*Parks in Transition* Brian Child, 2013-06-17 Parks face intense pressure from both environmental and

developmental perspectives to conserve biodiversity and provide economic opportunities for rural communities These imperatives are often in conflict while potential solutions may be subject to theoretical and practical disagreement and complicated by pressing economic political and cultural considerations Parks in Transition collects the work of the most distinguished scholars and practitioners in this field drawing on insight from over 50 case studies and synthesizing them into lessons to guide park management in transitional economies where the challenges of poverty and governance can be severe The central message of the book is that parks are common property regimes that are supposed to serve society It analyses and sheds light on the crucial questions arising from this perspective If parks are set aside to serve poor people should conservation demands over rule demands for jobs and economic growth Or will deliberately using parks as bridgeheads for better land use and engines for rural development produce more and better conservation The issue that arises at all levels is that of accountability including the problematic linkages between park authorities and political systems and the question of how to measure park performance This book provides vital new insights for park management regarding the relationship between conservation and commercialization performance management new systems of governance and management and linkages between parks landscape and the land use economy Managing Protected Areas Michael Lockwood, Graeme Worboys, Ashish Kothari, 2012-05-04 This handbook produced by world renowned experts from the World Conservation Union IUCN spans the full terrain of protected area management and is the international benchmark for the field The book employs dozens of detailed international cases studies hundreds of concise topical snapshots maps tables illustrations and a colour plate section as well as evaluation tools checklists and numerous appendices to cover all aspects of park management from biodiversity to natural heritage to financial management The book establishes a conceptual underpinning for protected area management presents guiding principles for the 21st century reflects recent work on international best practice and provides an assessment of skills required by professionals As the most authoritative guide ever compiled to the principles and practice of protected area management this volume is essential for all professionals and students in all countries and contexts

Environmental Conflict and Democracy in Canada Laurie E. Adkin, 2010-01-01 The urgent need to resolve conflicts over forests fisheries farming practices urban sprawl and greenhouse gas reductions among many others calls for a critical rethinking of the nature of our democracy and citizenship This work aims to move the ideas of green democracy and ecological citizenship from the margins to the centre of discussion and debate in Canada Environmental Conflict and Democracy in Canada offers sixteen case studies to demonstrate that environmental conflicts are always about our rights and responsibilities as citizens as well as the quality of our democratic institutions By bringing together environmental politics and democratic theory this path breaking collection charts a new course for research and activism one that reveals the deficits of citizenship and how democracy must be extended to achieve a socially just ecologically sustainable society
