Ruling Passions:

Sebastian, Or, Ruling Passions Lawrence Durrell, 1983 With Europe reduced to rubble after the Second World War Constance must seek knowledge beyond the modern in order to heal her patients and herself In Durrell's fourth installment of the Avignon Quintet Constance returns to Europe after the end of World War II A Freudian analyst she treats the shell shocked the battle fatigued and other despairing survivors in Geneva She also treats the traumatized autistic son of her former lover Sebastian a situation that draws her back into the mysterious cult that the sensitive and charismatic Sebastian led in the deserts of Egypt In Sebastian Constance's pursuit of wisdom in the midst of Europe's blackest night is rendered as a gorgeous and heartbreaking quest for truth in a world full of illusion Ruling Passions Simon Blackburn, 2023 Written in a trenchant style Ruling Passions propounds an original philosophy of human motivation and morality It uses game theory and cognitive science to illuminate ethics and exposes the pretensions of rival theories **The Spiritually Healthy Leader** Dave Wiedis, 2025-04-28 The Spiritual Healthy Leader uncovers the core commitments that threaten to sabotage your relationships and ministry *The Mental Anatomies of William Godwin and Mary Shelley* William Dean Brewer, 2001 A number of their mental anatomies reflect the influence of Jean Jacques Rousseau's Confessions and his conceptions of mental transparency sincerity and environmental conditioning Because his primary focus is on Godwinian and Shelleyan perspectives on the mind and its operations Brewer avoids twentieth century psychological terminology and ideas in his discussions of their fiction Ruling Passions Andrew Sabl, 2009-02-09 How should politicians act When should they try to lead public opinion and when should they follow it Should politicians see themselves as experts whose opinions have greater authority than other people's or as participants in a common dialogue with ordinary citizens When do virtues like toleration and willingness to compromise deteriorate into moral weakness In this innovative work Andrew Sabl answers these questions by exploring what a democratic polity needs from its leaders He concludes that there are systematic principled reasons for the holders of divergent political offices or roles to act differently Sabl argues that the morally committed civil rights activist the elected representative pursuing legislative results and the grassroots organizer determined to empower ordinary citizens all have crucial democratic functions But they are different functions calling for different practices and different qualities of political character To make this case he draws on political theory moral philosophy leadership studies and biographical examples ranging from Everett Dirksen to Ella Baker Frances Willard to Stokely Carmichael Martin Luther King Jr to Joe McCarthy Ruling Passions asks democratic theorists to pay more attention to the governing pluralism that characterizes a diverse complex democracy It challenges moral philosophy to adapt its prescriptions to the real requirements of democratic life to pay more attention to the virtues of political compromise and the varieties of human character And it calls on all democratic citizens to appreciate democratic constancy the limited yet serious standard of ethical character to which imperfect democratic citizens may rightly hold their leaders and themselves **The Passions of the Human Soul** Charles

Against Politics Anthony De Jasay, 2014-05-08 Is the state a necessity a convenience or neither It enforces collective choices in which some override the preferences and dispose of the resources of others Moreover collective choice serves as its own source of authority and preempts the space it wishes to occupy The morality and efficacy of the result are perennial questions central to political philosophy In *Against Politics* Jasay takes a closely reasoned stand based on modern rational choice arguments for rejecting much of mainstream thought about these matters In the first part of the book *Excuses* he assesses the standard justification of government based consent the power of constitutions to achieve limited government and ideas for reforming politics In the second part *Emergent Solutions* he explores the force of first principles to secure liberties and rights and some of the potential of spontaneous conventions for generating ordered anarchy Written with clarity and simplicity this powerful volume represents the central part of Jasay's recent work Fully accessible to the general reader it should stimulate the specialist reader to fresh thought

Passion Is the Gale Nicole Eustace, 2012-12-01 At the outset of the eighteenth century many British Americans accepted the notion that virtuous sociable feelings occurred primarily among the genteel while sinful and selfish passions remained the reflexive emotions of the masses from lower class whites to Indians to enslaved Africans Yet by 1776 radicals would propose a new universal model of human nature that attributed the same feelings and passions to all humankind and made common emotions the basis of natural rights In *Passion Is the Gale* Nicole Eustace describes the promise and the problems of this crucial social and political transition by charting changes in emotional expression among countless ordinary men and women of British America From Pennsylvania newspapers pamphlets sermons correspondence commonplace books and literary texts Eustace identifies the explicit vocabulary of emotion as a medium of human exchange Alternating between explorations of particular emotions in daily social interactions and assessments of emotional rhetoric's functions in specific moments of historical crisis from the Seven Years War to the rise of the patriot movement she makes a convincing case for the pivotal role of emotion in reshaping power relations and reordering society in the critical decades leading up to the Revolution As Eustace demonstrates passion was the gale that impelled Anglo Americans forward to declare their independence collectively at first and then finally as individuals
