Rare And Expensive Postcards I:

Postcards in the Library Norman D Stevens, 2014-01-09 Postcards individually and collectively contain a great deal of information that can be of real value to students and researchers Postcards in the Library gives compelling reasons why libraries should take a far more active and serious interest in establishing and maintaining postcard collections and in encouraging the use of these collections It explains the nature and accessibility of existing postcard collections techniques for acquiring arranging preserving and handling collections and ways to make researchers and patrons aware of these collections Postcards in the Library asserts that in most cases existing postcard collections are a vastly underutilized scholarly resource Editor Norman D Stevens urges librarians to help change this since postcards as items for mass consumption and often with no apparent conscious literary or social purpose are a true reflection of the society in which they were produced Stevens claims that messages written on postcards may also reveal a great deal about individual and or societal attitudes and ideas Chapters in Postcards in the Library are written by librarians who manage postcard collections postcard collectors and researchers Some of the authors have undertaken major research projects that demonstrate the ways in which postcards can be used in research and that have begun to establish a standard methodology for the analysis of postcards They write about major postcard collections including the Institute of Deltiology and the Curt Teich Postcard Archives the use of postcards for scholarly research postcard conservation and preservation arrangement and organization and importance and value Postcards in the Library describes the postcard collections in a variety of libraries of different kinds and sizes and indicates very real ways in which the effective use of postcard collections can result in and contribute to substantive scholarly publications It also offers advice and suggestions on the myriad issues that libraries face in handling these ephemeral fragments of popular culture Special collections librarians postcard collectors postcard dealers and historical societies will find the information in Postcards in the Library refreshing and practical Libraries with established postcard collections or those thinking about developing postcard collections will use it as a valuable planning tool and start to finish guide *Catalog of Copyright Entries. Abley, 2023-02-07 A poet and journalist looks back on a remarkable journey from Turkey to Nepal in 1978 when the region was on the brink of massive transformation In the spring of 1978 at age twenty two Mark Abley put aside his studies at Oxford and set off with a friend on a three month trek across the celebrated Hippie Trail a sprawling route between Europe and South Asia peppered with Western bohemians and vagabonds It was a time when the Shah of Iran still reigned supreme Afghanistan lay at peace and city streets from Turkey to India teemed with unrest Within a year many of the places he visited would become inaccessible to foreign travellers Drawing from the tattered notebooks he filled as a youthful wanderer Abley brings his kaleidoscope of experiences back to life with vivid detail dancing in a Turkish disco clambering across a glacier in Kashmir travelling by train among Baluchi tribesmen who smuggled kitchen appliances over international borders He also reflects on the impact of the Hippie Trail and the illusions of those who journeyed along it The lively immediacy of Abley s journals combined with the measured wisdom of his mature contemporary voice provides rich insight bringing vibrant witness and historical perspective to this beautifully written portrait of a region during a time of irrevocable change

Massengill,1997-07-01 With more than two hundred vintage postcard images Durham North Carolina captures much of what life was like in the rapidly growing city during the first half of the twentieth century This rare collection of postcards represents many aspects of Durham especially the bustling downtown district In the early 1900s Durham was a small but budding town with a population of less than seven thousand However a tremendous number of people began to pour into the city and by 1930 the population had increased to more than fifty thousand That explosion of growth was attributable in large measure to the rapid expansion of the tobacco and textile industries as well as to the endowment of nearby Trinity College 1924 by tobacco magnate James B Duke which lead to the institution s renaming as the now renowned Duke University In only a few years the town s skyline began to be transformed with the construction of modern office buildings and grand mansions **"Wish You Were Here"** Larry Freeman,1976 **Emyl Jenkins' Appraisal Book** Emyl Jenkins,1995 Emyl Jenkins takes you through your home and teaches you how to identify assess record and preserve your personal treasures She also gives step by step advice on how to evaluate insure and sell your property make photographic inventories file claims for damage and settle an estate A Postcard History of the Passenger Liner Christopher Deakes,2023-10-01 From around 1880 for almost a hundred years shipowners commissioned a wealth of paintings that depicted their magnificent liners as well as the routes they travelled their exotic destinations and life onboard These paintings rich in imagination and atmosphere appeared on postcards and posters of the day and were used to advertise the companies and their ships and so was born a whole genre that produced tens of thousands of paintings which formed a wonderful record of the great era of the passenger liner In 1900 there were over thirty shipping companies operating passenger liners across the North Atlantic Other oceans were similarly served But now with just a few exceptions the companies and their liners have disappeared along with the art they once inspired Little remains to recall this aspect of our maritime past except the postcards and they tell an evocative story of the vanished world of elegant ships and leisurely travel of social and political times much changed by the history of the past century Here brought vividly to life in more than 500 colourful postcards are the ships on which so many of our predecessors sailed as emigrants soldiers administrators or simply as tourists in days long past These cards which are now highly collectable show how steamships developed over the years but they are also a fine tribute to the artists who painted them This volume also includes a glossary of some 170 illustrators which forms an important reference section and advice on collecting *Library of Congress Catalogs* Library of Congress,1976 *You Have a Book In You* Mark Victor Hansen,2020-05-22 THE BEST
