NGOs and Human Rights Charity Butcher, Maia Carter Hallward, 2021-06-15 This study examines and compares the important work on global human rights advocacy done by religious NGOs and by secular NGOs By studying the similarities in how such organizations understand their work we can better consider not only how religious and secular NGOs might complement each other but also how they might collaborate and cooperate in the advancement of human rights However little research has attempted to compare these types of NGOs and their approaches NGOs and Human Rights explores this comparison and identifies the key areas of overlap and divergence In so doing it lays the groundwork for better understanding how to capitalize on the strengths of religious groups especially in addressing the world s many human rights challenges This book uses a new dataset of more than three hundred organizations affiliated with the United Nations Human Rights Council to compare the extent to which religious and secular NGOs differ in their framing discussion and operationalization of human rights work Using both quantitative analysis of the extensive data collected by the authors and forty seven in depth interviews conducted with members of human rights organizations in the sample Charity Butcher and Maia Carter Hallward analyze these organizations approaches to questions of culture development women s rights children s rights and issues of peace and conflict

Unmaking Russia's Abortion Culture Michele Rivkin-Fish, 2024-11-25 As the predominant form of birth control in Soviet society abortion reflected key paradoxes of state socialism women held formal equality but lacked basic needs such as contraceptives With market reforms Russians enjoyed new access to Western contraceptives and new pressures to postpone childbearing until economically self sufficient But habits of family planning did not emerge automatically they required extensive physician retraining public education and cultural transformation In Unmaking Russia s Abortion Culture author Michele Rivkin Fish examines the creative strategies

of Russians who promoted family planning in place of routine abortion. Rather than emphasizing individual rights, they explained family planning's benefits to the nation: its potential to strengthen families and prevent the secondary sterility that resulted when women underwent repeat, poor-quality abortions. Still, fierce debates about abortion and contraceptives erupted as declining fertility was framed as threatening Russia's demographic sovereignty. Although Russian family planners embraced a culturally meaningful liberalism that would rationalize public policy and reenchant relations, nationalist opponents cast family planning as suspicious for its association with the individualistic, child-free West. This book tells the story of how Russian family planners developed culturally salient frameworks to promote the acceptability of contraceptives and help end routine abortion. It also documents how nationalist campaigns for higher fertility denounced family planning and ultimately dismantled its institutions. By tracing these processes, *Unmaking Russia's Abortion Culture* demonstrates the central importance of reproductive politics in the struggle for liberalizing social change that preceded Russia's 2022 descent into war, repression, and global marginalization.
