Finding Eliza Larissa Behrendt, Fiona Foley, 2024-06-04 Aboriginal lawyer writer and filmmaker Larissa Behrendt has long been fascinated by the story of Eliza Fraser who was purportedly captured by the Butchulla people after she was shipwrecked on their island off the Queensland coast in 1836 In this deeply personal book Behrendt uses Eliza s tale as a starting point to interrogate how Aboriginal people and indigenous people of other countries have been portrayed in their colonisers stories Exploring works as diverse as Robinson Crusoe and Coonardoo Behrendt looks at the stereotypes embedded in these accounts including the assumption of cannibalism and the myth of the noble savage Ultimately Finding Eliza shows how these stories not only reflect the values of their storytellers but also reinforce those values and how in Australia this has contributed to a complex racial divide

Language and Minority Rights Stephen May, 2013-06-17 The second edition addresses new theoretical and empirical developments since its initial publication including the burgeoning influence of globalization and the relentless rise of English as the current world language May's broad position however remains largely unchanged He argues that the causes of many of the language based conflicts in the world today still lie with the nation state and its preoccupation with establishing a common language and culture via mass education The solution he suggests is to rethink nation states in more culturally and linguistically plural ways while avoiding at the same time essentializing the language identity link This edition like the first adopts a wide interdisciplinary framework drawing on sociolinguistics applied linguistics sociology political theory education and law It also

includes new discussions of cosmopolitanism globalization the role of English and language and mobility highlighting the ongoing difficulties faced by minority language speakers in the world today

The Future of Tradition Leon Shaskolsky Sheleff, 2013-09-05 Recent years have seen an increased interest in the variety of cultures co existing within one state and a growing acknowledgement of the values ensconced in pluralistic social structures this book examines the manner in which indigenous people can function in modern states preserving their traditional customs while simultaneously adapting aspects of their culture to the challenges posed by modern life Whereas it was formerly assumed that these tribal frameworks were doomed to extinction and some states even encouraged such a process there has been a revival in their vitality linked to a recognition of their rights The book offers a comprehensive survey of various aspects of tribal life focusing on political issues such as the meaning of sovereignty legal issues dealing with the role of custom and social issues concerned with sustaining communal life A focused study is made of a whole series of legal factors relating to possession and ownership of land religious rites the nature of polygamous marriages the assertion of group rites the manner of peacefully resolving disputes and allied questions Recent judicial decisions are analysed as a reflection of the far reaching changes that have taken place in a process that has seen the former disregard of basic rights of indigenous people being replaced by an awareness of the injustices perpetrated in the past and a willingness to seek to redress them The comparison between approaches of different English speaking countries provides an account of interwoven developments

Power and Organizations Stewart R Clegg, David Courpasson, Nelson Phillips, 2006-06-29 A marvelous addition to the literature on both organizations and power It is well grounded in the research on these topics and especially the wide range of relevant theorizing The book is terrific at bringing together theory research and the world of organizations George Ritzer Distinguished University Professor University of Maryland This book tirelessly illuminates the nooks and crannies of the power literature taking readers on an audacious tour of power s multiple conceptualizations and expressions Hugh Willmott Diageo Professor of Management Studies University of Cambridge Clegg and his associates expose the power dynamics that lie at the heart of all political and organizational arenas and in so doing they shed light on the underbelly along with the creative potentialities in organizational life Joyce Rothschild Professor of Sociology Virginia Polytechnic Institute and State University Strange but true most studies of organizational hierarchies downplay the issue of power or uncritically assume more is better while ignoring its pernicious effects Stewart Clegg David Courpasson and Nelson Phillips set the record straight Joanne Martin Merrill Professor of Organizational Behavior and by courtesy Sociology Stanford University Graduate School of Business Stanford In this tour de force Stewart Clegg David Courpasson and Nelson Phillips provide a comprehensive account of power and organizations unlocking power as the central relation of modern organizations and society The authors present an excellent synthesis of organization social and political theory to offer an overview of power and organizations that is historically informed addresses current issues and is comprehensive in scope Power and Organizations reviews the evolution of theories on power

and organization presenting not only the theorists who identify power as positive but also dealing with the negativity of power and the real horror of which organizations are capable which has thus far been underplayed in organization theory At the core of organizational power projects are organizational elites whose politics and projects are examined extensively in the book The book concludes by examining the implications for organizations and their elites of the trends tendencies and theories considered in the course of the book This book is required reading for graduate students and researchers in areas such as organizational social and political theory The Politics of Storytelling Michael Jackson,2002 Hannah Arendt argued that the political is best understood as a power relation between private and public realms and that storytelling is a vital bridge between these realms a site where individualised passions and shared views are contested and recombined In his new book Michael Jackson explores and expands Arendt s ideas through a cross cultural analysis of storytelling that includes Kuranko stories from Sierra Leone Aboriginal stories of the stolen generation stories recounted before the South African Truth and Reconciliation Commission and stories of refugees renegades and war veterans Focusing on the violent and volatile conditions under which stories are and are not told and exploring the various ways in which narrative reworkings of reality enable people to symbolically alter subject object relations Jackson shows how storytelling may restore to the intersubjective fields of self and other self and state self and cosmos the conditions of viable sociality The book concludes in a reflexive vein exploring the interface between public discourse and private experience **Health and the Media** Valentina Marinescu,Bianca Mitu,2016-06-09 Analyzing the relationship between medicine and the media from different perspectives these new essays fill a gap in this emerging field providing new information on approaches to health communication and important reevaluations of health literacy theories The contributors discuss ideas and methodologies across a range of topics including multifaceted health communication media coverage of maternal health the rhetoric of diagnosis in autoimmune illness media representation of the sick in data driven healthcare and health news coverage in print media States of Violence and the Civilising Process Rob Watts,2016-05-30 This book offers a distinctive and novel approach to state sponsored violence one of the major problems facing humanity in the previous and now the twenty first century It addresses the question how is it possible that large numbers of ordinary men and women are able to do the killing torturing and violence that defines crimes against humanity In his striking analysis Rob Watts shows how and why states of all political persuasions engage in crimes against humanity including genocide homicide torture kidnapping illegal surveillance and detention This book advances a new interpretive frame It argues against the civilizing process model showing how both states and social sciences like sociology and criminology have been complicit in splitting the social from the ethical while accepting too complacently that modern states are the exemplars of morality and rationality The book makes the case that it is possible to bring together in the one interpretative frame our understanding of social action involving personal motivation and ethical responsibility and patterns of collective social action operating in terms of the agencies of the State Rob Watts

identifies and charts the pathways of action and practical i.e. ethical judgements which the perpetrators of these crimes against humanity constructed for themselves to make sense of what they were doing At once challenging and highly accessible the book reveals the policy making processes that produce state crime as well as showing how ordinary people do the state's dirty work
