Mainstream Of Civilization Since 15:

The Publishers' Trade List Annual ,1985 **The History of the Contractual Thoughts in Ancient China** Yunsheng Liu,2020-07-01 This book explores the intellectual history of contract law in ancient China by employing archaeological and empirical methodologies Divided into five chapters it begins by reviewing the origin of the contract in ancient China and analyzing its name primary form historical premise and functions The second chapter discusses free will and lawfulness in the establishment of a contract offering insights into the impact of contracts on social justice In turn the third chapter addresses the inner core of the contract validity and liability This allows readers at all levels to identify the similarities and differences between contracts from different eras and different parts of the world which will also benefit those pursuing comparative research in related fields Chapters four and five offer a philosophical exploration of contract history in ancient China and analyze key aspects including human nature and ethical justice *Subject Guide to Books in Print* ,1983

Subject Guide to Children's Books in Print 1997 Bowker Editorial Staff,R R Bowker Publishing,1996-09 *Books in Print Supplement* ,1994 *Forthcoming Books* Rose Army,1994-02 **Books in Print** ,1991 **Discovering Chinese Nationalism in China** Yongnian Zheng,1999-04-28 This book explores the revival of Chinese nationalism in the 1990s and analyses the ways in which the West deals with this phenomenon Yongnian Zheng discusses the complicated nature of China s new nationalism and presents the reader with a very different picture to that portrayed in Western readings of Chinese nationalism He argues that China s new nationalism has been a reaction to changes in the country s international circumstances and can be regarded as a voice over the existing unjustified international order Zheng shows that the present Chinese leadership is pursuing strategies not to isolate China but to integrate it into the international community Based on the author s extensive research in China the book provides a set of provocative arguments against prevailing Western attitudes to and perceptions of China s nationalism **Political Economy, Linguistics and Culture** Jürgen Backhaus,2007-12-21 During the late 19th and throughout the 20th century social sciences in general and economics in particular have undergone enormous progress This has led to something of an embarrassment of riches While certain topics have been fully researched to the point where the marginal benefit from further research is approaching zero others have remained largely under researched or were being ignored altogether It is this discrepancy which prompted the research paradigm of Crossing Bridges For this volume ten authors have joined forces to address the problem of under researched topics focussing in particular on gaps in interdisciplinary research between economics and other social sciences such as linguistics art and cultural history Making use of interdisciplinary methods and approaches the book makes a case for stronger bonds between the different fields of social science *Health and Development* Iris Borowy,Bernard Harris,2023-01-30 Health and development require one another there can be no development without a critical mass of people who are sufficiently healthy to do whatever it takes for development to occur and people cannot be healthy without

societal developments that enable standards of health to be maintained or improved However the ways in which health and development interact are complex and contested This volume unites eleven case studies from nine countries in three continents and two international organizations since the late nineteenth century Collectively they show how different actors have struggled to reconcile the sometimes contradictory nature of health and development policies and the subordination of these policies to a range of political objectives **The Real Cyber War** Shawn M. Powers, Michael Jablonski, 2015-03-15

Contemporary discussion surrounding the role of the internet in society is dominated by words like internet freedom surveillance cybersecurity Edward Snowden and most prolifically cyber war Behind the rhetoric of cyber war is an on going state centered battle for control of information resources Shawn Powers and Michael Jablonski conceptualize this real cyber war as the utilization of digital networks for geopolitical purposes including covert attacks against another state s electronic systems but also and more importantly the variety of ways the internet is used to further a state s economic and military agendas Moving beyond debates on the democratic value of new and emerging information technologies **The Real Cyber War** focuses on political economic and geopolitical factors driving internet freedom policies in particular the U S State Department s emerging doctrine in support of a universal freedom to connect They argue that efforts to create a universal internet built upon Western legal political and social preferences is driven by economic and geopolitical motivations rather than the humanitarian and democratic ideals that typically accompany related policy discourse In fact the freedom to connect movement is intertwined with broader efforts to structure global society in ways that favor American and Western cultures economies and governments Thought provoking and far seeing **The Real Cyber War** reveals how internet policies and governance have emerged as critical sites of geopolitical contestation with results certain to shape statecraft diplomacy and conflict in the twenty first century **Spain After the Indignados/15M Movement** Óscar Pereira-Zazo, Steven L.

