Bose, 2019-06-04 This volume represents more than just a collection of chapters and bibliographic sources For us it provides another example of collective solidarity hard work and a relentless commitment to contribute to the process of advancing and transforming knowledge about women's condition It attempts to update and assess how scholarship on women has impacted different disciplines and fields and examines the multivariate conditions and responses to immediate and long term realities generated by women from different Latin American and Caribbean countries The editors hope that this publication modest as it may be will be a useful tool to other researchers educators and students in their efforts at pursuing and expanding the knowledge and visions that will make our different societies more just and

liberating for all their citizens Politics and Urban Growth in Buenos Aires, 1910-1942 Richard J. Walter, 2003-10-16 This book first published in 1994 describes the development of Buenos Aires during the period from 1910 to the early 1940s focusing on the role of politics and local government in the evolution of the city Living and Working in Poverty in Latin America María Eugenia Rausky, Mariana Chaves, 2018-12-07 This edited volume studies the complex interrelation of poverty work and different stages in the life course and how it contributes to the permanent existence of poverty and inequality in vulnerable groups in society Mechanisms of productions and reproduction of these relationships are identified through empirical research carried out in four Latin American countries Mexico Argentina Brazil and Cuba This book centers on the experiences of individuals in those less favored social groups who may have suffered structural poverty for decades or who may have been simply deprived of a basic income to cover their most essential needs Domestic Servants in Literature and Testimony in Brazil, 1889-1999 S. Roncador, 2014-02-05 Drawing from a variety of historical sources theory and fictional and non fictional production this book addresses the cultural imaginary of domestic servants in modern Brazil and demonstrates maids symbolic centrality to shifting notions of servitude subordination femininity and domesticity **Mass Migration to Modern Latin America** Samuel L. Baily, Eduardo José Miguez, 2003-01-01 It is well known that large numbers of Europeans migrated overseas during the century preceding the Great Depression of 1930 and that a great many of them went to the United States What is not well known particularly in the United States is that more than 20 percent of these migrants emigrated to Latin America and that they significantly influenced the demographic economic and cultural evolution of many areas in the region Individuals have migrated to Latin America since the beginning of the Conquest more than 500 years ago but by far the largest number 10 million migrated from 1870 to 1930 This incredible influx was also concentrated in terms of the origins and destinations of the individuals three quarters came from the Iberian peninsula and Italy while 91 percent relocated to just three countries Argentina 50 percent Brazil 36 percent and Uruguay 5 percent Mass Migration to Modern Latin America includes original contributions from more than a dozen of the leading scholars of the new methodologically and theoretically innovative Latin American migration history that has emerged during the past 20 years Although the authors focus primarily on the nature and impact of mass migration to Argentina and Brazil from 1870 to 1930 they place their analysis in broader historical and comparative contexts They link the mass migrations at the turn of the past century to older migratory traditions and existing social networks some of which had their roots in the colonial period The editors begin each section of the book with personal stories of individual immigrants and their families providing students with a glimpse into the complex process of migration and how it played out in various situations This text will help readers understand that Latin America is more than a traditional society composed of the descendants of the Conquistadors and Native Americans This book demonstrates the crucial impact of the mass migrations of the late nineteenth and early twentieth centuries on the formation of some Latin American societies *Nueva historia de las mujeres en la Argentina* Débora C. [Historia de las elites en la Argentina](#) Leandro Losada, 2012-02-01 Un análisis de largo plazo y en perspectiva de los grupos y círculos que ejercieron el poder político condujeron la economía perfilaron las ideas de una poca

en la Argentina. Ciertas miradas convencionales frecuentemente han se alado a las clases dominantes o a los sectores dirigentes como los principales responsables de muchos de los problemas que atravesaron a los argentinos a lo largo de su historia. En este libro se ofrece un análisis de largo plazo y en perspectiva de la historia de las elites en la Argentina a partir de una serie de temas: su composición social, los atributos que cimentaron el poder, la riqueza y el status en diferentes contextos históricos, las prácticas sociales y las identidades. La exploración sostenida en los principales lineamientos ofrecidos por la historiografía más rigurosa se extiende desde el período colonial hasta el surgimiento del peronismo. De esta manera desfilan por estas páginas entre otras las modestas elites de la temprana Buenos Aires de los siglos XVI y XVII, las más opulentas del Interior colonial, las incipientes elites políticas e intelectuales surgidas con la Revolución de Mayo de 1810, la próspera elite terrateniente pampeana de fines del ochocientos y las elites políticas que alentaron o al menos asistieron a la reforma electoral de 1912. El libro evalúa además cómo mutó el lugar de las elites en la sociedad a lo largo de tan extenso arco temporal.

Metodología de la investigación social: Caja de herramientas Mariana Caminotti, Hernán Pablo Toppi, 2020-09-01. La complejidad que caracteriza a las sociedades actuales desafía al investigador de las disciplinas que integran las ciencias sociales: los tipos de conflictos, las transformaciones que operan en el interior de los conjuntos sociales y su diversidad interpelan a quienes estudian estos fenómenos. Orientado a los jóvenes que se inician en el camino de la investigación social o a quienes ya se desenvuelven en él, este libro propone una serie de herramientas tiles que comienzan con una clarificadora caracterización de las ciencias sociales, su método y la diferencia con las disciplinas de las llamadas ciencias duras. Además, los distintos capítulos abordan problemas como las condiciones de producción y validación del conocimiento científico o el desafío de conceptualizar, clasificar y comparar en la investigación social. A su vez, propone guías para un proyecto concreto. Por último, también se afronta la discusión sobre los diferentes métodos que se utilizan para producir datos, evaluar hipótesis y teorías y responder preguntas cualitativas, comparativas, cuantitativas y mixtas.

La Galicia austral Xosé Manoel Núñez Seixas, 2001. *La casa y la multitud* Anahi Ballent, Jorge Francisco Liernur, 2022-05-30. La dimensión privada y la dimensión social de la habitación son los dos extremos del espacio en que este libro se desarrolla. Esos extremos no son otros que los que definen la existencia humana en la Modernidad: la construcción del sujeto libre y autónomo y el despliegue de nuevas formas para la articulación de una multiplicidad de seres ya no unidos por valores esenciales heredados. Si por un lado la casa debe estudiarse como parte de los dispositivos para la formación de esa nueva subjetividad y por el otro como un producto más del capitalismo, la reproductibilidad determina esos dispositivos con condiciones técnicas urbanas y estéticas antes desconocidas. Entretejida con el resto de las fibras que integran las tramas de la política y la cultura, la historia de la vivienda en la Argentina moderna está tensada por esa polaridad. Los debates públicos, la creación de instituciones y el diseño de políticas, el rol de especialistas, la configuración de nuevas tipologías y estéticas arquitectónicas, pero también la producción de ideas y la construcción de subjetividades sobre los espacios domésticos son algunas de las múltiples aproximaciones al
