Rasayana Ayurvedic Herbs For Longevity And Rejuvenation:

Rasayana H.S. Puri, 2003-08-29 Until relatively recently much of the information on India's research into their medicinal plants has remained within India mainly published within Indian journals. However today the field of Ayurveda is expanding with the integration of herbs and minerals discovered in other countries and the strengthening of academic knowledge networks worldwide. Focusing on Rasayana the least understood branch of Ayurveda this volume provides detailed information on the plants used in various polyherbal polymineral Rasayana preparations and describes their therapeutic benefits for numerous disorders. It is a comprehensive reference suitable for anyone involved in medicinal and aromatic plant research. *Ayurvedic Healing* Hari M. Sharma, Christopher Clark (MD.), Marc S. Micozzi, 2011-10-12 Rev ed of Contemporary Ayurveda Hari M Sharma and Christopher S Clark 1998 **Evidence-Based Practice in Complementary and Alternative Medicine** Sanjeev Rastogi, 2012-01-30 This book investigates the ways in which the evidence base is influencing complementary and alternative medicine in general and Ayurveda and allied health practices in particular. The latter have traditionally been prevalent in Asia and are now increasingly attracting interest worldwide. The book is divided into four sections the first of which examines issues related to acquisition and evaluation of the evidence base. Evidence based approaches to Ayurvedic diagnosis and therapy are then examined with a special focus on management of cardiovascular and rheumatological diseases dental care and rejuvenating treatments. The final section explores further the challenges of applying evidence based practice in contemporary and alternative medicine and Ayurveda with a focus upon the issues requiring urgent attention in ongoing decade. The same involves encompassing areas such as Ayurvedic pharmaceuticals practice education and research within an evidence based perspective. *Medicinal and Aromatic Plants of India, Vol. 3* Ákos Máthé, Irfan Ali Khan, 2024-12-13 This book is the 11th volume of the popular series Medicinal and Aromatic Plants of the World. It is a comprehensive compilation of 30 chapters on selected important species representative of India's rich and diverse flora. This collection provides current scientific information highlighting the traditional contemporary and prospective uses of both well known and lesser known plant species. The volume serves as a bridge between traditional knowledge and modern scientific advancements providing a critical analysis of this broad interdisciplinary field with a particular focus on India. The chapters cover topics such as the pharmacological properties biochemical composition and therapeutic applications of these plants. Readers will find contributions by renowned scholars who delve into the innovative product development stemming from the ancient medicinal plant systems. Particular attention is given to how these plants can contribute to health and wellness in the era of global climate change and pandemics. This book invites readers to face critical questions about the survival and utilization of medicinal and aromatic plants in India. Researchers scholars and practitioners in fields of botany pharmacology and traditional medicine will find this volume invaluable.
