An American Pioneer of Chinese Studies in Cross-Cultural Perspective Man Shun Yeung, 2021-10-05 Benjamin Bowen Carter 1771 1831 one of the first Americans to speak and read Chinese studied Chinese in Canton and advocated its use in diplomacy decades before America established a formal relationship with China Drawing on rediscovered manuscripts this book reconstructs Carter s multilingual learning experience reveals how he helped translate a diplomatic document into Chinese describes his interactions with European sinologists and traces his attempts to convince the US government and American academics of the practical and cultural value of Chinese studies The cross cultural perspective employed in this book emphasizes the reciprocal dynamics of Carter s relationships with Chinese and European others while Carter s story itself forces a rewriting of the earliest years of US China relations Flesh and Word Sarah Künzler, 2016-08-22 Bodies and their role in cultural discourse have been a constant focus in the humanities and social sciences in recent years but comparatively few studies exist about Old Norse Icelandic or early Irish literature This study aims to redress this imbalance and presents carefully contextualised close readings of medieval texts The chapters focus on the role of bodies in mediality discourse in various contexts that of identity in relation to ideas about self and other of inscribed and marked skin and of natural bodily matters such as defecation urination and menstruation By carefully discussing the sources in their cultural contexts it becomes apparent that medieval Scandinavian and early Irish texts present their very own ideas about bodies and their role in structuring the narrated worlds of the texts The study presents one of the first systematic examinations of bodies in these two literary traditions in terms of body criticism and emphasises the ingenuity and complexity of medieval texts

Premodern Sexualities Louise Fradenburg, Carla Freccero, 2013-12-02 Premodern Sexualities offers rigorous new approaches to current problems in the historiography of sexuality From queer readings of early modern medical texts to transcribing and interrogating premodern documents of sexual transgression the contributors bring together current theoretical discourses on sexuality while emphasizing problems in the historicist interpretation of early textualizations of sexuality Premodern Sexualities clarifies the contributions literary studies can make through its emphasis on reading strategies to the historiography of sexuality *Mary Magdalene and the Drama of Saints* Theresa Coletti, 2013-11-15 A sinner saint who embraced then renounced sexual and worldly pleasures a woman who through her attachment to Jesus embodied both erotic and sacred power a symbol of penance and an exemplar of contemplative and passionate devotion perhaps no figure stood closer to the center of late medieval debates about the sources of spiritual authority and women s contribution to salvation history than did Mary Magdalene and perhaps nowhere in later medieval England was cultural preoccupation with the Magdalene stronger than in fifteenth century East Anglia Looking to East Anglian texts including the N Town Plays The Book of Margery Kempe The Revelations of Julian of Norwich and Bokenham s Legend of Holy Women Theresa Coletti explores how the gendered symbol of Mary Magdalene mediates tensions between masculine and feminine

spiritual power institutional and individual modes of religious expression and authorized and unauthorized forms of revelation and sacred speech Using the Digby play *Mary Magdalene* as her touchstone Coletti engages a wide variety of textual and visual resources to make evident the discursive and material ties of East Anglian dramatic texts and feminine religion to broader traditions of cultural commentary and representation In bringing the disciplinary perspectives of literary history and criticism gender studies and social and religious history to bear on specific local instances of dramatic practice *Mary Magdalene and the Drama of Saints* highlights the relevance of Middle English dramatic discourse to the dynamic religious climate of late medieval England In doing so the book decisively challenges the marginalization of drama within medieval English studies elucidates vernacular theater's kinship with influential late medieval religious texts and institutions and articulates the changing possibilities for sacred representation in the decades before the Reformation

Queer Faith Melissa E. Sanchez, 2019-08-20 Honorable Mention 2020 Aldo and Jeanne Scaglione Prize given by the Modern Language Association Uncovers the queer logics of premodern religious and secular texts Putting premodern theology and poetry in dialogue with contemporary theory and politics Queer Faith reassess the commonplace view that a modern veneration of sexual monogamy and fidelity finds its roots in Protestant thought What if this narrative of history and tradition suppresses the queerness of its own foundational texts Queer Faith examines key works of the prehistory of monogamy from Paul to Luther Petrarch to Shakespeare to show that writing assumed to promote fidelity in fact articulates the affordances of promiscuity both in its sexual sense and in its larger designation of all that is impure and disorderly At the same time Melissa E Sanchez resists casting promiscuity as the ethical queer alternative to monogamy tracing instead how ideals of sexual liberation are themselves attached to nascent racial and economic hierarchies Because discourses of fidelity and freedom are also discourses on racial and sexual positionality excavating the complex historical entanglement of faith race and eroticism is urgent to contemporary queer debates about normativity agency and relationality Deliberately unfaithful to disciplinary norms and national boundaries this book assembles new conceptual frameworks at the juncture of secular and religious thought political and aesthetic form It thereby enlarges the contexts objects and authorized genealogies of queer scholarship Retracing a history that did not have to be Sanchez recovers writing that inscribes radical queer insights at the premodern foundations of conservative and heteronormative culture

Sovereignty, State Failure and Human Rights Neil Englehart, 2017-05-08 This book argues that the effectiveness of the state apparatus is one of the crucial variables determining human rights conditions and that state weakness and failure is responsible for much of the human rights abuses we see today Weak states are unable to control their own agents or to police abuses by private actors resulting in less accountability and more abuse By contrast stronger states have greater capacities to protect human rights even strong authoritarian states tend to have better human rights conditions than weak ones The first two chapters of the book develop the theoretical connections between international law sovereignty states and rights and the consequences of state failure for these relationships The empirical chapters Chapters 3-6 test the validity of these theoretical claims employing a multi method approach that combines quantitative and qualitative methods Englehart uses case studies of Afghanistan Burma Myanmar and the Indian state of Bihar to analyze types and patterns of state failure based on analysis of NGO reports archival research primary and secondary texts and interviews and field research Examining what happens to human rights when states fail the book concludes with implications for scholars and activists concerned with human rights This book will be of great use to scholars of international relations comparative politics human rights law and state sovereignty

Feminism Seduced Hester Eisenstein, 2015-12-03 In a pioneering reinterpretation of the role of mainstream feminism

Eisenstein shows how the ruling elites of developed countries utilize women's labor and the ideas of women's liberation and empowerment to maintain their economic and political power both at home and abroad. Her explorations range from the abolition of welfare as we know it and the ending of the family wage in the United States to the creation of export processing zones in the global South that depend on women's nimble fingers and from the championing of microcredit as a path to women's empowerment in the global South to the claim of women's presumed liberation in the West as an ideological weapon in the war on terrorism. Eisenstein challenges activists and intellectuals to recognize that international feminism is at a fateful crossroads and argues that it is crucial for feminists to throw in their lot with the progressive forces that are seeking alternatives to globalized corporate capitalism.

Imagining a Medieval English Nation Kathy Lavezzo, 2004 The first comprehensive analysis of English national identity in the late Middle Ages. During the late Middle Ages the increasing expansion of administrative, legal and military systems by a central government together with the greater involvement of the commons in national life brought England closer than ever to political nationhood. Examining a diverse array of texts ranging from Latin and vernacular historiography to Lollard tracts, Ricardian poetry and chivalric treatises, this volume reveals the variety of forms England assumed when it was imagined in the medieval West. These essays disrupt conventional thinking about the relationship between premodernity and modernity, challenge traditional preconceptions regarding the origins of the nation and complicate theories about the workings of nationalism. *Imagining a Medieval English Nation* is not only a collection of new readings of major canonical works by leading medievalists, it is among the first book-length analyses on the subject and of critical interest.
