**Services and Employment** Mary Gregory, Wiemer Salverda, Ronald Schettkat, 2021-02-09 Why is Europe's employment rate almost 10 percent lower than that of the United States? This jobs gap has typically been blamed on the rigidity of European labor markets. But in *Services and Employment*, an international group of leading labor economists suggests quite a different explanation. Drawing on the findings of a two-year research project that examined data from France, Germany, the Netherlands, the United Kingdom, and the United States, these economists argue that Europe's 25 million missing jobs can be attributed almost entirely to its relative lack of service jobs. The jobs gap is actually a services gap. But *Services and Employment* asks why does the United States consume services at such a greater rate than Europe? *Services and Employment* is the first systematic and comprehensive international comparison on the subject. Mary Gregory, Wiemer Salverda, Ronald Schettkat, and their fellow contributors consider the possible role played by differences in how certain services, particularly health care and education, are provided in Europe and the United States. They examine arguments that Americans consume more services because of their higher incomes and that American households outsource more domestic work. The contributors also ask whether differences between U.S. and European service sectors encapsulate fundamental trans-Atlantic differences in lifestyle choices. In addition to the editors, the contributors include Victor Fuchs, William Baumol, Giovanni Russo, Adriaan Kalwij, Stephen Machin, Andrew Glyn, Joachin Müller, John Schmitt, Michel Sollogoub, Robert Gordon, and Richard Freeman.

**Democratizing Inequalities** Caroline W. Lee, Michael McQuarrie, Edward T. Walker, 2015-01-30 Opportunities to have your say get involved and join the conversation are everywhere in public life From crowdsourcing and town hall meetings to government experiments with social media participatory politics increasingly seem like a revolutionary antidote to the decline of civic engagement and the thinning of the contemporary public sphere Many argue that with new technologies

flexible organizational cultures and a supportive policymaking context we now hold the keys to large scale democratic revitalization Democratizing Inequalities shows that the equation may not be so simple Modern societies face a variety of structural problems that limit potentials for true democratization as well as vast inequalities in political action and voice that are not easily resolved by participatory solutions Popular participation may even reinforce elite power in unexpected ways Resisting an oversimplified account of participation as empowerment this collection of essays brings together a diverse range of leading scholars to reveal surprising insights into how dilemmas of the new public participation play out in politics and organizations Through investigations including fights over the authenticity of business sponsored public participation the surge of the Tea Party the role of corporations in electoral campaigns and participatory budgeting practices in Brazil Democratizing Inequalities seeks to refresh our understanding of public participation and trace the reshaping of authority in today s political environment      **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1965
