The Essential Revolution of Evolutionary Medicine Giacinto Libertini, Graziamaria Corbi, Olga Shubernetskaya, Klara Komici, Nicola Ferrara, 2025-02-24 This book proposes a way to radically renew medicine by extending to medicine the concepts of evolutionary biology The book considers diseases not as unpredictable harmful events but as logical consequences of evolutionary mechanisms In particular a large part of the most widespread diseases that afflict modern populations are interpreted as the consequence of discordances mismatches between new living conditions and the adaptation of our species It discusses the basic concepts as well as diseases deriving from alterations of the genotype and general concepts about diseases deriving from alterations of the ecological niche It also describes diseases deriving from relations with other living beings especially when the ecological niche is altered diseases deriving from conditions beyond the adaptation range and physiological phenomena that cause troubles and suffering or even death A particular study is dedicated to the interpretation of aging and its consequences in normal or altered conditions of the ecological niche The final part of the book describes the implementation of evolutionary medicine This book complementing the Evolutionary Gerontology and Geriatrics book which is also published in this series provides a valuable read for scholars and students in the fields of medicine evolutionary biology preventive medicine and gerontology *Essentials Sociology Sg Plus W/Tc* Allyn & Bacon, Henslin, 2003-09

Community Development Arenas In Singapore S Vasoo, Bilveer Singh, Xian Jie Chan, 2019-09-26 In the last two decades or so community development efforts in Singapore have strongly focused on task centred community activities namely short term projects revolving around socio educational and recreational activities Such an emphasis is further reinforced by the outsourcing of community services to the private sector which is contracted to deliver services or activities Although the consequences are not seen immediately they will in the longer term reinforce learned helplessness of the participants or beneficiaries who are usually relegated to passive or dependent roles Through the insights of contributors who are practitioners in the community development field this book argues that more resources and initiatives must be accorded to community organisations so as to redirect to a community or resident centric

approach towards community work intervention In short more reaching out to people or community groups should be undertaken Covering a broad range of arenas including health housing ageing community integration and bonding among others this book will open up a wider horizon for community development efforts and provide a reservoir of ideas and strategies to build a stronger and resilient community for more effective community problem solving **Singapore National Bibliography** ,1992 **Globalization and the Singapore Curriculum** Zongyi Deng,S Gopinathan,Christine Kim-Eng Lee,2013-11-27 This volume provides a multi faceted and critical analysis of the Singapore curriculum in relation to globalization First it details reform initiatives established by the Singapore government to meet the challenges posed by globalization Next Globalization and the Singapore Curriculum presents how these reforms have been translated into programs school subjects and operational frameworks and then examines in turn how well these have been implemented in schools and classrooms across the country Through this examination the book reveals how the initiatives together with their curricular translation and classroom enactment reflect on the one hand global features and tendencies and on the other distinct national traditions concerns and practices It brings to light a set of issues problems and challenges that not only concern policymakers educators and reformers in Singapore but also those in other countries as well Written by curriculum scholars policy analysts researchers and teacher educators Globalization and the Singapore Curriculum offers an up to date reference for postgraduate students scholars and researchers in the areas of curriculum and instruction comparative education educational sociology educational policy and leadership in Singapore the Asia Pacific region and beyond It also offers a vital contribution to the story of modern education around the globe providing international students scholars and researchers valuable insights into curriculum and curriculum reform for the 21st century *The Pursuit & Acquisition of Health & Wealth* Gerard Jacobs,2012-04-30 The pursuit and acquisition of health and wealth are part of the worldview that drives Singaporean society It encompasses a strong work ethic in the pursuit to modernise and be a key player in the global economy Health and wealth are defined in terms of an individuals well being in the sense of good health and a continued assurance of material provision and security This worldview stems from a syncretism with non Christian religions that have reconceptualised themselves with the socioeconomic and political goals of Singaporean society Subsequently they continue to be the authentic expression of the noblest longings of people that have become symbiotic with their daily expressions shaping their history and culture The book attempts to show that while Pentecostal and Charismatic Christianity have played a significant role in the growth of contemporary Singaporean churches it has inadvertently presented a gospel that appeals to the deeply embedded dominant religious secular worldview of its society in the context of health and wealth **Research With Children** Pia Christensen,Allison James,2008-03-28 Research with Children is a unique resource book on the methodology of childhood research Leading and new researchers within the social studies of childhood discuss central questions of epistemology and methodology demonstrating the links between theory and practice The theoretical and
