

FORTIFICATION FROM THE RENAISSANCE TO WEST POINT

RAMPARTS

An aerial illustration of a coastal fortification, likely Fort Mifflin, during sunset. The fort is a complex of dark stone walls and bastions, situated on a grassy peninsula. A large American flag flies from a central pole. The fort is surrounded by a moat and is connected to the mainland by a narrow causeway. In the background, the ocean is filled with numerous sailing ships, and the sky is a mix of orange, pink, and blue. The overall scene is dramatic and historical.

Assembly West Point Association of Graduates (Organization),1992 Ramparts Marguerita Z. Herman,1992-01-01 I bogen beskrives f stningsv rker og udviklingen af disse fra ren ssancen 1500 til Den Nordamerikanske Frihedskrig 1861 67 V gten i fremstillingen er lagt p anl g i Europa og Nordamerika Siegecraft - No Fortress Impregnable Harold

Skaarup,2003-04-06 It has been said that the taking of a fortress depends primarily on the making of a good plan to take it and the proper implementation and application of the resources to make the plan work Long before a fortress has been besieged and conquered it has to have been outthought before it can be outfought This book outlines some of the more successfully thought out sieges and demonstrates why it is that no fortress is impregnable A siege can be described as an assault on an opposing force attempting to defend itself from behind a position of some strength Whenever the pendulum of technology swings against the status quo the defenders of a fortification have usually been compelled to surrender We must stay ahead of the pendulum and not be out thought long before we are out fought for as it will be shown in this book no fortress is impregnable Strategic Logic and Political Rationality Bradford A. Lee,Karl F. Walling,2004-08-02 One of three volumes in honour of the teaching and scholarship of the late Michael I Handel this book details the universal logic of strategy and the ability of liberal democratic governments to address this logic rationally Treating war as an extension of politics the diverse contributors drawn from the United States the United Kingdom Australia and Israel explore the difficulties in matching strategy to policy especially in free societies

Ticonderoga Soldier Elijah Estabrooks Journal 1758-1760 Harold A. Skaarup,2001 The French and Indian War also known as the Seven Years War was fought between 1754 and 1763 One of the major battles in the North American campaign was fought at Fort Carillon also known as Ticonderoga Fort Ticonderoga had been erected by the French in New York in 1755 on a site which they believed was the key to the defense of Canada The fort was strategically situated to provide control of both the two mile portage and navigation northward on Lake Champlain General Montcalm was ordered to defend it and the British were determined to take it by force Although the British had the superior numbers the battle went badly for them because their commander was killed in a small skirmish with the French before the battle began On the 8th of July 1758 the French Forces under the leadership of General Montcalm defeated a superior British force led by General Abercrombie This is the story of Elijah Estabrooks a Massachusetts provincial soldier who fought in that battle Elijah kept a Journal throughout his military service and the purpose of this book is to provide additional details on the people and places that he wrote about during this war

A Cumulative Bibliography of Medieval Military History and Technology Kelly DeVries,2001-11-01 There is perhaps no other more lively area for study in medieval history than medieval military history with its attendant and complementary field the history of medieval military technology In the past twenty years it seems that more major scholarly inroads have been made in this field than in any other historical genre of medieval studies or chronological period of military

history What this has meant is that it is now more difficult to keep up with all of the trends and sources in the field than ever before Hence the need for a reference work which covers what has previously been written and which in turn can assist the scholar both the more experienced academic and the beginner to improve his or her work in medieval military history or the history of medieval military technology Utilizing library catalogues bibliographies and footnotes this bibliography has compiled the most complete list of secondary references to works in medieval military history and the history of military technology It keeps fairly strictly to a geography which centers on conventional medieval boundaries Europe Byzantium and the Middle East However the chronology does differ from the conventional medieval dates Because of its influence on the early Middle Ages references to Late Antiquity especially to the military history and technology of the third and fourth century Roman Empire have been included For the opposite reason the influence of the Middle Ages on the sixteenth and early seventeenth centuries references to military history and technology up to 1648 have been included as well This is especially important in the study of the Ottoman Turkish Wars and Arms and Armor where the end of the fifteenth century as a chronological terminus makes little sense

To the Ladies Sylvia Graham Olejniczaka, 2014-09-15 Historic sites and houses represent the essence of who we are The preservation of our history through accurate interpretation is an important aspect of keeping these sites alive This book provides multiple interpretations of the same historic house and its evolution from deterioration to dismantlement and reconstruction at a new site and the importance of its current location to American history as well as insight into the lives of the women involved in the history of the eras in which it was built and later reconstructed

Earthen Walls, Iron Men Steven M. Mayeux, 2007 Mayeux does more than just tell the story of the fort from the military perspective it goes deeper to closely examine the lives of the people that served in and lived around Fort DeRussy Through a thorough examination of local documents Mayeux has uncovered the fascinating stories that reveal for the first time what wartime life was like for those living in central Louisiana In this book the reader will meet soldiers and slaves plantation owners and Jayhawkers elderly women and newborn babies all of whom played important roles in making the history of Fort DeRussy Mayeux presents an unvarnished portrait of the life at the fort devoid of any romanticized notions but more accurately capturing the utter humanity of those who built it defended it attacked it and lived around it
