Rubians Beyond Rubias Borders:

Caribbean Without Borders Gabriel J. Jiménez Fuentes, Gabriel Mejía González, Marisol Joseph Haynes, 2015-09-04 One of the most salient issues in Caribbean studies is the region's linguistic and cultural fragmentation as a result of European colonization. More than five centuries later, the islands and American countries whose shores touch the Caribbean Sea still echo such maladies. The title of this book is a call towards unity, a unity that in the words of Barbadian poet, historian, and critic Kamau Brathwaite is submarine. In the past, nations' borders were established based on the distance a cannon ball was able to cover when fired from land out to sea. It is time to go beyond the cannon ball distances out into uncharted territories beyond the canon and thus beyond the cannon's range. This book features a selection of essays presented at the fifth annual Caribbean Without Borders conference at the University of Puerto Rico, Río Piedras. It critically delves into the fields of linguistics, history, literature, philosophy, politics, feminism, cultural studies, music, film, and art among many others as a means to re-visit, re-view, re-envision, re-read, re-interpret, and thus re-create a Caribbean aesthetics that looks to submarine unity, a unity that defies spatial, temporal, and social borders. The book conveys the limitless nature of the Caribbean and its rich culture, making it an appealing transdisciplinary source for a multidisciplinary academic audience. The Conservation of

Cave 85 at the Mogao Grottoes, Dunhuang Neville Agnew, Lori Wong, 2014-02-01 The Mogao Grottoes, a World Heritage Site in northwestern China, are located along the ancient caravan routes collectively known as the Silk Road that once linked China with the West. Founded by a Buddhist monk in the late fourth century, Mogao flourished over the following millennium as monks, local rulers, and travelers commissioned hundreds of cave temples cut into a mile-long rock cliff and adorned them with vibrant murals. More than 490 decorated grottoes remain, containing thousands of sculptures and some 45,000 square meters of wall paintings, making Mogao one of the world's most significant sites of Buddhist art. In 1997, the Getty Conservation Institute, which had been working with the Dunhuang Academy since 1989, began a case study using the Late Tang dynasty Cave 85 to develop a methodology that would stabilize the deteriorating wall paintings. This abundantly illustrated volume is the definitive report on the project, which was completed in 2010. **Handbook of the British Flora**
