## **Ratification Of The Single European Act:**

The Politics of Ratification of EU Treaties Carlos Closa, 2013-09-02 Since its inception the European Union EU has revised its foundational treaties several times resulting in national ratification processes involving different actors with varying success This book focuses on the politics of ratification of EU Treaties and reviews the processes of ratification of EU primary legislation Existing research and academic debate on EU constitutional politics have almost exclusively focussed on negotiation of new treaties and their institutional setting However this book explains how the result of ratification was achieved and analyses the strategy that actors pursue across Europe Ratification of the Treaty of Maastricht and the EU Constitution failed totally whilst other ratification can be considered partial failures such as the Irish Nice and Lisbon referendums As the EU Constitution has proved the ratification process may have deep effects unforeseen during the processes of negotiation In recent years ratification has produced some of the most intense debates on national membership of the EU and the EU itself The Politics of Ratification of EU Treaties will be of interest to students and researchers of European Studies European Union studies European Union Law and European Union Politics      **Constitutional Law of Ireland** Michael Forde, David Leonard, 2016-10-14 Originally written for the fiftieth anniversary of the Constitution of Ireland this book is an account of how the Constitution's requirements have been implemented by the legislature and interpreted by the courts In this way it provides an integrated and contextual account of constitutional law in Ireland It goes as far as to place it in context of some foreign constitutions especially the Constitutions of the United States France Germany and the United Kingdom as indeed the Irish courts refer frequently to other countries for guidance in interpreting the Constitution The book largely falls into four parts The first few chapters are introductory and cover the drafting and adoption of the Constitution some features of the State and its citizens and the judicial review of laws The next few chapters deal with the various institutions of government and with the activities of the State in the international arena and in relation to fiscal matters Then following on from this there are a number of chapters which consider what may be termed the various civil liberties and rights There is a final brief section towards the end of the book which deals with the various legal breaches of the Constitution This new edition has been extensively rewritten to account for the enormous to take into account the tumultuous changes in Irish Constitutional Law in the intervening years Challenges to articles referenda new legislation and cases are all judicially considered Michael Forde and David Leonard offer the reader everything they need to know on this complex subject      The Ratification of the Maastricht Treaty Finn Laursen, Sophie Vanhoonacker, 2023-08-28      **Les Mutations de L'Etat-nation en Europe À L'aube Du XXIe Siècle** Université de Nancy II. Institut de recherches sur l'évolution de la nation et de l'Etat en Europe, European Commission for Democracy through Law, 1998-01-01 On cover title page European Commission for Democracy through Law      *Ratification of the Single European Act* Commission of the European Communities, European Communities Staff, 1993-05      **Ireland, Colonialism, and the Unfinished Revolution**

Robbie McVeigh, Bill Rolston, 2023-11-14 A groundbreaking examination of the colonial legacy and future of Ireland showing how Ireland's story is linked to and informs anti imperialism around the world Colonialism is at the heart of making sense of Irish history and contemporary politics across the island of Ireland And as Robbie McVeigh and Bill Rolston argue Ireland's experience is central to understanding the history of colonization and anti colonial politics throughout the world Part history part analysis Ireland Colonialism and the Unfinished Revolution charts the centuries of Irish colonial history from England's proto imperial engagement with Ireland in 1155 to the Union in 1801 and the subsequent struggles for Irish independence and the legacies of partition from 1921 A century later the plate tectonics of Irishness are shifting once again The Union is in crisis and alternatives to partition are being seriously considered outside the Republican tradition for the first time in generations These significant structural changes suggest that the coming times might finally see the completion of the decolonization project the finishing of the revolution In the words of the revolutionary Pdraig Pearse Anois ar theacht an tSamhraidh now the summer is coming

*The Europeanization of Domestic Legislatures* Sylvain Brouard, Olivier Costa, Thomas König, 2011-12-09 In ten years 80 per cent of the legislation related to economics maybe also to taxes and social affairs will be of Community origin This declaration has been largely quoted paraphrased and deformed by different authors creating a persistent myth according to which 80% of the legislative activity of the national legislatures would soon be reduced to the simple transposition of European norms This book addresses the topic of the scope and impact of Europeanization on national legislation as a part of the Europeanization debate which raises normative concerns linked to the democratic deficit debate The state of the art shows that there are many assumptions and claims on how European integration may affect national legislation and more generally domestic governance but that there is a lack of solid and comparative data to test them The aim of the book is to give a solid and comparative insight into Europeanization focusing on effective outcomes in a systematic way This book analyzes the period 1986-2008 and includes an introduction a global overview of European legislative activities which set the background for Europeanization of national legislatures 9 country contributions 8 EU member states Switzerland including systematic comparative and standardized data tables and figures and a conclusion with a comparative analysis of the European and domestic reasons for Europeanization All national contributions conclude that Europeanization of national legislation is much more limited than assumed in the literature and public debate It is limited to 10 to 30% of laws depending on the country far less than the 80% predicted by Jacques Delors and mentioned daily by medias and public opinion leaders to demonstrate EU domination on member states Beside that general statement the various chapters propose a deep insight on EU constraint over national legislation providing much information on the kind of laws and policies that are Europeanized the evolution of this process through time the impact of Europeanization on the balance of powers and the relations between majority and opposition at national level the strategies developed by national institutions in that context and many other issues making the book of interest to academics and policy

**Constitutionalism** Dieter Grimm, 2016 Constitutionalism Past Present and Future will offer a definitive collection of

Professor Dieter Grimm's most important scholarly writings on constitutional thought and interpretation. The essays included in this volume explore the conditions under which the modern constitution could emerge; they treat the characteristics that must be given if the constitution may be called an achievement; the appropriate way to understand and interpret constitutional law under current conditions; the function of judicial review; the remaining role of national constitutions in a changing world as well as the possibility of supra-national constitutionalism. Many of these essays have influenced the German and European discussion on constitutionalism and for the first time much of the work of one of Germany's leading scholars of public law will be available in the English language.

**Authoritarian Liberalism and the Transformation of Modern Europe** Michael A. Wilkinson, 2021. Oxford Constitutional Theory has rapidly established itself as the primary point of reference for theoretical reflections on the growing interest in constitutions and constitutional law in domestic, regional and global contexts. The majority of the works published in the series are monographs that advance new understandings of their subject. But the series aims to provide a forum for further innovation in the field by also including well-conceived edited collections that bring a variety of perspectives and disciplinary approaches to bear on specific themes in constitutional thought and by publishing English translations of leading monographs in constitutional theory that have originally been written in languages other than English.

**The European Union's 2007 Enlargement** Cristina Chiva, David Phinnemore, 2014-07-10. This book fills a significant gap in recent literature on European Union politics by examining the EU's other eastern enlargement completed in 2007 with the accession of Bulgaria and Romania. It focuses on both the process and the effects of the 2007 enlargement within the wider context of the post-communist countries' accession to the EU and more broadly within the context of the history of EU enlargement. The book brings together in-depth analyses of a wide range of issues both from a comparative perspective and through single case studies. Individual contributions shed new light onto EU enlargement through a theoretical re-evaluation of the strategic action paradigm as well as through historical analyses of the 2007 enlargement and of its implications for future EU enlargements. Further insight into the process of EU enlargement is gained through systematic exploration of the impact of accession on policy-making and institutional structures in Bulgaria and Romania. Altogether the contributions exemplify the multi-faceted nature of EU enlargement and accession as well as the extent to which the process of acceding to the EU is not completed with membership either for the EU or for the candidate countries. This book was published as a special issue of *Perspectives on European Politics and Society*.
