The Volunteer Army US Army Military History Research Collection, John Slonaker, 1972 **All for the King's Shilling** Edward J Coss, 2012-10-11 The British troops who fought so successfully under the Duke of Wellington during his Peninsular Campaign against Napoleon have long been branded by the duke's own words scum of the earth and assumed to have been society's ne'er-do-wells or criminals who enlisted to escape justice Now Edward J Coss shows to the contrary that most of these redcoats were respectable laborers and tradesmen and that it was mainly their working class status that prompted the duke's derision Driven into the army by unemployment in the wake of Britain's industrial revolution they confronted wartime hardship with ethical values and became formidable soldiers in the bargain These men depended on the king's shilling for survival yet pay was erratic and provisions were scant Fed worse even than sixteenth century Spanish galley slaves they often marched for days without adequate food and if during the campaign they did steal from Portuguese and Spanish civilians the theft was attributable not to any criminal leanings but to hunger and the paltry rations provided by the army Coss draws on a comprehensive database on British soldiers as well as first person accounts of Peninsular War participants to offer a better understanding of their backgrounds and daily lives He describes how these neglected and abused soldiers came to rely increasingly on the emotional and physical support of comrades and developed their own moral and behavioral code Their cohesiveness Coss argues was a major factor in their legendary triumphs over Napoleon's battle hardened troops The first work to closely examine the social composition of Wellington's rank and file through the lens of military psychology All for the King's Shilling transcends the Napoleonic battlefield to help explain the motivation and behavior of all soldiers under the stress of combat **The Volunteer Army: A Military History Research Collection Bibliography**, 1972

Research Collection, 1972 **Gentlemen of the Blade** G.W. Stephen Brodsky, 1988-03-11 Brodsky contends that three factors constitutional commercial and technological in turn have caused Britain to raise large citizen forces Because Britain traditionally has been an unmilitary state which has not maintained large standing armies this ethos of amateurism merged with the professionalism of the Regular Army He argues that it is this unique influence of amateurism which historically has been central to the British profession of arms and vital to its spirit of service A wide range of prose and poetry illustrates that spirit and the military cultural experience in which it evolved in Great Britain from the Restoration through World War II In an overview of later developments including the Falklands War Brodsky enunciates the challenge facing the traditional ethos

in the nuclear age Analyzing the effect of the literary idiom he questions the future direction of representative literature

Music & the British Military in the Long Nineteenth Century Trevor Herbert, Helen Barlow, 2013-08-15 The first book to explore the contribution made by the military to British music history Music the British Military in the Long Nineteenth Century shows that military bands reached far beyond the official ceremonial duties they are often primarily associated with and had a significant impact on wider spheres of musical and cultural life **American Military History, 1607-1958** United States. Department of the Army, 1959 **Eclectic Magazine, and Monthly Edition of the Living Age** John Holmes Agnew, Walter Hilliard Bidwell, 1878 **Regicide and Republicanism** Sarah Barber, 2020-03-31 This study of seventeenth century monarchy suggests that the arguments which were used to attack the potentially absolutist monarchy of Charles I were not all that different from those used against the constitutional monarchy of today The seventeenth century arguments were based on the fiction that the person who fulfilled the office could be distinguished from the office itself Personal morality and behaviour were vital factors in assessing the value of government From 1646 onwards there developed two parallel strands of thought Those who believed in government by laws developed a republican response to the crisis of the 1640s Those who believed that people made laws attacked Charles I rather than the monarchy itself supported the regicide and subsequently approved of the rule of Cromwell *American Military History* Maurice Matloff, 1969
