Usitalo, William Benton Whisenhunt, 2008-01-28 An original and thought provoking text Russian and Soviet History uses noteworthy themes and important events from Russian history to spark classroom discussion Consisting of twenty essays written by experts in each area the book does not simply repeat the conventional themes found in nearly all Russian history texts anthologies and documentary compilations Rather it showcases current thinking on Russian cultural political economic and social history from the end of the sixteenth century to the demise of the Soviet experiment Informed by archival work in the former Soviet Union and a broad range of published sources this book is intended to introduce students to Russian history in an accessible and provocative format Its eclectic essays offer readers an incomparable taste of the complexity and richness of Russia as it has evolved from late Muscovy to the modern era This text is perfect for undergraduate and graduate students in Russian history and is a great resource for scholars in the field Contributions by Sergei Arutiunov Richard Bidlack Kees Boterbloem James Cracraft Chester S L Dunning Colum Leckey Alexander M Martin Susan P McCaffray Martha Merritt Patrick O Meara Scott W Palmer Jelena Pogosjan Thomas E Porter Ana Siljak Douglas Smith William Taubman Steven A Usitalo Jeffrey Veidlinger Rex A Wade and William Benton Whisenhunt **The Russian Nobility in the Age of Alexander I** Patrick O'Meara, 2019-05-30 The reign of Alexander I was a pivotal moment in the construction of Russia's national mythology This work examines this crucial period focusing on the place of the Russian nobility in relation to their ruler and the accompanying debate between reform and the status quo between a Russia old and new and between different visions of what Russia could become Drawing on extensive archival research and placing a long neglected emphasis on this aspect of Alexander I's reign this book is an important work for students and scholars of imperial Russia as well as the wider Napoleonic and post Napoleonic period in Europe Regime and Society in Twentieth-Century Russia Ian D. Thatcher, 2016-07-27 This book contains fresh approaches to the interaction between regime and society in twentieth century Russia It offers new answers to familiar questions How useful is totalitarianism as a model to categorise authoritarian regimes What chances existed for tsarism to establish itself as a constitutional monarchy Were Trotsky and Lenin dictators in waiting How did the Bolsheviks make the Lenin cult What opposition did intellectuals offer in the Soviet

regime What is the nature of contemporary Russian constitutionalism It is required reading for historians political scientists sociologists and everyone interested in modern Russia Historical Dictionary of the Russo-Japanese War Rotem

Kowner,2017-04-06 The Russo Japanese War was fought for 19 months 8 February 1904 5 September 1905 between the empires of Japan and the Russia over the southern part of Manchuria and the Korean Peninsula While essentially a colonial conflict the war became a major engagement both in scale and innovation unseen until then In recent years there has been a growing awareness that this event marks a historical juncture far more important than it was usually taken to be This second edition of the Historical Dictionary of the Russo Japanese War offers a major revision of the highly praised first edition which by all accounts has been the standard work on this conflict in any language during the last decade The book contains a chronology an introduction appendixes and an extensive bibliography Moreover the dictionary section has some 800 new or fully revised cross referenced entries on the battles weaponry and major personalities of the war as well as various international events and conflicts agreements schemes and projects that led to the war This book is an excellent resource for students researchers and anyone wanting to know more about the Russo Japanese War *The A to Z of the Russo-Japanese War* Rotem

Kowner,2009-08-20 Every war leaves an imprint in history but few have had such a pervasive impact in so many respects as the Russo Japanese War of 1904 1905 Politically it fatally weakened the Russian Empire while allowing Japan to follow more dangerous paths Diplomatically it shook the power balance in Europe and reshaped it in the form of two coalitions leading to World War I With regard to the art of warfare it emphasized the use of trench warfare and machine guns on land and the deployment of battleships and the use of torpedoes at sea Yet despite its importance at the time it has become very much a forgotten war The A to Z of the Russo Japanese War provides considerable breadth and depth of coverage based on Japanese Russian and Western sources The breadth is accomplished through a wide ranging introduction a detailed chronology and an extensive bibliography The depth comes in the hundreds of entries on military and political leaders major battles and lesser encounters tactics and strategy as well as the weaponry and of course the causes and consequences The result is the first major reference work on the Russo Japanese War in English and the largest in any language

The Dictators: Hitler's Germany, Stalin's Russia Richard Overy,2006-01-17 A book of great importance it surpasses all others in breadth and depth Commentary If the past century will be remembered for its tragic pairing of civilized achievement and organized destruction at the heart of darkness may be found Hitler Stalin and the systems of domination they forged Their lethal regimes murdered millions and fought a massive deadly war Yet their dictatorships took shape within formal constitutional structures and drew the support of the German and Russian people In the first major historical work to analyze the two dictatorships together in depth Richard Overy gives us an absorbing study of Hitler and Stalin ranging from their private and public selves their ascents to power and consolidation of absolute rule to their waging of massive war and creation of far flung empires of camps and prisons The Nazi extermination camps and the vast Soviet

Gulag represent the two dictatorships in their most inhuman form. Overy shows us the human and historical roots of these evils. *A History Of Russia Volume 2* Walter G. Moss, 2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects. He has also brought the history up to date by revising the post Soviet material which now covers events from the end of 1991 up to the present day.
