## **Rulers Of Ancient Europe:**

**Rulers and Rulership in the Arc of Medieval Europe, 1000-1200** Christian Raffenberger, 2023-08-24 Rulers and Rulership in the Arc of Medieval Europe challenges the dominant paradigm of what rulership is and who rulers are by decentering the narrative and providing a broad swath of examples from throughout medieval Europe Within that territory the prevalent idea of monarchy and kingship is overturned in favor of a broad definition of rulership This book will demonstrate to the reader that the way in which medieval Europe has been constructed in both the popular and scholarly imaginations is incorrect Instead of a king we have multiple rulers male and female ruling concurrently Instead of an independent church or a church striving for supremacy under the Gregorian Reform we have a pope and ecclesiastical leaders making deals with secular rulers and an in depth interconnection between the two Finally instead of a strong centralizing polity growing into statehood we see weak rulers working hand in glove with weak subordinates to make the polity as a whole function Medievalists Byzantinists and Slavists typically operate in isolation from one another They do not read each other's books or engage with each other's work This book requires engagement from all of them to point out that the medieval Europe that they work in is one and the same and demands collaboration to best understand it **First Kings of Europe** Attila Gyucha, William A. Parkinson, 2022 This book is a copublication of The Cotsen Institute of Archaeology and The Field Museum Copyright page **War and State Formation in Ancient China and Early Modern Europe** Victoria Tin-bor Hui, 2005-07-04 The Eurocentric conventional wisdom holds that the West is unique in having a multi state system in international relations and liberal democracy in state society relations At the same time the Sinocentric perspective believes that China is destined to have authoritarian rule under a unified empire In fact China in the Spring and Autumn and Warring States periods 656-221 BC was once a system of sovereign territorial states similar to Europe in the early modern period Both cases witnessed the prevalence of war formation of alliances development of the centralized bureaucracy emergence of citizenship rights and expansion of international trade This book first published in 2005 examines why China and Europe shared similar processes but experienced opposite outcomes This historical comparison of China and Europe challenges the presumption that Europe was destined to enjoy checks and balances while China was preordained to suffer under a coercive universal status *Ancient Europe* Stuart Piggott, Honour of Kings Ancient and American History Book 2 FULL COLOR TEXT Ellen Gerwitz, 2014-08-17 This FULL COLOR textbook is based on the premise that God created the world approximately 6 000 years ago It takes key events from both the Bible and world history and places them into a single time line Great care is taken to separate fact from myth so that students can clearly understand how history unfolded from 1 000 BC to 1 BC Photographs throughout the text enhance the student's learning After completing the ancient history section students will embark on a journey through an American history time line beginning with the Declaration of Independence in 1776 and ending in 1850 Multi level Non consumable Chronological time line Biblical world view Integrates both Bible and

world history American History time line Hands on learning activities Encourages understanding of overall historical time line Covers the history of all continents      **Kingdoms of Europe** Gene Gurney,1982 An encyclopedia of European kings and queens from ancient times to the 20th century      **The Handbook of Religions in Ancient Europe** Lisbeth Bredholt Christensen,Olav Hammer,David Warburton,2014-09-11 The Handbook of Religions in Ancient Europe surveys the major religious currents of Europe before Christianity the first continental religion with hegemonic ambition wiped out most local religions The evidence whether archaeological or written is notoriously difficult to interpret and the variety of religions documented by the sources and the range of languages used are bewildering The Handbook brings together leading authorities on pre Christian religious history to provide a state of the art survey The first section of the book covers the Prehistoric period from the Paleolithic to the Bronze Age The second section covers the period since writing systems began Ranging across the Mediterranean and Northern Celtic and Slavic Europe the essays assess the archaeological and textual evidence Dispersed archaeological remains and biased outside sources constitute our main sources of information so the complex task of interpreting these traces is explained for each case The Handbook also aims to highlight the plurality of religion in ancient Europe the many ways in which it is expressed notably in discourse action organization and material culture how it is produced and maintained by different people with different interests how communities always connect with or disassociate from adjunct communities and how their beliefs and rituals are shaped by these relationships The Handbook will be invaluable to anyone interested in ancient History and also to scholars and students of Religion Anthropology Archaeology and Classical Studies      *The Rise of Female Kings in Europe, 1300-1800* William Monter,2012-01-24 In this lively and pathbreaking book William Monter sketches Europe's increasing acceptance of autonomous female rulers between the late Middle Ages and the French Revolution Monter surveys the governmental records of Europe's thirty women monarchs the famous Mary Stuart Elizabeth I Catherine the Great as well as the obscure Charlotte of Cyprus Isabel Clara Eugenia of the Netherlands describing how each of them achieved sovereign authority wielded it and more often than men abandoned it Monter argues that Europe's female kings who ruled by divine right experienced no significant political opposition despite their gender      **A History of European Peoples** Clarence Perkins,1927      *Cambridge Economic History of Europe* M. M. Postan,E Miller,1987 Annotation The second volume of The Cambridge Economic History of Europe first published in 1952 was a survey by an international group of specialist scholars covering trade and industry in pre Roman Roman and Byzantine Europe the medieval trade of northern and southern Europe and the histories of medieval woollen manufacture mining and metallurgy and building in stone This second edition in addition to revising most chapters and the bibliographies appended to them also fills gaps which arose from the wartime and post war circumstances in which the first edition was written New chapters provide accounts of the trade and industry of eastern Europe of medieval Europe's trade with Asia and Africa and of medieval coinage and currency Taken with volumes I and III of the series this volume is

designed to complete a comprehensive review of the economic history of medieval Europe as a whole It was planned by the late Sir Michael Postan and was largely completed under his editorship

**Kings and Their Sons in Early Modern Europe** Mark Konnert, 2018-12-01 Some of history's greatest dramas have unfolded in the stories of kings and their sons in early modern Europe and their conflicts presaged in some ways today's tensions in family run businesses In several notorious cases the kings despised their sons to the point of committing murder thus killing their own heirs Prof Konnert shows that these tragic dramas actually represent an extreme of the normal state of affairs rather than unusual occurrences They are different in degree not kind This book is the first to look at these episodes in a systematic and comparative fashion The stories are moving in themselves but viewed in their historical context they illuminate aspects of a past society which has faded from view in the 21st century Two of the most famous episodes those of Frederick the Great of Prussia and his father and of Peter the Great of Russia and his son are examined here as well as three less well known cases These episodes are put into historical context and the family dynamics of these royal dynasties are discussed showing not only how they differed from those of today but also from those of their more common contemporaries These tensions are also compared to those that have emerged in family run businesses where conflicts between fathers and sons are also very common Furthermore when the interests of the dynastic enterprise whether political or corporate take precedence over family life and personal happiness marriage practices can produce particularly toxic relations The cases examined here are unusual only in the degree of hostility rather than in its existence **Beacon**
