Rape during Civil War Dara Kay Cohen,2016-07-13 Rape is common during wartime but even within the context of the same war some armed groups perpetrate rape on a massive scale while others never do In *Rape during Civil War* Dara Kay Cohen examines variation in the severity and perpetrators of rape using an original dataset of reported rape during all major civil wars from 1980 to 2012 Cohen also conducted extensive fieldwork including interviews with perpetrators of wartime rape in three postconflict counties finding that rape was widespread in the civil wars of the Sierra Leone and Timor Leste but was far less common during El Salvador s civil war Cohen argues that armed groups that recruit their fighters through the random abduction of strangers use rape and especially gang rape to create bonds of loyalty and trust between soldiers The statistical evidence confirms that armed groups that recruit using abduction are more likely to perpetrate rape than are groups that use voluntary methods even controlling for other confounding factors Important findings from the fieldwork across cases include that rape even when it occurs on a massive scale rarely seems to be directly ordered Instead former fighters describe participating in rape as a violent socialization practice that served to cut ties with fighters past lives and to signal their commitment to their new groups Results from the book lay the groundwork for the systematic analysis of an understudied form of civilian abuse The book will also be useful to policymakers and organizations seeking to understand and to mitigate the horrors of wartime rape *Crime And Capitalism* David Greenberg,2010-06-10 Classic and contemporary viewpoints on crime **Feminist Theory** Robin O. Andreasen,Ann E. Cudd,E. Díaz-León,2025-04-03 Bringing together influential voices and groundbreaking new essays *Feminist Theory A Philosophical Anthology* examines the key questions at the heart of feminist philosophy through a clear structure and accessible yet rigorous content This carefully curated selection

of classic and contemporary essays emphasizes the flourishing growth of feminist thought over time ranging from foundational texts by Simone de Beauvoir Judith Butler and Kimberl Crenshaw to new essays by contemporary scholars like Kate Manne Talia Mae Bettcher and Robin Dembroff This edition expands on the original with fresh scholarship and a broader range of perspectives on gender identity knowledge production and justice New essays address intersectionality gender identity the critique of ideal theory feminist critiques of traditional ethics the impact of social norms on autonomy and epistemic injustice and much more Including critiques of traditional philosophical frameworks and self reflection of feminism itself this essential collection highlights how feminist theory shapes and challenges our current understanding of society Designed for students and scholars in philosophy gender studies and social theory **Feminist Theory A Philosophical Anthology** is ideal for students taking courses in feminist philosophy and feminist theory educators in social sciences and humanities and activists and professionals seeking a nuanced understanding of feminist philosophy

Recession, Crime and Punishment Steven Box, 1987-08-21 We are often told that unemployment is no excuse for committing crimes It certainly does not follow as many in government would have use believe that crime is unrelated to social conditions Examining a mass of evidence from Great Britain the United States Canada and other industrialised countries Steven Box shows how criminal activity increased with unemployment poverty and sharpened competition between

firms He demonstrates that corporate as well as individual crime is affected by the experience of recession and that changing pressures and opportunities alter the character and distribution of deviance as well as increasing its incidence Although deterioration in material circumstances does lead to more crime however it does not alone account for the massive increase in prison populations or increasingly repressive systems of social control These developments the author argues flow more from government attempts to restructure the labour force and the natural reaction of minor state officials like judges police and probation officers to the changing logic of their situations
