Polybius The Histories Loeb Classical Library Vol 137

Monica M. Bontty

Polybius The Histories Loeb Classical Library Vol 137:

Polybius and His Legacy Nikos Miltsios, Melina Tamiolaki, 2018-03-19 Although scholars continue to address old questions about Polybius it is clear that they are also turning their attention to aspects of his history that have been inadequately dealt with in the past or have even gone largely unnoticed Polybius history is increasingly treated not just as a source of valuable information on the impressive expansion of Roman rule in the Mediterranean world but also as a complex and nuanced narrative with its own interests and purposes Moreover since apart from Livy's use of Polybius which has been thoroughly discussed most studies of Polybius reception focus on the modern world especially in relation to the theory of mixed constitutions finding out more about Polybius impact on ancient Greek and Roman authors remains a major desideratum This volume brings together contributions which in either posing new questions or reformulating old ones attest both to the ardent scholarly interest currently directed toward Polybius and to the variety of hermeneutical issues raised by his work Subjects discussed include Polybius historical ideas his methods of composition his views on the role of the historian his representation of cultural difference his intertextual affinities and his reception and influence Taken together the papers in this collection attempt to promote a deeper understanding of the qualities and peculiarities of Polybius history as well as to offer fresh insights into the interpretation of this important work

Cannae Gregory Daly, 2005-08-18 Gregory Daly's enthralling study considers the reasons that led the two armies to the field of battle and why each followed the course that they did when they got there This striking and vivid account is the fullest yet of the bloodiest battle

Machiavelli on Freedom and Civil Conflict Marie Gaille, 2018-07-23 In Machiavelli on Freedom and Civil Conflict An Historical and Medical Approach to Political Thinking Marie Gaille rethinks Machiavelli's conception of civil conflict In complete opposition to the common view of Machiavelli as a defender of tyranny this analysis brings new elements to the forefront the use of medical metaphors to describe the body politic its historical lifespan and its institutional arrangement This study is also based on a comprehensive approach to Machiavelli's writings including his most famous works but also The History of Florence his correspondence and his political military and diplomatic reports This study allows Marie Gaille to propose an original assessment of Machiavelli's insights for contemporary conceptions of democracy This is a revised and translated edition of *Conflit Civil et Liberté la Politique Machiavelienne entre Histoire et Modernité* first published in French in 2004 by Éditions Honor Champion

Crucifixion in the Mediterranean World John Granger Cook, 2018-12-10 John Granger Cook traces the use of the penalty by the Romans until its probable abolition by Constantine Rabbinic and legal sources are not neglected The material contributes to the understanding of the crucifixion of Jesus and has implications for the theologies of the cross in the New Testament Images and photographs are included in this volume

Ancient Rome Monica M. Bontty, 2020-03-17 This book shares little known facts from and excerpts of primary source documents to correct popular misconceptions about Ancient Rome and to show how those misconceptions became widespread Roman personalities and

history have always had a larger than life profile in American popular culture but most people think of this ancient civilization as merely decadent cruel and elitist Most of our stereotypical conceptions of the empire and its people however are wrong This book corrects popular misconceptions about the ancient Roman world thus making ancient history relevant and accessible to modern readers and allowing modern critics of American politics and society to draw accurate comparisons Each chapter discusses how a particular misconception developed spread and evolved into what we now believe to be the historical truth Topics discussed include crucifixion the destruction of Carthage Julius Caesar s last words and Roman hygiene Excerpts from primary source documents provide evidence of both the rise of the historical fictions and the truths behind the myths Geographers of the Ancient Greek World: Volume 2 D. Graham J. Shipley,2024-04-18

Ancient Greek geographical writing is represented not just by the surviving works of the well known authors Strabo Pausanias and Ptolemy but also by many other texts dating from the Archaic to the Late Antique period Most of these texts are however hard for non specialists to find and many have never been translated into English This volume the work of an international team of experts presents the most important thirty six texts in new accurate translations In addition there are explanatory notes and authoritative introductions to each text which offer a new understanding of the individual writings and demonstrate their importance no longer marginal but in the mainstream of Greek literature and science The book includes twenty eight newly drawn maps images of the medieval manuscripts in which most of these works survive and a full Introduction providing a comprehensive survey of the field of Greek and Roman geography **Gibbon's Christianity** Hugh Liebert,2022-03-08

