Identity and Ritual in a Japanese Diving Village D. P. Martinez, 2004-04-30 Through her detailed description of a particular place Kuzaki-cho at a particular moment in time the 1980s D. P. Martinez addresses a variety of issues currently at the fore in the anthropology of Japan: the construction of identity both for a place and its people; the importance of ritual in a country that describes itself as nonreligious; and the relationship between men and women in a society where gender divisions are still very much in place. Kuzaki is for the anthropologist both a microcosm of modernity and an attempt to bring the past into the present. But it must also be understood as a place all of its own. In the 1980s it was one of the few villages where female divers (*ama*) still collected abalone and other shellfish and where some of its inhabitants continued to make a living as fishermen. Kuzaki was also a *kambe* or sacred guild of Ise Shrine, the most important Shinto shrine in modern Japan, home to Amaterasu, the sun goddess. Kuzaki's rituals affirmed a national identity in an era when attitudes to modernity and Japanese-ness were being challenged by globalization. Martinez enhances her fascinating ethnographic description of a single diving village with a critique of the way in which the anthropology of Japan has developed. The result is a sophisticated investigation by a senior scholar of Japanese studies that while firmly grounded in empirical data calls on anthropological theory to construct another means of understanding Japan both as a society in which the collective is important and as a place where individual ambitions and desires can be expressed.

Unwrapping Japan Eyal Ben-Ari, Brian Moeran, Jim Valentine, 2010-10-18 Recent years have witnessed an explosive growth in the literature published about Japan. Yet it seems that the more that is written about Japan and Japanism its culture society people the more mysterious it becomes. As well as exploring issues relating to advertising tourism women festivals and the art world the book depicts how the study of Japanese society contributes to anthropological theory and understanding. The editors use the term *unwrapping* to provide insights into Japanese culture and relate these insights to broader problems and questions prevalent in contemporary anthropological discourse. The issues explored include the contribution of applied anthropology to theory; the relationship between tourism and nostalgia; the interplay of marginality and belonging; the role of advertising in gender relations; status in the art world; and the place of Japanese genres of writing within anthropology texts.

A Japanese Advertising Agency Brian Moeran, 2013-09-13 This is the only book of its kind written by an anthropologist who spent twelve months doing fieldwork in a major Tokyo agency and who has spent the past 30 years studying and living in Japan. By analysing the social structure of a modern media organization from the inside it makes
