The secret for creating magic in our careers, our organizations and our lives is simple: outstanding leadership, the kind that inspires employees, delights customers and achieves extraordinary business results. No one knows more about this kind of leadership than Lee Cockerell, the man who ran Walt Disney World Resort operations for over a decade. And in *Creating Magic* he shares the leadership principles that not only guided his own journey from a poor farm boy in Oklahoma to the head of operations for a multibillion dollar enterprise but that also soon came to form the cultural bedrock of the world's number one vacation destination. But as Lee demonstrates, great leadership isn't about mastering impossibly complex management theories. We can all become outstanding leaders by following the ten practical common sense strategies outlined in this remarkable book. As straightforward as they are profound, these leadership lessons include: Everyone is important. Make your people your brand. Burn the free fuel. Appreciation, recognition and encouragement. Give people a purpose, not just a job. Combining surprising business wisdom with insightful and entertaining stories from Lee's four decades on the front lines of some of the world's best run companies, *Creating Magic* shows all of us, from small business owners to managers at every level, how to become better leaders by infusing quality, character, courage, enthusiasm and integrity into our workplace and into our lives.

His sweeping history of the forces driving ethical, political and economic change over the last sixty years. Here Bosworth traces how the commercialization of public spaces and electronic information has created a new and enclosed American place. Chapter by

chapter he then shows how the materialist values of this Virtual America have suffused our everyday lives co-opting the themes of our narratives the planks of our parties the practices of our professions and the most intimate aspects of our personal lives including our beliefs about God marriage and childcare From Ronald Reagan and Disneyland to modern pharmacology and prosperity theology from the phony conservatism of Wall Street to the faux rebellion of transgressive art Bosworth's alternative story of American life since 1950 relentlessly challenges today's dominant narratives narratives that as he reveals made both the calamitous invasion of Iraq and the economic collapse of 2008 all too likely
