The Elites of Barotseland 1878-1969 Gerald L. Caplan, 2023-11-15 The Elites of Barotseland 1878 1969 offers a comprehensive political history of Zambia's Western Province focusing on the Lozi people and their interactions with imperial powers especially in the late 19th and early 20th centuries The study traces the political dynamics of Barotseland from the late 1800s highlighting how imperial forces shaped the kingdom's structure as well as the internal power struggles among the Lozi elites It emphasizes the historical significance of Barotseland's integration into Zambia in the 1960s which marked the transformation of a colonial entity into a unified state The work examines the political economic and social structures of Barotseland emphasizing the role of the Lozi ruling elite in shaping the region's destiny The study reveals how the Lozi who had been relatively powerful in their region adapted to European imperialism through indirect rule and how these interactions influenced the formation of a new political and social elite Through detailed accounts of the Lozi kings such as King Mulambwa and later Lewanika as well as the colonial and post colonial political transformations the book discusses the role of elites in both resisting and accommodating imperial power Additionally the study touches on the broader themes of colonialism in Africa examining how economic systems education and social class conflicts played out within Barotseland The rise of secessionist tendencies and the contest for power between various elite factions are also explored in the context of Barotseland's eventual integration into Zambia This book offers a nuanced understanding of the internal politics of Barotseland and its significance in the larger framework of Southern African history making it an important resource for those interested in African political history and the dynamics of colonialism and post colonial state formation This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1970 *African Religions & Philosophy* John S. Mbiti, 1990 African Religions and Philosophy is a systematic study of the attitudes of mind and belief that have evolved in the many societies of Africa In this second edition Dr Mbiti has updated his material to include the involvement of women in religion and the potential unity to be found in what was once thought to be a mass of quite separate religions Mbiti adds a new dimension to the understanding of the history thinking and life throughout the African continent Religion is approached from an African point of view but is as accessible to readers who belong to non African societies as it is to those who have grown up in African nations Since its first publication this book has become acknowledged as the standard work in the field of study and it is essential reading for
