Rural China Today:

Rural China Today Frank Leeming, 1985 Study of rural development trends in China looks at the environment and rural economy the continuing commune system and rural planning examines the new responsibility and contract systems production diversification rural industries agricultural marketing etc describes living conditions in plain and mountain areas deforestation and forest establishment and animal production analyses the supply and demand of grain cotton and sugar Illustrations maps photographs references statistical tables *Rural Development in China* Xiaotong Fei, 1989-06-13 This collection of essays written from 1947 1986 by Fei Hsiao tung China s most distinguished sociologist and anthropologist presents a rich and representative sampling of the research that has characterized his long career In 1936 Fei conducted field work in Kaixian gong a village in Jiangsu province in east China This village became the subject of his now classic study Peasant Life in China in which he argued that because of China s huge population and the scarcity of cultivable land household industries such as production of raw silk were vital to the peasants economic survival His conclusions long rejected by China s policymakers have recently been embraced by the government under the political leadership of Deng Xiaopeng Returning to Kaixian gong in 1957 and again in the 1980s Fei examined the changes that had occurred since his initial research Three essays that resulted from these follow up studies are included in this collection providing a rare summary and analysis of developments in the village between 1936 and 1986 Also included here are four articles based on Fei s 1983 84 research in other areas of Jiangsu province His explorations of the contrast between the wealth of southern Jiangsu and the long standing poverty of the northern half of the province address key issues of public policy in China today Useful to students of rural sociology as well as of Chinese history politics economics and anthropology this collection will provide an overview not only of developments in the small towns of China but also of Fei s thought *China's Peasant Agriculture and Rural Society* Jan Douwe van der Ploeg, Jingzhong Ye, 2016-05-20 China s agriculture and rural society has undergone rapid changes in recent years Many poorer farmers and younger people have moved to cities and yet China has an immense challenge to feed a growing and more affluent population This book provides a bottom up view of China s agriculture showing how the many millions of Chinese peasants make a living It presents a vivid description of the mechanisms used by rural households to defend and sustain their livelihoods increase their agricultural production and improve the quality of their lives The authors examine the newly emerging trajectories of entrepreneurial and capitalist farming and assess whether such alternatives will be able to meet the enormous social economic and environmental challenges that China faces The book also explores the paradigm that has underpinned the organisation and development of China s agriculture from ancient times to the present day This shows the importance of balancing in the Chinese model as compared to the one sided imposition of continual modernization in the western model It is argued that such balancing is at the core of the current Sannong policy referring to the three ruralities of food sovereignty wellbeing for peasant households

and an attractive countryside China's Agricultural Development Xiao-yuan Dong, 2017-03-02 This book identifies the main challenges Chinese agriculture is confronting and considers how these challenges might be met The performance of China's agricultural production is comprehensively assessed while the factors that affect agricultural productivity are examined through detailed econometric analysis and up to date nationally representative data *China's Long March to Freedom* Kate Zhou, 2017-09-08 China is more than a socialist market economy led by ever more reform minded leaders It is a country whose people seek liberty on a daily basis Their success has been phenomenal despite the fact that China continues to be governed by a single party Clear distinctions between the people and the government are emerging underlining the fact that true liberalization cannot be imposed from above Although a large percentage of the Chinese people have been part of China's long march to freedom farmers entrepreneurs migrants Chinese gays sex pleasure seekers and black marketers played a particularly important role in the beginning Lawyers scholars journalists and rights activists have jumped in more recently to ensure that liberalization continues Social dissatisfaction with the government is now published in the media addressed in public forums and deliberated in courtrooms Intellectuals devoted to improvement in human rights and continued liberalization are part of the process This grassroots social revolution has also resulted from the explosion of information available to ordinary people especially via the Internet and far reaching international influences All have fundamentally altered key elements of the moral and material content of China's party state regime and society at large This social revolution is moving China towards a more liberal society despite its government The Chinese government reacts rather than leads in this transformative process This book is a landmark a decade in the making **Digital agriculture report: Rural e-commerce development experience from China** Food and Agriculture Organization of the United Nations, Zhejiang University, 2021-08-25 This publication produced by FAO and Zhejiang University examines how rural e-commerce could advance the digital transformation of agri-food systems including increasing production efficiency expanding farmers market access improving poverty alleviation fostering agricultural entrepreneurship and attracting young generations back to their villages for economic revival and rural revitalization It is highlighted that an enabling ecosystem with favourable government policies and strategies public private partnerships and innovative business models is of great importance to accelerate the development of rural areas in China and generate larger economic social and environmental impacts As the largest developing country in the world the experience of digital agriculture transformation in China could be shared with other developing countries The report also discusses some of the challenges encountered and lessons learned during the development of rural e-commerce as well as the proposals for the way forward **Sources of Chinese Economic Growth, 1978-1996** Chris Bramall, 2000-09-14 This analysis of the political economy of growth in the era of Deng Xiaoping takes issue with the growth accounting methodologies and market centred explanations which characterize so much of the literature on transition era China By adopting an approach which echoes the pioneering work of Chalmers Johnson Alice

