Legions of Pigs in the Early Medieval West Jamie Kreiner,2020-10-27 An exploration of life in the early medieval West using pigs as a lens to investigate agriculture ecology economy and philosophy From North Africa to the British Isles pigs were a crucial part of agriculture and culture in the early medieval period Jamie Kreiner examines how this ubiquitous species was integrated into early medieval ecologies and transformed the way that people thought about the world around them In this world even the smallest things could have far reaching consequences Kreiner tracks the interlocking relationships between pigs and humans by drawing on textual and visual evidence bioarchaeology and settlement archaeology and mammal biology She shows how early medieval communities bent their own lives in order to accommodate these tricky animals and how in the process they reconfigured their agrarian regimes their fiscal policies and their very identities In the end even the pig s own identity was transformed by the close of the early Middle Ages it had become a riveting metaphor for Christianity itself

Church and People in the Medieval West, 900-1200

Sarah Hamilton,2015-08-12 During the middle ages belief in God was the single more important principle for every person and the all powerful church was the most important institution It is impossible to understand the medieval world without understanding the religious vision of the time and this new textbook offers an approach which explores the meaning of this in day to day life as well as the theory behind it Church and People in the Medieval West gets to the root of belief in the Middle

Ages covering topics including pastoral reform popular religion monasticism heresy and much more throughout the central middle ages from 900 1200 Suitable for undergraduate courses in medieval history and those returning to or approaching the subject for the first time **A Chronicle of All that Happens** Sherri Olson, Pontifical Institute of Mediaeval Studies, 1996

The Cambridge Illustrated History of the Middle Ages Robert Fossier, 1986 This is the second volume of one of the finest general introductions to the medieval world of recent times first published in French by Armand Colin Volume II begins at the turn of the millennium and covers the extraordinary rebirth of Europe in terms of demographic expansion agrarian settlement and organisation the establishment of towns and villages the ascendancy of the feudal system the appearance of formal states and kingdoms and the dramatic controlling ascendancy of the western Church In the east despite the external appearance of grandeur the Islamic countries were being torn apart by mutual rivalry while the Byzantine empire lost massive border territories through political and economic incompetence Full coverage is given to both east and west and their artistic heritage is displayed lavishly in many of the colour plates A comprehensive bibliography is also included

The Archaeology of Peasantry in Roman Spain Jesús Bermejo Tirado, Ignasi Grau Mira, 2022-01-19 This volume aims to present an updated portrait of the Roman countryside in Roman Spain by the comparison of different theoretical orientations and methodological strategies including the discussion of textual and iconographic sources and the analysis of the faunal remains The archaeology of rural areas of the Roman world has traditionally been focused on the study of villae both as an architectural model of Roman otium and as the central core of an economic system based on the extensive agricultural exploitation of latifundia The assimilation of most rural settlements in provincial areas of the Roman Empire with the villa model implies the acceptance of specific ideas such as the generalization of the slave mode of production the rupture of the productive capacity of Late Iron Age communities or the reduction in importance of free peasant labor in the Roman economy of most rural areas However in recent decades as a consequence of the generalized extension of preventive or emergency archaeology and survey projects in most areas of the ancient territories of the Roman Empire this traditional conception of the Roman countryside articulated around monumental villae is undergoing a thorough revision New research projects are changing our current perception of the countryside of most parts of the Roman provincial world by assessing the importance of different types of rural settlements In the last years we have witnessed the publication of archaeological reports on the excavation of thousands of small rural sites farms farmsteads enclosures rural agglomerations of diverse nature etc One of the main consequences of all this research activity is a vigorous discussion of the paradigm of the slave mode of production as the basis of Roman rural economies in many provincial areas A similar change in the paradigm is taking place with some delay in the archaeology of Roman Spain After decades of preventive emergency interventions there is a considerable quantity of unpublished data on this kind of rural settlements However unlike the cases of Roman Britain or Gallia Comata no synthesis or national projects are undertaking the task of systematizing all these data With the intention of

addressing this current situation the present volume discusses the results and methodological strategies of different projects studying peasant settlements in several regions of Roman Spain *Local Societies and Peasantry Agencies in Medieval Iberia* Juan Antonio Quirós Castillo, 2025-01-26 Despite the significant attention medieval scholarship has devoted to the study of peasant societies these groups have traditionally been depicted as passive and homogeneous merely able of resisting pressures from the state or powerful individuals However in recent years the availability of new records the widespread adoption of microhistorical analyses and the renewal of conceptual frameworks have enabled scholars to undertake more detailed and nuanced investigations This collective volume aims to explore the political economic and social practices of Iberian medieval peasant societies A key finding of this multivocal analysis is the revelation of the relative subalternity of medieval ruling groups and the constraints on peasant actions across various geographical and chronological contexts