There has never been much doubt about the faith of the infidel historian Edward Gibbon But for all of Gibbon s skepticism regarding Christianity s central doctrines the author of The History of the Decline and Fall of the Roman Empire did not merely seek to oppose Christianity he confronted it as a philosophical and historical puzzle Gibbon s Christianity tallies the results and conditions of that confrontation Using rich correspondence private journals early works and memoirs that were never completed Hugh Liebert provides intimate access to Gibbon s life in order to better understand his complex relationship with religion Approaching the Decline and Fall from the context surrounding its conception Liebert shows how Gibbon adapted explanations of the Roman republic s rise to account for a new spiritual republic and subsequently the rise of modern Europe Taken together Liebert s analysis of this context including the nuance of Gibbon s relationship to Christianity and his readings of Gibbon s better and lesser known texts suggest a historian more eager to comprehend Christianity s worldly power than to sneer at or dismiss it Eminently readable and wholly accessible to anyone interested in or familiar with the Decline and Fall this groundbreaking reassessment of Gibbon s most famous work will appeal especially to scholars of eighteenth century studies **Why Resurrection?** Carlos Blanco,2011-03-11

Few questions exert such a great fascination on human conscience as those related to the meaning of life history and death The belief in the resurrection of the dead constitutes an answer to a real challenge What is the meaning of life and history in the midst of a world in which evil injustice

and ultimately death exist Resurrection is an instrument serving a broader more encompassing reality the Kingdom of God Such a utopian Kingdom gathers the final response to the problem of theodicy and to the enigma of history This book seeks to understand the idea of resurrection not only as a theological but also as a philosophical category as expression of the collective aspirations of humanity combining historical theological and philosophical analyses in dialogue with some of the principal streams of contemporary Western thought *Transformations of Romanness* Walter Pohl, Clemens Gantner, Cinzia Grifoni, Marianne Pollheimer-Mohaupt, 2018-07-09 Roman identity is one of the most interesting cases of social identity because in the course of time it could mean so many different things for instance Greek speaking subjects of the Byzantine empire inhabitants of the city of Rome autonomous civic or regional groups Latin speakers under barbarian rule in the West or increasingly representatives of the Church of Rome Eventually the Christian dimension of Roman identity gained ground The shifting concepts of Romanness represent a methodological challenge for studies of ethnicity because depending on its uses Roman identity may be regarded as ethnic in a broad sense but under most criteria it is not Romanness is indeed a test case how an established and prestigious social identity can acquire many different shades of meaning which we would class as civic political imperial ethnic cultural legal religious regional or as status groups This book offers comprehensive overviews of the meaning of Romanness in most former Roman provinces complemented by a number of comparative and thematic studies A similarly wide ranging overview has not been available so far *Rhetoric and the Writing of History, 400-1500* Matthew Kempshall, 2011-08-31 This book provides an analytical overview of the vast range of historiography which was produced in western Europe over a thousand year period between c 400 and c 1500 Concentrating on the general principles of classical rhetoric central to the language of this writing alongside the more familiar traditions of ancient history biblical exegesis and patristic theology this survey introduces the conceptual sophistication and semantic rigour with which medieval authors could approach their narratives of past and present events and the diversity of ends to which this history could then be put By providing a close reading of some of the historians who put these linguistic principles and strategies into practice from Augustine and Orosius through Otto of Freising and William of Malmesbury to Machiavelli and Guicciardini it traces and questions some of the key methodological changes that characterise the function and purpose of the western historiographical tradition in this formative period of its development

Polybius The Histories Loeb Classical Library Vol 137 Book Review: Unveiling the Magic of Language

In an electronic digital era where connections and knowledge reign supreme, the enchanting power of language has become much more apparent than ever. Its ability to stir emotions, provoke thought, and instigate transformation is actually remarkable.