Amsden and Robert Wade on other East Asian Economies and which makes full use of the rich statistical materials that have become available since 1978 this book shows that Chinese growth was driven by a combination of state led industrial policy and the favourable infrastructural legacies of the Maoist era And in giving due weight to the sheer complexity of the growth process by looking in detail at the experience of four very different Chinese regions it avoids over simplistic macroeconomic generalization Nevertheless even this type of approach is inadequate because it fails to explain why industrial policy has been so much more successful in China than in other countries This book therefore goes beyond the development state approach to argue that state autonomy in China reflected the remarkably equal distribution of income and wealth at the end of the 1970s and paradoxically the destruction of party structures and institutions during the Cultural Revolution The policy implications are stark The Chinese experience demonstrates that industrial policy and state spending on physical and social infrastructure can produce rich rewards conversely slavish reliance on foreign direct investment and trade are likely to limit the pace of growth But attempts to replicate China s success in Latin America sub Saharan Africa and South Asia will fail because their governments will not resist rent seeking by classes and interest groups Moreover as the state becomes weaker in the wake of the re emergence of a powerful capitalist class even Chinese growth may prove unsustainable [Peaceworks](#)

,1995 **Health Economics Disparities, Inequality and Inequity In Healthcare Services: Today's Reality and Tomorrow's Challenges** Avid Tur-Sinai,Netta Bentur,Orna Tal,Royi Barnea,Rachel Gur-Arie,Susanne Hagen,2024-05-31 The principle of equality is the ideological basis for the public healthcare system in most Western countries Equality in availability of and access to healthcare services is an essential condition for fulfilling the patient centered perspective that prevails today in many healthcare systems around the world Equality in health in its various aspects is a value to which many aspire although some extent of inequality and health will always exist Since some disparities in health are unavoidable and individuals are free to live as they wish there will always be gaps among population groups in their abilities and willingness to invest in their health [Institutional Reform and Economic Development in the Chinese Countryside](#) Keith

Griffin,2016-07-08 First Published in 1985 This volume contains material prepared over a three week field trip by the authors in rural China in July and August of 1982 and then again in September 1983 Including field work in the areas of Shaanxi and the Chongqing municipality *Unstately Power* Lynn T. White, III,2017-09-04 A critique of America s flawed Asia policy that centres on US Japan relations but harkens back to the same disastrous views that drew America into Vietnam The technique is a narrative flow of short vignettes woven into longer chapters the main strands are personal reflections and interviews

The Concrete Dragon Thomas J. Campanella,2008-04-17 Thomas J Campanella examines the driving forces behind China s urban revolution and traces both the historical precedents and increasingly globalized flow of ideas trends and information that have combined to create a brave new Chinese cityscape He provides a critical overview of Chinese urban development in light of both China s past and previous experiences of rapid urbanization elsewhere in the world especially

that of the United States a nation that itself once set global records for the speed and scale of its urban ambitions Jacket

U.S. Foreign Policy for a Post-War Recovery Program United States. Congress. House. Committee on Foreign Affairs, 1948 Considers 80 H R 4840 80 H R 4579 *Modernization Of China's Agricultural Production Organizations* Cao Yang, 2023-03-10 This book constructs a new theoretical framework for understanding contemporary Chinese agricultural production organizations from the perspective of promoting farmers realization of substantial freedom and feasible ability The new theoretical framework deepens and expands the theory of agricultural modernization and production organizations The book discusses the multi symbiosis pattern of agricultural production organizations in contemporary China from macro and micro economics perspectives Based on the peasant household economy this multi symbiosis organizational structure co exists and interweaves with various forms of economic organizations The book points out that this multi symbiosis organizational structure is the result of free choice of the majority of farmers since the reform and opening up in turn it also provides a broader organizational and institutional space for farmers diversified choices The book predicts that China s agricultural production organization networking will gradually move towards networking based on diversification and also form networked organization groups China's Post-Reform Economy - Achieving Harmony, Sustaining Growth Richard Sanders, Chen Yang, 2007-12-11 This book discusses the very latest issues relating to China s remarkable economic growth It provides comprehensive coverage of them including economic political economic environmental and philosophical questions

Chinese Social Policy in a Time of Transition Douglas Besharov, Karen Baehler, 2013-06-27 Examines the consolidation of Chinese social policy partly as a result of economic liberalization and expansion **Political Participation in Beijing** Tianjian Shi, 1997 In this first scientific survey of political participation in the People s Republic of China Tianjian Shi identifies twenty eight participatory acts and groups them into seven areas voting campaign activities appeals adversarial activities cronyism resistance and boycotts What he finds will surprise many observers Political participation in a closed society is not necessarily characterized by passive citizens driven by regime mobilization aimed at carrying out predetermined goals Beijing citizens acknowledge that they actively engage in various voluntary participatory acts to articulate their interests In a society where communication channels are controlled by the government Shi discovers access to information from unofficial means becomes the single most important determinant for people s engaging in participatory acts Government sponsored channels of appeal are easily accessible to ordinary citizens so socioeconomic resources are unimportant in determining who uses these channels Instead voter turnout is found to be associated with the type of work unit a person belongs to subjective evaluations of one s own economic status and party affiliation Those most likely to engage in campaign activities adversarial activities cronyism resistance and boycotts are the more disadvantaged groups in Beijing While political participation in the West fosters a sense of identification the unconventional modes of participation in Beijing undermine the existing political order 1989-1990 John Paxton, 2021-06-21 No detailed description available for 1989