Torres, 2019-06-24 **Spain After the Indignados 15M Movement** explores how the aftershocks of the 2007 Great Recession restructured Spain s political sphere and political imaginary It brings together a representative sample of Spain s leading progressive voices including two of the five founding members of the Podemos party The essays herein explore the areas of economics politics ecology social change media and cultural politics in order to present a broad critical account of contemporary Spain with a special emphasis on emerging forms of sociopolitical contestation self organizing democratic participation and radical politics The edited volume argues that Spanish cultural studies which originally gravitated toward celebratory accounts of capitalist modernization the cultural Movida and the advent of a postmodern Spain must continue to build a new cultural politics that not only challenges the accepted narrative of the Spanish Transition to democracy but that is committed to confronting the civilizatory challenges currently faced **The International Handbook of the**

Demography of Race and Ethnicity Rogelio Sáenz, David G. Embrick, Néstor P. Rodríguez, 2015-06-03 Examining key countries in every region of world this handbook presents population profiles and analyses concerning racial ethnic

disparities and changing intergroup relations Inside prominent scholars from various parts of the world and disciplines address the links between stratification demography and conflict across the globe Organized by region continent coverage for each profiled country includes demographic information a historical overview that addresses past racial ethnic conflict identification of the most salient demographic trends and issues that the country faces theoretical issues related to the linkages between stratification demography and conflict methodological issues including quality of data and cutting edge methods to better understand the issue at hand and details on the possible future of the existing trends and issues with particular emphasis on public policy and human rights This handbook will help readers to better understand the commonalities and differences that exist globally in the interplay between stratification demography and conflict In addition it also provides an excellent inventory of theoretical perspectives and methodological approaches that are needed to better comprehend this issue This handbook will appeal to students researchers and policy analysts in the areas of race and ethnic relations demography inequality international sociology international relations foreign studies social geography and social development

The Culture of "The Culture" Joseph S. Norman, 2021-01-05 In a career that spanned over thirty years Iain M Banks became one of the best loved and most prolific writers in Britain with his space opera series concerned with the pan galactic utopian civilisation known as the Culture widely regarded as his most significant contribution to science fiction The Culture of The Culture focuses solely on this series providing a comprehensive thematic analysis of Banks's Culture stories from Consider Phlebas to The Hydrogen Sonata It explores the development of Banks's political philosophical and literary thought arguing that the Culture offers both an image of a harmonious civilisation modelled on an alternative socialist form of globalisation and a critique of our neo liberal present As Joseph Norman explains the Culture is the result of an ongoing utopian process

attempting through the application of technoscience to move beyond obstacles to progress such as imperialism capitalism the human condition religious dogma patriarchy and crises in artistic representation The Culture of The Culture defines Banks s creation as culture a utopian way of doing of being of seeing an approach an attitude and a lifestyle that has enabled and is evolving alongside utopia rather than an image of a static end state

Contemporary Islamic Political Thought in Egypt Ebtisam Aly Hussein,2024-02-22 This book takes a hermeneutic approach toward reading the writings of Jamal al Banna and Tariq al Bishri across several decades in order to explore contemporary Islamic political thought under authoritarianism Ebtisam Aly Hussein uses the framework of meta languages in relation to the writings of these two particular Islamic intellectuals to examine how authority over the public sphere is established in both religious and political terms Chapters outline the major themes of Islamic political thought in the writings of al Banna and al Bishri mainly the state in Islam Shari a application political violence as jihad and identity politics and how in their writings they have interacted with a variety of autocratic practices under Nasir Sadat and Mubarak The book puts forward a unique study of the role of politics and religion in establishing authority over the public sphere and how this authority is manifested in the intellectual output of these two Islamic intellectuals
