 1980s a gradual antiparty realignment alongside the growth of professional government produced a new American political system of remarkable durability and remarkable dysfunction It is a system that is paradoxically stable despite witnessing frequent shifts in party control of the institutions of government at the state and national level Schier and Eberly s system level view of American politics demonstrates the disconnect between an increasingly polarized and partisan elite and an increasingly disaffected mass public **Breakthrough In Vocational**

And Technical Education, A: The Singapore Story Song Seng Law, 2014-12-04 There has been much international effort to improve or transform Vocational and Technical Education VTE However the outcomes often remain elusive VTE continues to be largely shunned by society as a sector of education for low achievers and academic failures A Breakthrough in VTE The Singapore Story shares the Singapore experience that was made possible through strategic planning organisational excellence innovation and ingenuity It is a compelling story of how the Institute of Technical Education ITE began to transform lives and change its image over a period of fifteen years 1992 2007 This book based on a first hand CEO account vividly captures the sort of leadership policy choices fundamental principles and capabilities in the journey of transformation The details of the what when how and why are a valuable guide for leaders and practitioners in building quality and sustainable VTE systems which are responsive to social and economic needs Building Markets Gyu-Jin Hwang, 2022-11-25 Nowhere in the world presents a more dramatic case of wealth creation than East Asia Contrary to the common belief that social policy in the economic powerhouses of the region is secondary to their pursuit of economic growth Gyu Jin Hwang argues that it has in fact played an integral part in building strong states and competitive market economies
