Politics Of Broadcast Regulation:

The Politics of Broadcast Regulation Erwin G. Krasnow, Lawrence D. Longley, 1978-01-01 **Politics of Broadcast Regulation** Erwin G. Krasnow, 1998 *A "second-rate" First Amendment* Richard E. Labunski, 1979 The Politics of Broadcasting Raymond Kuhn, 2023-12-22

The Politics of Broadcasting 1985 examines the state of broadcasting in a variety of Western democracies from a political viewpoint written at a time when new telecommunications and information technology revolutionised television and radio The book describes and analyses the problems faced by politicians and broadcasters in responding to these changing technological and political environments The Politics of Broadcast Regulation, a Case Study Victor F. Ridder, 1980 *The Beginning of Broadcast Regulation in the Twentieth Century* Marvin R. Bensman, 2015-11-03

The Radio Act of August 13 1912 provided for the licensing of radio operators and transmitting stations for nearly 15 years until Congress passed the Radio Act of 1927 From 1921 to 1927 there were continual revisions and developments and these still serve as the basis for current broadcast regulation This book chronicles that crucial six year period using primary documents The administrative structure of the Department of Commerce and the personnel involved in the regulation of broadcasting are detailed The book is arranged chronologically in three sections Broadcast Regulation and Policy from 1921 to 1925 Congestion and the Beginning of Regulatory Breakdown in 1924 and 1925 and Regulatory Breakdown and the Passage of the Act of 1927 There is also discussion of the Department of Commerce divisions and their involvement until they were absorbed by the Federal Communication Commission A bibliography and an index conclude the work *The SAGE Handbook of Television Studies* Manuel Alvarado, Milly Buonanno, Herman Gray, Toby Miller, 2014-12-09

Genuinely transnational in content as sensitive to the importance of production as consumption covering the full range of approaches from political economy to textual analysis and written by a star studded cast of contributors Emeritus Professor Graeme Turner University of Queensland Finally we have before us a first rate and wide ranging volume that reframes television studies afresh boldly synthesising debates in the humanities cultural studies and social sciences This volume should be in every library and media scholar's bookshelf Professor Ravi Sundaram Centre for the Study of Developing Societies Bringing together a truly international spread of contributors from across the UK US South America Mexico and Australia this Handbook charts the field of television studies from issues of ownership and regulation through to reception and consumption Separate chapters are dedicated to examining the roles of journalists writers cinematographers producers and manufacturers in the production process whilst others explore different formats including sport novella and soap opera news and current affairs music and reality TV The final section analyses the pivotal role played by audiences in the contexts of gender race and class and spans a range of topics from effects studies to audience consumption The SAGE Handbook of Television Studies is an essential reference work for all advanced undergraduates graduate students and academics across broadcasting mass communication and media studies **The First Amendment Under Siege** Richard

Labunski,1981-12-15 The Greeks and Romans achieved extraordinary feats of surveying in building their aqueducts tunnels and roads and in measuring the circumference of the earth and the heights of mountains This book which contains translations of all the ancient texts on surveying instruments including major sources hitherto untapped sets out to reconstruct the instruments and to explain how they were used The subject has never been tackled before in this detail and a level of technical sophistication emerges which must count as one of the greatest achievements of the ancient world

Politics, Society, and the Media, Second Edition Paul Nesbitt-Larking,2007-01-01 Politics Society and the Media is the first comprehensive political sociology of the media to be published in Canada Paul Nesbitt Larking draws upon a range of disciplines including cultural and media studies political economy social theory and political science to provide an analysis of the relationship between power and representation in Canada The framework for the book presents a model of the mutual interaction between politics and the media Attention is focused in the early chapters on how cultural ideological economic and governmental forces shape and condition the production of media in Canada Chapters on the work of Innis Grant McLuhan and their postmodern successors place the evolution of McLuhan s theoretical argument that the medium is the message at the heart of the book Canadian identity and how to understand Canadian media politically is the subject of a chapter on textual analysis Two extensive chapters follow on the media s influence and effects on politics In addition to standard topics on politics and the media this new edition offers much more an examination of the media on the politics of gender and aboriginal peoples the micro politics of the media workplace and an exploration of important media related considerations Throughout reference is made to relevant and compelling issues placed within the context of media theory

The Television Code Deborah L. Jaramillo,2018-09-26 The broadcasting industry s trade association the National Association of Broadcasters NAB sought to sanitize television content via its self regulatory document the Television Code The Code covered everything from the stories images and sounds of TV programs no profanity illicit sex and drinking negative portrayals of family life and law enforcement officials or irreverence for God and religion to the allowable number of commercial minutes per hour of programming It mandated that broadcasters make time for religious programming and discouraged them from charging for it And it called for tasteful and accurate coverage of news public events and controversial issues Using archival documents from the Federal Communications Commission NBC the NAB and a television reformer Senator William Benton this book explores the run up to the adoption of the 1952 Television Code from the perspectives of the government TV viewers local broadcasters national networks and the industry s trade association Deborah L Jaramillo analyzes the competing motives and agendas of each of these groups as she builds a convincing case that the NAB actually developed the Television Code to protect commercial television from reformers who wanted more educational programming as well as from advocates of subscription television an alternative distribution model to the commercial system By agreeing to self censor content that viewers local stations and politicians found objectionable Jaramillo

concludes the NAB helped to ensure that commercial broadcast television would remain the dominant model for decades to come
