Stopper la ruée vers l'Europe Pierre-Jules ZING TSALA, 2018-05-25T00:00:00Z. En soixante ans, l'économie du développement n'a pas produit les résultats escomptés en Afrique subsaharienne. Si l'on impute généralement cet échec au néocolonialisme voire aux populations africaines elles-mêmes, Pierre-Jules ZING TSALA nous propose une analyse plus fine du retard de développement de l'Afrique. Les véritables freins au développement résident selon l'auteur essentiellement dans les vides institutionnels, la persistance de l'idéologie néolibérale, le manque de confiance entre les individus et par-dessus tout, dans l'absence d'un esprit de bien commun. En effet, comment envisager par exemple la protection de l'environnement comme une priorité si la notion de bien commun n'est pas ancrée dans les mentalités ? Comment bâtir des pays solides et prospères si la confiance disparaît totalement des relations humaines ? S'appuyant sur des exemples de développement réussis, l'auteur démontre que les progrès sont possibles. Face à l'urgence migratoire, il apparaît nécessaire d'apporter des solutions concrètes pour le développement de l'Afrique subsaharienne, commencer par la émergence d'un gouvernement basé sur l'esprit de bien collectif.

Economics as Rhetoric Anne Isla, 2024-07-26

Bernard Maris was killed in Paris on January 7 2015 during the terrorist attack against the satirical magazine Charlie Hebdo. He remains one of the most original intellectuals of contemporary France but despite being a uniquely original heterodox thinker his international reputation has been compromised by the fact that his writings are inaccessible to non-French speakers. This book remedies that. By providing an overview of Bernard Maris' life and intellectual trajectory as well as an English translation of an anthology of his most relevant writings, this volume provides the international audience for the first time ever the chance to

know and understand the contribution of this major heterodox economist An outstanding and atypical figure in economic thought and a virulent critic of mainstream dominant economics he was also an all round actor and thinker of his time Through rigorous reasoning he questioned the notion of well being which he argued is too often conflated with having more Enslavement by work or the endless destructive accumulation of natural wealth is also inherent to the capitalist system Probably his most original contribution is his epistemological reflection on the very nature of economics and his appraisal of this discipline as a form of rhetoric This book will be of great interest to readers in heterodox economics economic methodology epistemology and French literature and culture more broadly
