

Национализм во всех значениях этого слова можно сегодня рассматривать как «наименший из общих деноминаторов» российской общественной жизни. Феномен поднимающегося русского национализма может быть понят во всем своим многообразием и объеме только если принять во внимание общую политическую эволюцию России в последние годы: рождение официальной патристической идеологии и присвоение путинской властью некоторых элементов доктрины русского национализма; возвращение антиамериканизма в российскую внешнеполитическую доктрину; все более широкое распространение в обществе экзенофобских настроений; рост насилия по отношению к приезжающим с Юга и другим «ужакам»; растущая популярность в кругах художественной и научной интеллигенции как узко этно-националистических, так и имперско-евразийских взглядов касательно истории и культуры – возрений, которые больше не воспринимаются как радикальные или маргинальные и стали практической общественной нормой для сегодняшней России.