Neighbours and Strangers Bernhard Zeller, Charles West, Francesca Tinti, Professore Aggregato (Lecturer) in Medieval History Marco Stoffella, Nicolas Schroeder, Carine van Rhijn, Steffen Patzold, Vertreter Einer Professur (Acting Professor) Thomas Kohl, Wendy Davies, Akademische Oberrätin Im Hochschuldienst (Senior Lecturer) Miriam Czock, 2022-07-05 This book explores rural societies in western Europe from 700 1050 It focuses on the bottom of the social hierarchy rejecting views that see rural society exclusively through the structures of lordship and challenging the teleological idea of the residential group as the prototype of the late medieval structured community *The Communal Age in Western Europe, c.1100-1800*

Beat Kümin, 2013-05-24 An essential introductory survey of the towns villages and parishes in which people lived in the medieval and early modern periods Beat Kumin assesses the similarities differences and the wider significance of these communities for European society prior to 1800 **The Medieval Frontiers of Latin Christendom** Felipe

Fernandez-Armesto, 2017-05-15 The aim of this first volume in the series The Expansion of Latin Europe is to sketch the outlines of medieval expansion illustrating some of the major topics that historians have examined in the course of demonstrating the links between medieval and modern experiences The articles reprinted here show that European expansion began not in 1492 following Columbus's voyages but earlier as European Christian society re arose from the ruins of the Carolingian Empire The two phases of expansion were linked but the second period did not simply replicate the medieval experience Medieval expansion occurred as farmers merchants and missionaries reduced forests to farmland and pasture created new towns and converted the peoples encountered along the frontiers to Christianity Later colonizers subsequently adapted the medieval experience to suit their new frontiers in the New World *The Shaping of a Community*

Beat A. Kümin, 2016-12-05 This book offers a new perspective to the current debate about popular religious attitudes in Tudor England laying particular emphasis on the social and secular dimensions of parish life The argument focuses on the role of the laity and especially on the office of churchwarden It assesses the rising levels of parish income the importance of the social context for fund raising strategies and the growing expenditure on priests voluntary activities and administrative

duties The final part discusses the Reformation related reduction in religious options and the intensifying trend towards oligarchical parish regimes and official local government responsibilities Wherever possible the English situation is put into sharper focus by comparisons with local ecclesiastical life on the Continent and appendices provide a detailed financial analysis for a large number of parishes Europe in the High Middle Ages William Chester Jordan, 2004-02-24 The Penguin History of Europe series is one of contemporary publishing's great projects New Statesman It was an age of hope and possibility of accomplishment and expansion Europe's High Middle Ages spanned the Crusades the building of Chartres Cathedral Dante's *Inferno* and Thomas Aquinas Buoyant confident creative the era seemed to be flowering into a true renaissance until the disastrous fourteenth century rained catastrophe in the form of plagues famine and war In Europe in the High Middle Ages William Chester Jordan paints a vivid teeming landscape that captures this lost age in all its glory and complexity Here are the great popes who revived the power of the Church against the secular princes the writers and thinkers who paved the way for the Renaissance the warriors who stemmed the Islamic tide in Spain and surged into Palestine and the humbler estates those who found new hope and prosperity until the long night of the 1300s From high to low from dramatic events to social structures Jordan's account brings to life this fascinating age Part of the Penguin History of Europe series edited by David Cannadine *Routledge Revivals: Medieval Germany (2001)* John M. is on missionaries adaptation to four ideal typical social settings that played an eminent role in early modern Asian missions 1 the symbolically loaded princely court 2 the city as a space of especially dense communication 3 the countryside where missionary presence was only rarely permanent 4 and the household a central arena of conversion in early modern Asian societies Shining a fresh light onto the history of early modern Catholic missions and the early modern Eurasian cultural exchange this will be an important book for any scholar of religious history history of cultural contact global history and early modern history in Asia Chapter 8 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
