Rape Work Patricia Yancey Martin, 2013-01-11 Despite the proliferation of rape crisis centers and other improvements in the treatment of rape victims over the past 20 years many victims still find themselves the victims of what has been called a second rape by doctors lawyers judges police and administrators that process them This book takes a critical look at the organizations and officials that process rape victims to see how the structure of their respective organizations often prevent them from providing responsive care *Handbook of Gender, Work and Organization* Emma Jeanes, David Knights, Patricia Yancey Martin, 2012-03-02 This work of reference represents a remarkably complete detailed and extensive review of the field of gender work and organization in the second decade of the 21st century Its authors represent eight countries and many disciplines including management sociology political science and gender studies The chapters by top scholars in their areas of expertise offer both reviews and empirical findings and insights and challenges for further work The chapters are organized in five sections Histories and Philosophies Organizing Work and the Gendered Organization Embodiment Globalization and Diversity Theoretical and conceptual developments at the cutting edge of the field are explicated and illustrated by the handbook's authors Methods for conducting research into gender work and organization are reviewed and assessed as well as illustrated in the work of several chapters Efforts to produce greater gender equality in the workplace are covered in nearly every chapter in terms of past successes and failures Military organizations are presented as one of the difficult to change in regards to gender with the result that women are marginalized in practice even when official policies and goals require their full inclusion The role of the body embodiment is emphasized in several chapters with attention both to how organizations discipline bodies and how organizational members use their bodies to gain advantage Particular attention is paid to sexuality in and organizations including sexual harassment policies to alleviate bias and the likelihood that future work will pay more attention to the body's presence and role in work and organizations Many chapters also address change efforts that have been employed by individuals groups and organizations including transnational ones such as the European Union the United Nations and so on In addition to its value for teachers and students within this field it also offers insights that would be of value to policy makers and practitioners who need to reflect on the latest thinking relating to gender at work and in organizations **The Gender of Crime** Dana M. Medie,2020-03-06 Violence against women has been a focus of transnational advocacy networks since the early 1980s and the United Nations has in intervening years passed a series of resolutions to condemn prevent investigate and punish this violence Member states have committed to implementing this agenda Yet despite this buy in at the global level implementation at the domestic level remains uneven Scholars have found that states are more likely to translate global standards into national laws when pressured by women s movements and international organizations However a dearth of research on the implementation at the national and street levels of these international women s rights norms hampers an understanding of what happens after states pass laws In Africa where most states have not prioritized the prevention of violence against women and the majority of perpetrators act with impunity there is a major implementation gap This gap is acute in some post conflict countries on the continent Thus despite the presence of laws on various forms of violence against women in most African countries justice remains inaccessible to most victims In *Global Norms and Local Action* Peace A Medie studies the domestic implementation of international norms by examining how and why two post conflict states in Africa Liberia and C te d Ivoire have differed in their responses to rape and domestic violence Specifically she looks at the roles of the United Nations and women s movements in the establishment of specialized criminal justice sector agencies and the referral of cases for prosecution She argues that variation in implementation in Liberia and C te d Ivoire can be explained by the levels of international and domestic pressures that states face and by the favorability of domestic political and institutional conditions Medie s study is based on interviews with over 300 policymakers bureaucrats staff at the UN and NGOs police officers and survivors of domestic violence and rape an unprecedented depth of research into women s rights and gender violence norm

implementation in post conflict countries Furthermore through her interviews with survivors of violence Medie explains not only how states implement anti rape and anti domestic violence norms but also how women experience and are affected by these norms She draws on this research to recommend that states adopt a holistic approach to addressing violence against women

Twelve Weeks to Change a Life Max A. Greenberg, 2019-02-12 Hailed as a means to transform cultural norms and change lives violence prevention programs signal a slow rolling policy revolution that has reached nearly two thirds of young people in the United States today Max A Greenberg takes us inside the booming market for programming and onto the asphalt campuses of Los Angeles where these programs are implemented many just one hour a week for 12 weeks He spotlights how these ephemeral programs built on troves of risk data are disconnected from the lived experiences of the young people they were created to support Going beyond the narrow stories told about at risk youth through data and in policy Greenberg sketches a vivid portrait of young men and women coming of age and forming relationships in a world of abiding harm and fleeting fragmented support At the same time Greenberg maps the minefield of historical and structural inequalities that program facilitators must navigate to build meaningful connections with the youth they serve Taken together these programs shape the stories and politics of a generation and reveal how social policy can go wrong when it ignores the lives of young people
