Rising from the Ruins Garth Gillan,1998 Rising from the Ruins is an assessment of reason being and the good in a world fractured by the passage of the Shoah or Holocaust The historical character of evil that appeared in the Shoah damaged the relationship of human existence to being creating a time when the confidence of reason to possess the truth no longer exists Rising from the Ruins relocates the relationships among being reason and the good in terms of a metaphysics ethics and politics that derive from faith and heteronomy Rather than another attempt to document the horror of the Shoah this book chronicles what the world is like for those who have read and listened to previous accounts Rising from the Ruins doesn't celebrate surviving the Holocaust instead it speaks of a rationality that sees truth and the good through the eyes of suffering and the silence of death Such a rationality Gillan suggests looks more like faith and it takes its place among the sweat and tears of common men and women who are dedicated to building a human city populated with children the poor the sick and the aged

Adorno on Politics after Auschwitz Gary A. Mullen,2015-12-30 In the minds of many critical theorists Theodor W Adorno epitomizes the failure of critical theory to

provide any concrete guidance for political practice His name is almost synonymous with the retreat of the progressive intellectual from the creeping totalitarianism of contemporary mass democracy This book endeavors to disrupt this misconception by offering a close reading of Adorno s philosophical confrontation with the Holocaust and the modern conceptions of history morality and subjectivity that are complicit in genocide By rethinking the relationship between reason and remembrance morality and materiality mimesis and political violence Adorno s work offers not only incisive criticism of modern political ideas and institutions it also shows us intimations of a different political practice

The relations between memory and history have recently become a subject of contention and the implications of that debate are particularly troubling for aesthetic ethical and political issues Dominick LaCapra focuses on the interactions among history memory and ethicopolitical concerns as they emerge in the aftermath of the Shoah Particularly notable are his analyses of Albert Camus's novella *The Fall* Claude Lanzmann's film *Shoah* and Art Spiegelman's comic book *Maus* LaCapra also considers the Historians Debate in the aftermath of German reunification and the role of psychoanalysis in historical understanding and critical theory In six essays LaCapra addresses a series of related questions Are there experiences whose traumatic nature blocks understanding and disrupts memory while producing belated effects that have an impact on attempts to address the past Do some events present moral and representational issues even for groups or individuals not directly involved in them Do those more directly involved have special responsibilities to the past and the way it is remembered in the present Can or should historiography define itself in a purely scholarly and professional way that distances it from public memory and its ethical implications Does art itself have a special responsibility with respect to traumatic events that remain invested with value and emotion
