Finding Runaways and Missing Adults Robert L. Snow, 2012-03-29 Every year in the United States almost two million children run away from home In addition on the average the police in our country have at any one time over 100 000 active missing adult cases This book will show readers how with just a little advance preparation and insight they can greatly increase their chances of finding a missing loved one even after police have stopped actively looking With sensationalized child disappearances teenagers vanishing and adults faking their own deaths the challenge of finding missing persons often falls most directly on those who love them And though in past years this involved a considerable amount of footwork that is no longer the case With the advent of the Internet and the many new search engines available much of the searching and canvassing can now be done from computers Family members and friends looking for missing loved ones need to know what programs and databases to access though to get the search under way Snow reveals to readers the process the police use when trying to locate missing people of interest information that readers can then use to locate their own missing loved ones Using real stories and first hand accounts the author offers hope and guidance to those who may have given up the search for a child a spouse a parent or a friend

Emeritus,2016-03-21 This book reveals the disturbing truth about how the escalation of the War on Drugs over the past 30 years has eroded the human and property rights of Americans while doing little to stop drug trafficking or use Unique in its perspective this eye opening book looks at the drug war as a rights issue and concludes that Americans civil liberties are clearly being violated The volume proceeds from two premises that over the past 30 years America s War on Drugs has done more harm than good and that if the United States is going to reform the criminal justice system the public must understand that this war is empowered by the profits it provides to law enforcement and other groups A central factor causing the upsurge in the drug war the author explains is the fact that laws were passed in the 1980s that allowed law enforcement to profit from seizing property based on scanty evidence and without criminal charges His meticulous research has revealed that this policing for profit is responsible for a variety of assaults on civil liberties including mass incarceration SWAT teams and random drug sweeps A second factor that infects every aspect of the War on Drugs is racism the widespread stereotyping of drug traffickers as African Americans and Latinos These issues and more are explored in this book that lays bare what the media largely ignores **The Wedding Runaway** Karen L.
