Pandey,Mouchumi Duarah,2025-07-15 The chapters within this volume represent interdisciplinary perspectives from scholars and experts in philosophy science education health environmental studies linguistics and cultural studies These contributions reflect a rigorous inquiry into both textual sources and practical applications Themes such as the scientific temper in ancient Indian texts sustainable living holistic medicine computational thinking in Sanskrit grammar and indigenous technologies are examined through both historical analysis and critical reflection **Arjuna in the Mahabharata** Ruth Cecily

Katz,1990-01-01 It is a work of unusual breadth and depth that will attract readers in religious studies comparative literature Sanskrit Asian studies and humanities in general The book is a thorough study of the great Indian hero the Achilles of India Arjuna as portrayed in the epic poem Mahabharata including its world famous subsection the Bhagavadgita Different aspects of Arjuna's Character has been discussed *Comparative Ethics in Hindu and Buddhist Traditions* Roderick Hindery,1978

The exploratory volume in the new field of comparative ethics serves the diverse goals of groups variously interested in International law and morality in comparative religious ethical ideals or simply in cross cultural literature and drama The author draws moral ideals from primary Hindu sources popular and formal literary and spiritual The same method is applied for Buddhist moral texts Introducing method in comparative ethics with a synopsis of Hindu mystical tradition the author discusses in detail ethics in the Rgveda Upanishads Laws of Manu Ramayana Gita other popular classics poetry drama philosophers and reformers After summarizing pluralism in Hindu ethics the author sketches ethical thought in Mahayana Buddhist texts The book contains elaborate notes two appendices critical textual matter a diagram of topical parallels a bibliography and an index **The Mahābhārata** Chakravarthi V. Narasimhan,1999 Intended to be a treatise on life itself this epic poem embraces religion and ethics polity and government philosophy and the pursuit of salvation This collection of more than 4 000 verses is supplemented by a glossary genealogical tables and an index correlating the verses with the original Sanskrit text Eschatology in the Indo-Iranian Traditions Mitra Ara,2008 Eschatology in the Indo Iranian Traditions traces the roots of the belief in life after death from the earliest religious beliefs of the Indo European people

through its first textual emergence among the Indo Iranians Tracing the Indo Iranian concepts of the nature and constitution of man with special reference to the doctrine of the Soul and its transmigration the book demonstrates the profound nature of the physical ethical spiritual and psychological ideals embodied in these thought systems as preserved in the Indian and Iranian scriptures The central issue was death and the journey to the afterlife Exploring the characteristic features of Indo Iranian religions provides a better understanding of the development of eschatological beliefs in later religions in the same way that the Zoroastrian apocalyptic beliefs point to genetic historical relations among Judaism Zoroastrianism Christianity and Islam This comparative study enriches our understanding of the antecedents of afterlife beliefs and creates enthusiasm for further in depth research into the Indo Iranian religion as a system acknowledging its genetic historical connections with both earlier and subsequent traditions Eschatology in the Indo Iranian Traditions has wide ranging appeal to upper undergraduate and graduate courses in comparative religion Asian studies philosophy and Indian and Iranian studies

Sax, 2024-01-02 The isolated valleys of Rawain in the Western Himalaya are ruled by local gods who control the weather provide justice and regularly travel through their territories to mark their borders and to ward off incursions by rival gods These identified with Karna and Duryodhana from the great Indian epic Mahabharata are regarded as divine kings whom local persons serve as priests ministers patrons soldiers and servants Each divine king has an oracle who is regularly summoned enters into a trance and speaks with the god's voice appointing and dismissing officers confiscating property levying fines and ratifying the decisions of councils of elders The gods hear civil and sometimes criminal cases and through their oracles enforce their judgments through fines and penalties or by compelling disputants to reach a compromise In the Valley of the Kauravas seeks to describe how this system functions by closely examining the myths legends rituals and folklore associated with it and above all by providing a detailed ethnographic description of its day to day workings It contextualizes this system by comparing it with divine kingship throughout history in both South and Southeast Asia and seeks to embed this historical and ethnographic analysis in a theoretical discussion of the nature goals and limits of anthropological knowledge of multiple worlds The chapters of the book are organized in terms of the seven limbs of the classical Indian kingdom as described by the political philosopher Kautilya king land and people minister army treasury ally and enemy **Mapping Histories** Ravinder Kumar, Neera Chandhoke, 2002 Edited by Professor Neera Chandhoke Mapping Histories is a fitting tribute to renowned historian Ravinder Kumar well known for his pioneering work on the social consequences of colonial rule in India and for founding the Centre for Contemporary Studies at the Nehru Memorial Museum and Library Here Fellows of the centre present a collection of historical and contemporary studies on India which deal with diverse themes from religion to the environment cultural studies to feminism Together these lively and challenging essays offer readings on how we understand India's history and conversely how we can use this comprehension of the past to interpret India's complex present Indian Castles 1206-1526 Konstantin S Nossov, 2012-06-20 From the beginning of the 2nd millennium AD northern India began to fall under the sway of a number of Muslim Turkic rulers who at the start of the 13th century founded the series of dynasties known to history as the Delhi Sultanate For three centuries these sultans expanded their territory which led to a dramatic rise in the number of fortifications throughout the subcontinent This period is the defining age of the Indian castle and the combined influence of the Islamic and Hindu architectural tradition lends these fortifications a unique style This book covers all the major sites of the period including the fabled seven medieval cities on the site of the present day city of Delhi The Humanities Association Bulletin Humanities Association of Canada, 1965 **Emotions across Cultures** David Konstan, 2022-06-21 It is now recognized that emotions have a history In this book eleven scholars examine a variety of emotions in ancient China and classical Greece in their historical and social context A general introduction presents the major issues in the analysis of emotions across cultures and over time in a given tradition

Subsequent chapters consider how specific emotions evolve and change For example whereas for early Chinese thinkers worry was a moral defect it was later celebrated as a sign that one took responsibility for things In ancient Greece hope did not always focus on a positive outcome and in this respect differed from what we call hope Daring not to do or undaring was itself an emotional value in early China While Aristotle regarded the inability to feel anger as servile the Roman Stoic Seneca rejected anger entirely Hatred and revenge were encouraged at one moment in China and repressed at another Ancient Greek responses to tragedy do not map directly onto modern emotional registers and yet are similar to classical Chinese and Indian descriptions There are differences in the very way emotions are conceived This book will speak to anyone interested in the many ways that human beings feel
