biography it is a chronicle of the resurgence of American conservative thought and in particular the birth of neoconservatism Heston's brand of neoconservatism differed from that of the exclusively intellectual wing and he came to represent a previously ignored segment of neoconservatives operating on the basis of more common emotionally oriented concerns The neocons brought new life to the GOP and Raymond convincingly argues that Heston revitalized conservatism in general his image of morality individualism and masculinity lent the conservative movement credibility with a larger public He effectively campaigned for conservative candidates and causes using his popularity and image to fuel and legitimize his political activities Heston's high degree of political engagement not only paved the way for many of today's Hollywood activists but also helped popularize many of the beliefs of the neoconservative movement A balanced look at Heston and his offscreen work *From My Cold Dead Hands* explains how this charismatic man of conviction propelled his personal beliefs into the political mainstream of America
